Scharrenberg Serves Notice of Tentative Plan to Urge Measure Making Board of Regents Elective Officials

Von Bernard Bill Cutting Tenure of Office from 16 to 8 Years Centers Flurry in Politics at Capital

By F. VAN LEE HUBBINK
Tribune Bureau, Sacramento, April 17.—(By United Press.)—The University of California Alumni Association and the University of California Labor Union are near a clash over the proposed measure making the board of regents elective officials.

Dr. Houghton has been in Sacramento for the past few days in behalf of the bill which would reduce the tenure of office from 16 to 8 years.

He announced that his purpose is to "keep the regents out of politics." Dr. Houghton has had several conferences with both Assemblymen Van Bernard and with Scharrenberg. He declared today that he had agreed to desert from "lobbying" and that he had understood from Scharrenberg that the labor representatives would do the same, both parties allowing the bill to take its course and to be decided in the legislature on its merits only. This is deemed by Scharrenberg, who states "I have given up such a struggle and I will certainly continue to lobby for the Van Bernard bill which labor and agriculture both consider of the highest importance."

Scharrenberg added that he had formed Dr. Houghton into a "committee" to look after the bill, but that it is not so yet. He will put a proposition on the floor to make the bill a referendum on a referendum.

Scharrenberg and his followers are said to be of the opinion that the board of regents is "infusing into the university a spirit that is not a sufficient democratic element."

The main fight today centers on the bill to make the regents elective officials. The bill is generally looked upon as a "bill to bring the regents to heel" and to force them to be answerable to the people.

Dr. Houghton admits opposing the bill. He is a post graduate course at the University of California.

Water Shortage This Summer in State Predicted

CALIFORNIA'S summer water supply will be limited and may prove inadequate to satisfy all demands, according to estimates made in the latest snowfall bulletin issued by the United States Weather Bureau.

"Snowfall was markedly deficient during March in the elevated portions of California," the bulletin states. "Less snow fell than during any other March in many years."

"The abnormally dry weather of the latter half of last winter was a marked contrast with the abnormally wet weather of the early half. This has necessarily reduced estimates of available water supply. Streams will probably continue unsatisfactory long during the spring months, and the low water stages will probably occur somewhat earlier than usual during the summer."

In the Sierra Nevada mountains the snowfall during March was limited to the higher elevations. The snowfall in the Coast Range in the mountains of Southern California the little snow that fell melted rapidly.

It now appears inevitable that there will be a shortage of water for irrigation and hydroelectric purposes during the latter part of the coming summer, particularly in the Sacramento-San Joaquin Valley," the report says.

VOTE OF 35,000 EXPECTED TODAY

Main Fight Centers About Mayor's Office, With Four Contestants.

P. B. Publico, that mysterious personage so frequently appealed to during the last month or so, stepped into the light today.

At 6 o'clock this morning he went into the tented polling place and began the business of deciding the fate of the several candidates for mayor.

According to the political wires, the vote at the primary election will be about 35,000.

Deputy City Clerk Fred Merrill announced that he expected a vote between 30,000 and 35,000.

He has his opinion on past elections and sets forth that 35,000 can be considered as a big vote at a primary election, according to statistics.

MAJORS OFFICE FURNISHES CONTEST

The main fight today centers on the bill to make the regents elective officials. The bill is generally looked upon as a "bill to bring the regents to heel" and to force them to be answerable to the people.

NEW HEAD TO REORGANIZE UNIVERSITY

Dr. Campbell Considers Several Changes in Administrative Machinery of Big State Educational College

Plans to Add Office of Vice-President to Take Over Many of Executive's Social and Other Duties

PICKETED, April 17.—(By United Press.)—The University of California is now looking for a new head to reorganize the administrative machinery of the big state educational college.

Dr. Campbell considers several changes in the administrative machinery. He plans to add an office of vice-president to take over many of the executive's social and other duties.

French and Belgian Cabinet Ministers' Train Bombed; Labor Riots in Commons As Ruhr Protest Refused

PARIS, April 17.—(By United Press.)—Attempts were made today to work out a compromise between the French and Belgian cabinet members into the Ruhr district to supervise the enforcement of more drastic methods by the armistice of occupation. A train supposed to have been carrying French officials into the occupied area was bombed and the train derailed. No one was injured.

OAKLAND ON EVE OF COMMUNITY CHEST CAMPAIGN

Three Thousand Workers
Will Take Field to Raise
Fund of \$486,000

(Continued from Page 1)

Garthwaite, president of the Community Chest organization, yesterday. "This money is not given at one time, but at a number of times during the year. Under the Community Chest plan it is asked that he subscribe for this money at one time. This, however, does not mean that he must pay it all at one time. The contribution will be collectible in installments."

CITY DIVIDED
INTO 15 DISTRICTS.
As the result of giving under the Community Chest, and at one time, it is pointed out that the subscribers will profit by the fact that their money will go further, will accomplish more, and that they will be relieved of the continuous round of tag days and drives which have been made in the past.

Oakland, for the purpose of expediting the work of the campaign, has been divided into 15 districts, and Piedmont and Emeryville have been classified as additional individual interests. Each district has been given a quota and the various teams have been assigned to various districts. Consequently, if each team organization reaches its quota, the quota for the entire city will be automatically and easily raised.

Berkeley to Close Campaign Tonight

BERKELEY, April 17.—The Community Chest drive will be brought to a close tonight with a dinner meeting at 6:15 of the 750 district leaders, team captains and solicitors in the high school cafeteria. It is believed that a final report from district leaders will show that Berkeley has gone over the top.

Already sufficient money has been subscribed to insure the twenty-one social welfare agencies named as chest beneficiaries receiving their full budgets aggregating \$102,785, and the campaign and office expenses for the year amounting to \$13,000. Campaign Manager Roy R. Henderson said today he felt certain that the contingent fund of \$18,600 also would be fully subscribed by tonight or that the money would be in sight.

BANK HELD BANKRUPT.
BARI, Italy, April 17.—The court here has proclaimed as bankrupt the Tisho Bank of Banto, owned by Vincenzo, Francesco and Riccardo Tisho. It also ordered the arrest of Riccardo Tisho, who is accused of having absconded with the money deposited in the bank.

Chest Will Bring Them Aid

Here are a few of those who will benefit by Oakland's Community Chest Campaign. Upper picture shows a scene at the Bay Hospital Association; just below that is a scene at the Salvation Maternity Home; next to the bottom is a picture of three orphans at the Fred Finch Orphanage. The lower picture is of a disabled former service man.

WE OPERATE 26 RESCUE HOMES

FATHER USED BOY AS DOPE CARRIER, TRIAL REVEALS

Three Accused of Violating
State Poison Law, One
Fails to Appear.

The story of how an 8-year-old boy was used as a "go-between" to purchase narcotics for his father, who was a dope addict, was brought out in police court today during the trial before Judge William J. Honnessey of John P. Welsh and Jack Mulhall for violation of the State poison act.

Mulhall and Welsh were arrested two weeks ago by Inspector J. J. Dunbar of State Board of Pharmacy. Mulhall, who is at liberty on bail of \$200, failed to appear in court today and Judge Honnessey issued a bench warrant for his appearance. Mulhall and Welsh will be arraigned tomorrow for decision.

The men were taken into custody at Welsh's home, 896 Thirty-third street, by Dunbar after the latter had found a note, presumably meant for Welsh, in the lodgings of Frank Madden, now serving a sentence of 75 days in the city prison for violation of the narcotic law and petty larceny. After the men were arrested a search of the premises, according to Dunbar, revealed a set of scales, a bundle of paper and a small quantity of morphine as well as other narcotic paraphernalia.

The note which led to the men's arrest follows:

"Jack: Give the kid some 'M'. You know you could of been up before this."

It was unsigned. Upon finding the note, Dunbar found Madden's 8-year-old son, who told him that he had often carried notes to the Welsh dwelling. The arrest followed.

The prisoners denied any knowledge of the narcotics and equipment found in the house.

The custody of the child has been awarded by Superior Judge E. C. Robinson to Mrs. Madden, who has been separated from her husband and said that Madden had thwarted her attempts to see the boy. Her address is withheld by the authorities, who fear that Madden may make an attempt to get the boy upon completing his sentence.

AMERICAN SARE ANXIOUS TO SEE ROYAL NUPTIALS

By CHARLES M. MOANN,
United Press Staff Correspondent.
LONDON, April 17.—Legions of American sightseers are descending upon London to catch a glimpse of royal splendor in matrimony.

The wedding of the Duke of York, who some day may be king of England, to Lady Elizabeth Bowes-Lyon, scheduled for April 26, is the object of their curiosity and the increasing number of sightseers from every boat from New York caused one newspaper to remark:

"It is the typical democratic love for the aristocracy."

A brilliant, luxurious pageant setting is being prepared for the royal ceremony. Presents are pouring into the royal residence, stands are being constructed along the route of the wedding procession, tickets for the royal wedding are being eagerly sought, the aristocracy of England is preparing, the newspapers are filled with news of the impending royal wedding.

Communists Join Soviet Off Shoot

NEW YORK, April 17.—(By Associated Press.)—The Communist Party of America has dissolved itself and diverted its members to the Workers' Party of America, which it recognizes as the only affiliation of the Third Internationale of Moscow in the United States. It was disclosed today by associates of C. E. Ruthenberg, secretary of the central executive committee of the Workers' party.

The authorities, who fear that Madden may make an attempt to get the boy upon completing his sentence.

TWO PROHIBITION SLEUTHS KILLED BY RUM RUNNERS

Unions' Representative Says
Defeat Means Plan for
Elective Offices.

NEW ORLEANS, April 18 (P. International News Service).—Deputy Sheriff Estepal an August Esteve, prohibition agent of St. Bernard parish, south of the city, were killed early today in gun battle with rum runners on a highway. One of the rum runners was wounded. The other escaped.

Three men suspected of being members of the rum running gang were rounded up by New Orleans police and sent to St. Bernard parish this afternoon for identification.

The gun fight took place at Vidout, La., nine miles below New Orleans, where the deputies captured two truckloads of liquor being brought to this city. The St. Bernard officials trapped the rum runners on the bridge crossing the Lake Bernard canal.

The rum runners, heavily armed, and outnumbering the officers, poured a rain of lead into the officers. Both men were instantly killed.

Colonel Guy Moteney, chief of police, and Captain Ray of the New Orleans police department and a large force, with the St. Bernard parish officials, are engaged in a manhunt for the escaped rum runners, under the leadership of District Attorney Philip R. Livaudais.

FIRST SWIM FATAL.

NEW YORK.—Taking his first swim of the year at a local beach, Henry Snyder collapsed and died a few years later.

Loses Last Fight BISHOP DANIEL S. TUTTLE, Episcopal leader, who died today struggle for his life.

U. S. EPISCOPAL
CHURCH LEADER
TAKEN BY DEATH

D. S. Tuttle, Senior Bishop of the Episcopal Church in the United States, died at his home here this afternoon.

His death followed several weeks of illness, which started with a severe attack of grippe. The bishop was 86 years of age.

The bishop's two sons, George M. and Arthur, the only surviving relatives, were at his bedside when he died.

Paris Begins Its
Theater Clean-up

PARIS, April 17.—"Edith de Nante" is the first play to be withdrawn from the boards in the government's clean-up of the Paris playhouses. The management of the production said the authorities took no action to stop it, but the play was suddenly cancelled last evening. It opened on Sunday and a long run had been expected. Several indignant spectators left the theater during the first performance.

RUHR AFFAIR TO KEEP U. S. MOVIE TRADE IN FRANCE

Importation of German Film
Reduced Since Occupation,
Secy. Hoover Told.

(By International News Service.)
WASHINGTON, April 17.—The
irritation caused by the French
occupation of the Ruhr has greatly
reduced the number of German
motion picture films exported to
and exhibited in France, thereby
opening the way for American
companies, according to a report
to Secretary of Commerce Hoover
from the American Commercial
Attache in Paris.

The competition of the United
States and Germany in the French
motion picture industry had be-
come so keen before the occupa-
tion, the attache stated, that the
Comite Interindustriel de Industrie
Cinematographique Francaise ad-
dressed to its representatives in the
Chamber of Deputies vigorous pro-

tests against this foreign develop-
ment.

In these protests it was pointed
out that France is far behind the
United States in the production of
motion pictures. The members of
the French motion picture organi-
zation admitted, however, that this
condition was due in a certain de-
gree to the limitations of the
French market, France having only
about 2,500 movie houses, while
the United States has 17,000 and
Germany has 3,000.

The French producers expect
many of their movie theaters to
close this spring, despite the fact
that even now French production
cannot live on the home market.
The expense involved in producing
elaborate pictures is so great that
if the French succeed at all, they
must have an extensive acceptance
abroad, where, however, they come
into contact with the big American
and German companies.

Leaders in the French motion
picture industry are said to agree
that the remedy lies in the reduc-
tion of taxes placed against movie
theaters by the government.

Salinas Residence Raided By Dry Men

SALINAS, April 17.—Liquor
seizures were made here Saturday
evening when dry sleuths raided
the residence of Lorenzo Gioletto,
224 Market street, and The Oasis,
22 Market, Gioletto and Antonio
Derasi, proprietor of the latter
place, were arrested on charges
of unlawful possession.

GERMAN GIRL LIKES AMERICANS

DEFIANCE, Ohio, April 17. (In-
ternational News Service).—Noth-
ing but praise for the American
soldier of the Army of Occupation
can be heard from Miss Elsie
Becher, 26-year-old German, who
recently arrived from Coblenz,
Germany.

At the home of Fred
Foelker Sr., she is awaiting the dis-
charge of Fred Foelker Jr., 33,
from the army next July. Then they
plan to get married. Fred and Elsie
met while Fred was serving at
Coblenz with the American Army
of Occupation.

Declaring the German people
have no use for the French and
would resist them with weapons,
instead of passively through
strikes, if they were properly
equipped, Miss Becher voiced ve-
hement hatred for the French sol-
dier.

Although she left Coblenz before
the French invaded the Ruhr she
said the hatred was manifested
daily in quarrels between French
and German citizens, many of the
settles resulting in fatalities.

The German laborers, she said,
are extremely hard pressed be-
cause of the depreciation of the
mark. Unable to buy eggs and
bread, they eat only potatoes and
cabbage, Miss Becher said.

MOSBACHER'S

Wednesday

Specials

That Prove Again—No Place
Like Mosbacher's for Values

WOMEN'S FIBER HOSE

Semi-fashioned and strongly re-
inforced—brown fiber hose...
TWO pairs for \$1

Women's Silk and Lisle SPORT HOSE

Choice of three different colors...

Chest! To the brim,
and running over.

Dare to look in Life's Mirror

SEE Yourself a Foundling; with neither
parents, brothers, sisters, or even dis-
tant known kin; a poor little leaf of
Humanity fluttering wistfully on an un-
charted sea; the helpless, perhaps hope-
less, ward of a seemingly cruel World.

SEE Yourself a Magdalen, a willing or
unwilling Creature of the Gloom; now
spurned by men and beneath Fate's notice;
brushed contemptuously by your "sisters
under the skin" (?); nothing left in life but
the hope or a soon and comfortable Death.

SEE Yourself "Down but not Out;"
simply "Out of Luck;" quickly
stripped, by a nodding Destiny, of every
necessity, convenience, friend and dollar;
able to Do, but unable to get the smallest
toehold on the chance to Do.

See Yourself as any one of Life's temporary or permanent Unfortunates, and—

Let your Heart tell you what to do

SEE Yourself a Crippled Child, with
crooked limbs, wracked body and
pain-drawn face; unable to romp and
laugh with other children; searing your
mentality clear into the cheerless Future;
seeing no Vision of Health, or Hope, or
Happiness; hearing no live sound save
the dull beating of pauper-pain.

SEE Yourself a sad Widow, with one or
more "Hostages to Fortune" to assuage
your grief; little mouths to feed, little
bodies to clothe, little minds to train; no
estate to pay the bills; minimum ability,
and minimum time, to work; surrounded
by Debt, Sorrows and the countless ob-
stacles of Indifference and Selfishness.

SEE Yourself, Aged and Infirm, with
darkening sight and fading hair; alone
with Memory in the company of fifty other
"indigent poor," in a squeaky, draughty
barracks gracefully called a Poorhouse;
no money; no friends; nothing but an
Existence; enduring simply because the
Scythe has not yet fallen.

Community Chest Drive April 19 to April 27

SIX STORES—HEADQUARTERS FOR HART SCHAFFNER & MARX CLOTHES

ELMHURST CHILD CITIZENS SHOW VARIED TALENTS

Community Chest Play, Shoe Mending Shop Among School Activities.

By FRANCES MONTGOMERY.
In a cluster of school buildings set in their many acres of recreation ground and green fields the real progressive spirit of Elmhurst works and plays.

The Elmhurst school citizens from tiny child to the youth of seventeen work in their quiet way their wonders to perform for they are preparing an elaborate May fete, they mend their own shoes, and their dramatic stars of seven years or thereabouts already have staged a powerful Community Chest play with original words and made scenery. They publish their own school paper every two weeks and they have honor roll trips to points of interest in and about Oakland for those students obtaining high marks.

The May fete planned for May 4 means music and gaiety. The school's orchestra will play and the talented girls and boys in colorful costumes will dance Russian, French, Scotch and other national folk dances. Against the background of blue hills, human batteries will fill and of course the fete will be crowned with a May pole dance on the green.

MEND OWN SHOES
Perhaps the most original idea to be in working order at Elmhurst school is their cobbling outfit. A few years ago a committee of teachers found it more economical and practical to purchase a cobbling apparatus than to distribute shoes to those who need them. The cobbler's outfit was set up and any pupil who wishes may for the mere cost of the leather, mend his own shoes. It saves him money and the boy learns.

Just now athletics are of more than usual interest to Elmhurst students. Their favorite soccer football has given way for the nonce, to baseball and track.

Their little news sheet called the "Red and White," is neatly edited by the students and it spreads real news of athletics, art and social doings. The latest copy proposes a citizens' club, announces an exhibition of students' educational cartoons, a track meet and a debate. A full account of the honor roll, excursion through Hotel Oakland will be given in the magazine edition of the Red and White, which appears monthly. Principal H. W. Campbell says: "It may be all right to tell children to be good and all right to tell children to be happy, but since these things have been instituted,

Elmhurst Youngsters at Work and Play

the membership of the honor roll has increased 400 per cent."

The boys have a fully equipped sheet metal works and turn out professional looking containers of all shapes and sizes, perfectly fitted pipes and canteens and even supplied the miniature cove and drain pipe for the house used in the Community Chest play of the primary department. This substantial and artistic house was built by the boys in the manual training department and is a triumph for the admiration of both tiny and grown up actor. You should see also the perfectly chiseled broad boards and ironing boards small boys are making at Elmhurst school, but the little

PLAN FOR CHEST
There was Mrs. Rich Family and Mrs. Poor Family and there was also the Community Chest and all three got together in a way that had they witnessed it, no grown up could have refused to pattern after. The tiny rich in their tiny house served food and drink on their tiny table to the tiny poor, and they gave their tiny offering which was the only thing not tiny to the play for as the song went, "We'll not give pennies but dollars," and the whole tiny performance, great in import, ended with the ensemble chorus looking more dignified than ever in grown up costume.

times, singing the grand finale thus:

Where does the money go?
Where does the money go?
Where does the money go?
To the Community Chest.

The play was from the pen of Miss Drewery, who heads this department. The girls of Elmhurst school are weaving silk rugs on their large and well equipped loom which is also a product of the school. Hand and table looms are being installed. Exquisite woven are the three foot rugs made by these girls of 14 to 17 years.

Elmhurst boys and girls are outdoor enthusiasts and after school hours they go to the school grounds gathering great bunches of lilacs and California poppies.

60 Librarians at Los Gatos Convention
LOS GATOS, April 17.—Nearly sixty librarians and library trustees, together with State Librarian Milton J. Ferguson, attended the semi-annual conference of the second district California state library association, held here Saturday. Among the guests were Monterey, San Benito, Santa Cruz and Santa Clara counties were represented.

Park Commission to Apply for \$165,000

MAUNTEEN, April 17.—Meeting in Oakland Friday night the Mount Diablo Park Commission, of which James F. Hory is chairman, determined to ask the state legislature for an appropriation of \$165,000 for purchase of additional lands for the Mount Diablo State Park and for provision of buildings at the park.

A skeleton bill for an appropriation for the park has been introduced in the Senate by Senator Will R. Sharkey and at the instance of the park commission it will be filled in to ask the \$165,000 appropriation.

Determination to ask this amount was reached after the Contra Costa Tenters' association had submitted a report on appraisal of lands that the commission may desire to secure.

HAWAII RAILS CALLED DEFENSE IN NEXT U. S. WAR

Islands Must Be Made Impregnable, Declares Army Officer

SAN FRANCISCO, April 17.—Hawaii, and the railroads of the Pacific coast will provide the principal defenses of this country in its next war, which will be fought on the Pacific, according to Lieutenant-Colonel Roger S. Fitch, U. S. A., speaking at the luncheon today of the national association of the Army of the United States at the Palace Hotel.

"The first thing to be done in order to prepare for future emergencies, the army officers declared, is to provide 'an impregnable Hawaii,' since this would impede a major operation of an enemy fleet against the Panama Canal and the Coast itself.

Next to this in importance come the railroads, Colonel Fitch declared. These should be protected along the coast and into the interior, he said. In a major war such as the United States has had on an average of every twenty years during its history, "Colonel Fitch pointed out, the Pacific coast would receive its main attacks and supplies from a hub centered at Ogden and branching out to the coast in a southeasterly, westerly, and northwesterly direction.

REDUCED BUDGET PERILS FORESTS, CLAIMS PARDEE

Resigned Official Says Every Dollar Saved Will Cost \$1000 in Fires.

That the State Board of Forestry is deprived, by Governor Richardson's budget, of the power to do its duty to prevent or suppress fires, was the explanation given by former Governor George C. Pardee at his home here, of his refusal to reconsider his resignation from that board which was accepted by the governor yesterday. He predicted that every dollar saved by the budget cut would cost the people of the state \$1000 in forest fires.

"I resigned," former Governor Pardee declared, "because the governor's budget, both in its first and its second edition, has left the State Board of Forestry without the power, because of too small an appropriation, to do its duty. It cannot, with the appropriation allowed by the governor's budget, prevent or suppress fires.

"The 15,000,000 acres of land lying outside of the national forests is thus left at the mercy of fire-catchers—hunters, trappers, and other people going from the cities into the country. The automobile makes it convenient and easy for

such people to carry fire into the country. "Although I am not a prophet to predict that every dollar the governor has saved by cutting down the appropriation for fire-prevention, fire-fighting, and fire-suppression, will cost the people of this state \$1000. "Everybody in the state, whether

SCHOOL BOARD TAKES ACTION ON ASSEMBLY BILL

U. C. Student Complains On Alleged Abuse of High School Janitor.

A resolution introduced by Director Georgia Ormsby, opposing the present assembly bill 534 now before the state legislature, was adopted last night by the Oakland board of education and copies will be sent to each legislator.

The resolution asserted that the proposed bill would nullify the present "teachers' tenure law," and would leave educators open to dismissal at any time, for any cause not definitely set forth in the bill.

At present no teacher with two years of service can be discharged except after trial by the board of education, upon definite charges.

A communication was received from the Golden Gate Improvement Club, suggesting that the cornerstone of the new Golden Gate school be laid under Native Sons auspices. This was approved, and the details will be arranged later.

A complaint against the alleged brutality of a janitor in a high school was preferred before the board by James E. Newman, student at the University of California, who alleges he was called "cur" and "stunk" when visiting the Technical high school. The superintendent of schools will investigate.

Kimball Binghamman a student at

Rockefeller Quiz Data Give Formula for Blues

(Continued from Page 1)

The reasons given for unhappiness of married life are found in the following table:

Incompatibility of temperaments or interests	40
Difficulties of adjustment of social life (a) on the part of the husband 18, (b) on the part of the wife (5)	23
Economic reasons inability of husband to support family; one case of desertion	14
Husband unfaithful	12
Husband alcoholic	10
No children	4
Not sufficient love for husband	4
Violent and uncontrolled temper of husband	4
Religious differences	3
Too great disparity of age	3
Too much mother in law	3
Absence overseas changed husband's attitude toward home and morals	3
Husband insane—1; melan-cholic moods—1	2
Husband dishonest	2
Inability to adjust practice of medicine to home life	2
Ill health of wife	2
Ill health of husband	2
Wide poor housekeeper	2
Differences in sexual standards	2
Cruelty	2
"Disappointed" in husband	2
Children too close together	2
Husband a morphine addict	2

An inspection of this table raises a number of questions. Only four women gave "no children" as cause.

Technical says he lost a \$100 saxe-phon, stolen from his locker at school. This will also be investigated.

and education between the two classes there was selected a group of 116 who were happy and whose age and education corresponded exactly with those of the unhappy group.

eliminating these two factors. If the first case of that of an unhappy marriage was that of a college woman of thirty-five, the first case of a happy marriage where the wife was of the same age and education was chosen.

The same percentages held good under this test also.

As to whether or not occupation outside the home is conducive to married happiness the following table goes to prove that it is not:

Unemployed	229	180	409
Employed	681	612	1293
Total	910	792	1702

HAPPY WITH CHILDREN

As to whether or not children's marriages may be happy marriages, it is significant to note that only four women gave "no children" as the reason for unhappiness of married life. Two hundred and six men and women were grouped, however, as this group contains 190 women under thirty years of age, it is highly probable that a considerable number may yet become mothers and in any case the hope of children may still be entertained.

In considering whether or not early marriage makes for unhappiness, it may be noted that statistics show that all age groups, the age of the happy 116 women at the time of marriage is greater than that of the unhappy 116.

Considering likewise the age of the husband at the time of marriage, the study of two groups of equal size and of the same age and education shows that the happy group on the whole is composed of women whose own age and that of their husbands was greater than that of the unhappy group.

In three cases, disparity of age was given as the cause of unhappiness. In order to study the factor of age difference and their effect on married happiness, there was selected from each group of 116, first, all those cases in which the husband was more than ten years older than the wife, second, a group in which the wife was more than three years older than the husband. To these was added a small group where both man and wife were under twenty-one at the time of marriage.

It was learned that while among the unhappy, there were eight cases where the husband was more than ten years older, there were only three such cases among the happy. Where the wife was more than three years older than the husband, there were four cases among the unhappy and two among the happy.

Of the five instances where both the partners were under twenty-one at the time of marriage, four resulted unhappy.

DODGE SPOONING

The table giving statistics as to "spooning" before marriage prove

that "spooning" militated against married happiness. The table reads:

NUMBER AND REPLY			
Question	Yes	No	Total
Did you spoon before marriage?	186	21	207
Did you spoon after marriage?	218	55	273
No spooning	58	34	92
Total	972	111	1083

Details:

Unspecified	11	9	20
"Not far"	21	2	23
Kissing only	50	4	54
Hugging and kissing	104	83	187
Brushing hair and fondling	45	40	85

It was learned from the study of the lives of these married women that the average age of the group at the time of answering the questionnaire was thirty-eight years. This means that their mothers and teachers were of a generation to whom, for the most part, any discussion of sex was taboo.

The bureau considers, however, that it is significant that their research shows that nearly fifteen per cent of the happy group had received some general sex instruction, while only forty-four per cent of the unhappy group had been so instructed.

The question: "Would a constructive and frank statement before marriage of the essential facts you discovered in early marriage have helped or harmed you?" brought answers which formed the basis for the following table:

Helped	45
Harmed	11
Neither	44
Preparation unnecessary in their own case	1
Information might have harmed marriage	1
Information would have prevented marriage	1
Information would have lessened love	1
Wife so sure it could be done	1
He is a law	1
Unanswered	45

To bring non to the second group of 428, who state that they had no preparation for married life, it is

found that 59.8 per cent regret that they went into marriage blindfolded and believe that adequate instruction would have helped them.

INSTRUCTION URGED.

Among the comments that this question has brought forth are these:

"It would have saved years of difficult adjustment."

"It would have kept me from misjudging my husband and avoided years of unhappiness for both."

"Why should not husbands be taught more?"

"My own experience was so perfect I would not have had it different. If I could be sure my daughters would have the same experience I should prefer them to be ignorant. The risk is too great, however."

Only 6.8 per cent can feel that special preparation would have actually harmed them.

Concerning the regulation of the number of children in the home, this table is offered:

NUMBER AND REPLY			
Question	Yes	No	Total
Should have more children	104	72	176
Should have less children	20	117	137
Unspecified	25	24	49
Total	149	213	362

Summary: Briefly, the fruits of the research of the bureau, much of which valuable material there is not time nor space to go into here, we find certain significant facts:

Health before marriage, general sex instruction before marriage, stability of health after marriage, and the presence of children in the home all make for the happiness of married life.

Spooning and occupation outside of the home all militate against married happiness.

All the tables and counters piled high with bargains

DAILY FLOGGINGS

CHANGED BY BUY

JACKSONVILLE, Fla., April 17.—Alleging that he had been flogged by a heavy belt while in the convict turpentine camp of Senator T. J. Knabb, until his condition had become so severe that he was removed by a state prison inspector, a man today had placed in the hands of state authorities an affidavit setting forth additional details of alleged mistreatment.

Among other things in his statement and affidavit, White said he had been flogged, while unable because of lack of physical strength, to drag a scrap box from tree to tree through the swamps, bays, branches, slimy creeks and through waist-deep water. He sets forth that he was beaten the third day after he had been sentenced to the camp on a vagrancy charge.

MAN RESIDES IN CHURCH TO FLEE HIGH RENT

LONG BEACH, April 17.—Jan. M. King, who said he was a draftsman of Salt Lake City, explained to policemen who found him living in a church here that his action was caused by "high rents."

The police saw a light in a Methodist church at a time of night when no light should have been there. They found King frying ham and eggs over a small gas stove.

Police said they found a considerable sum of money on King, and a bank book showing deposits totaling \$1500 in a Utah bank.

Well," King was quoted, "it's this way: Rents are so high I decided to live in the church for a while. I've slept there several nights and cooked my meals in the church kitchen."

charge, and almost every day thereafter.

HAITI, AT PEACE, IS SPEEDING UP DEVELOPMENT

Gen. J. H. Russell Reports Results of U. S. Aid in Insular Republic.

WASHINGTON, April 17.—The opinion that the future of Haiti never was brighter is expressed by Brigadier-General John H. Russell of the Marine Corps, in a report to Secretary Hughes, admitted by him as the American high commissioner in Haiti. He has been serving in that capacity since March, 1922.

In his report, made public today by the State Department, General Russell declares that "it is believed that a continuance of the present policy of co-operation with the Haitian government, together with a maintenance of the sincere and earnest co-operation that has been given by it during the past eight months, can lead but to the development and progress of Haiti, the maintenance of peaceful conditions and the increased welfare and prosperity of the Haitian people."

General Russell comments on the activities of the Marine Corps occupation force, and makes this observation:

"During the period covered by this report the efficiency of these forces has been maintained at a high standard."

The gendarmerie of Haiti, according to the report, has been "most efficiently handled during the past year, and as a result it has been brought to a very high standard of excellence."

Both the public health and public works departments, General Russell reports, has done excellent work, despite a shortage of funds. Discussing the finances of the Haitian government, he says steps have been taken to revise obsolete customs and internal tax laws.

General Russell devotes considerable space in his report to a discussion of Haiti's judiciary system, which he declares is "sadly in need of renovation."

Tribune Screen to Show Today's Election Vote

RESULTS of the municipal election will be flashed upon a screen at The TRIBUNE building, Thirteenth and Franklin streets tonight as the returns from the various precincts are obtained. At the same time the progress of the various candidates for the offices of Mayor and City Commissioner will be broadcast from The TRIBUNE radio station.

Stereopticon slides prepared by The TRIBUNE will show graphically the results of the political tilt. A continuous record of the progress of each candidate, showing how each section of the city voted, will be flashed on the screen.

The first returns are expected to come in about 7:30 o'clock, and those in close touch with the electoral campaign say that the entire story will be told by 10:30 o'clock.

Labor Concentrates Against Open Shop

CLEVELAND, O., April 17 (By the Associated Press).—The Federation Savings and Loan Company, said to be the first move of Cleveland organized labor to concentrate its resources and resistance to open shop drives, was open for business today. Directors are leaders of the Cleveland Federation of Labor.

The company has an authorized capitalization of \$10,000,000. A. B. Lee, organizer of the company, said. Sale of the stock is limited to members of unions and to small lots of ten shares each. Loans of funds is as far as possible, and after that only for buildings on which union workmen are to be employed.

Chinese Fantasy Is Feature of Program

"Mah-Jongg" a Chinese fantasy written by Mrs. Grace Borroughs proved the most brilliant and colorful attraction of the initial spring program of the Little Theater club presented at the Home club last night. The stellar attraction is a dancing burlesque featuring vari-colored costumes.

In addition to the Borroughs offering two comedies were presented by the amateurs. They were "Burnt Fingers" by John Ward, a local dramatist and player, and "The Good Woman" by Arnold Bennett.

SAFE LOOTED OF \$2000. WILMINGTON, Del., April 17.—The safe of the Clover Dairy Company was wrecked and robbed of \$2000 early today.

San Jose Library Board Post Filled

SAN JOSE, April 17.—Henry G. Hill, prominent San Jose attorney and a graduate of Stanford University, was appointed a member of the board of city library trustees by City Manager Clarence E. Goodwin. Hill's appointment was made in order to fill the vacancy caused by the recent resignation of Mrs. D. A. Beattie, whose removal from the city limits to the Hester district automatically discontinued her tenure of office. Hill will serve out Mrs. Beattie's unexpired term.

WAGE DEMAND IS DENIED BY STONE

CLEVELAND, April 17 (By International News Service).—Persistent reports that representatives of the big five operating railroad brotherhoods were preparing to appear before the railroad labor board to demand immediate wage increases were denied here today by Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers.

"I know nothing about it," Stone told International News Service. "What may happen in the future I am not now prepared to forecast," he said. "But we have not yet formulated any demands."

GRAVE IS SCENE OF FIGHT OVER

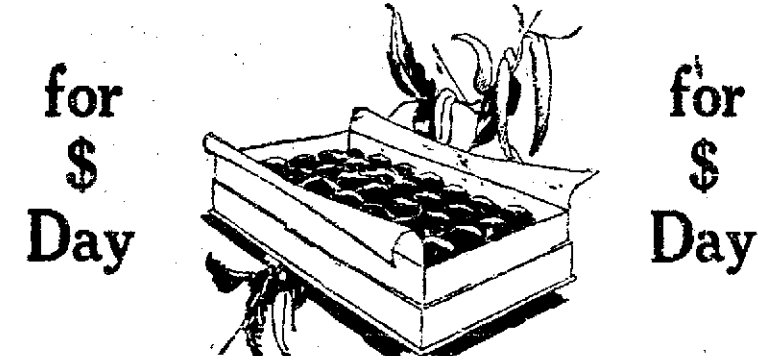

SAN BERNARDINO, April 17.—(United Press).—Less than three weeks after little Dickey Jensen's starved body was found entombed in a wooden showcase with his playmate, Dean Meacham, his grave was made the scene of a fight between his father, James Jensen, and his uncle, Willis Humphries.

quarrel over the recent separation of the Jensen's which took place two weeks after the boy's tragic death. Humphries charged Jensen with having insulted his sister, Jensen's wife, and is alleged to have attacked Dickey's father and beaten him into insensibility. Humphries was arrested but released later on his own recognizance.

A Heald Education gives Ability and Confidence---

—and these two qualities are most desirable in business today. Hundreds of men and women "flounder" through life through lack of ability to do some ONE THING WELL. A Business Training at Heald's would remove this difficulty and make progress easier and CERTAIN. Confidence is born of KNOWLEDGE—and the thousands of Heald graduates have demonstrated both Ability and Confidence by their Successes. You can do the same. Start to Heald's Day or Night. Visit this big school or write for catalog.

This wonderful Dollar Day Special also offered at our Capwell Branch, which will be closed after Saturday, April 28.

Midshipmen to See Europe This Year

WASHINGTON, April 17.—Revised plans for the summer cruise of the Annapolis midshipmen, approved by Secretary Denby today, call for the departure of the four battleships comprising the squadron from Hampton Roads, on June 8, and the return on or about August 28. The itinerary will include Copenhagen, Glasgow, Lisbon and Cadiz. On returning the midshipmen will engage in extensive maneuvers and target practice off the Virginia Capes. The ships assigned to the cruise are the battleships Florida, Arkansas, Delaware and North Dakota.

CHICAGO, April 17.—Louis Rosenberg, a diamond broker, reported to the police today that two men attacked him at his home and robbed him of unset diamonds valued at \$10,000.

Wedding of Miss Muriel Cohen Tomorrow Night

The wedding of Miss Muriel Cohen, daughter of Mr. and Mrs. Donald Cohen of Alameda, whose wedding to Donald Macaulay of Honolulu will be a social event tomorrow evening at the old Cohen estate in that city—see photo.

As Cohen has been the motif for many informal affairs this spring and is a member of one of the oldest and representative families on the east side of the bay, Macaulay is a son of Captain John R. Macaulay, whose interests are in the Hawaiian Islands, where the bridegroom received his education at a prominent college.

Mr. and Mrs. Franklin Noah Dewey and their sons, who have spent the winter at the Fairmont hotel, returned this week to their home in Grand street, Alameda, and will occupy their residence through the summer. In a fortnight they will leave for Del Monte to attend the athletic events.

BETROTHAL ANNOUNCED SATURDAY
At a bridge tea given Saturday afternoon the engagement of Miss Marian Trotter Stratton, of Berkeley, and Joseph Perkins Rice, was formally announced to a gathering of friends. Miss Stratton is the daughter of Mr. and Mrs. George Draper Stratton, former residents of Piedmont.

The affair was given in honor of Miss Dorothy Dickey, an Alpha Xi Delta at the University of California, whose betrothal to Paul Schiller, also a student of that college, has been announced. Miss Dickey is the daughter of Mr. and Mrs. Charles Dickey.

Miss Stratton's fiancé is a son of Philip Halliwell Rice, of Santa Barbara, and is a graduate of the University of California with the class of 1922. He is a member of the Delta Chi fraternity. No date has been set for the nuptials.

Mrs. John Holmes of Prince Street is to be hostess at a mah-jongg ten Friday afternoon to a group of her intimate friends. As guests of honor, Mrs. Holmes will have Mrs. A. T. Quale of Blinn street, who is to leave for Europe.

Mrs. Harold Holmes and her daughter Roberta, are to leave May 6 for New York. They are the incentive for many social affairs just now. Mrs. George Naus of Woolsey street was a recent hostess at luncheon.

Tomorrow afternoon Mrs. Edward E. Elliott will entertain in honor of her sister, Mrs. Lewis Buck, and other hostesses in the near future will be Mrs. E. Wilson Jones and Mrs. Walter Scott.

As a welcome to Mrs. Peter B. Krueger, of Hollywood, who is visiting at the home of Mrs. Robert Newell in Thousand Oaks, a luncheon will be given tomorrow by Mrs. John Hostetter at her home in Piedmont.

Mrs. Raymond Arthur Perry will be a luncheon and bridge hostess tomorrow for her house guests, Mrs. Joseph D. Radford of Los Angeles.

RETURNS TO THE SOUTH
Miss Marguerita Perry who formerly made her home in Alameda, returned to South Pasadena this week after a visit with kinfolk here. Miss Perry is the daughter of Mrs. K. L. Perry and for the past few years the family have made the rose city their home.

A repetition of the Oriental evening presented at the George Wellington Emmann house in Alameda early in the season is the Rainbow Lane at the Fairmont hotel. The affair is for the benefit of the American Women's Overseas League, with Miss Gladys Emmann directing the affair.

Some of the San Francisco debutantes, however, will be in the cast this time—Miss Mary Julia Crocker and Miss Jane Carrigan, who are to appear in the series of tableaux which depict scenes from Japanese prints.

Miss Marion Crocker will exhibit her dolls which were sold at a recent benefit and the sale will benefit the league and at Rainbow Lane, Thursday evening.

Cards are out for a bridge which Miss Helen Dukes will give at the home of her parents, Dr. and Mrs. Charles A. Dukes in Berkeley the afternoon of May 5. The honor guest will be Miss Betty Robbins.

Mrs. Tracy E. Bibbins of the Uplands, Miss Bibbins and her party have just returned from a sojourn in the Hawaiian Islands.

Mrs. E. H. Becker, opened her Berkeley home to the members of the Seima club at their last meeting. English authors—Conrad, Walpole and Galsworthy lent topics to the discussion which was led by Mrs. Grant Miller, assisted by Mrs. Becker and Mrs. C. S. O'Bryan.

MISS MURIEL COHEN, daughter of Mr. and Mrs. Donald Cohen of Alameda, whose wedding to Donald Macaulay of Honolulu will be a social event tomorrow evening at the old Cohen estate in that city—see photo.

Webster Photo

Berkeley will hostess the annual convention of the United Daughters of the Confederacy of California, opening a three-day session on Wednesday, May 9. Hotel Claremont has been designated the official headquarters.

Joseph Le Conte chapter women will offer hospitality to the several scores of delegates who will be seated in the convention. Mrs. John E. Anderson is president. Plans are being made for a brilliant luncheon assembling 500 guests on Thursday, May 10. Costumes of the early sixties will feature the historical program in the evening.

Convention sessions will be open to the public.

Plans for entertaining members of P. E. O. chapters who come to Oakland this summer during the annual convention of the National Education association, were perfected at the reciprocity luncheon of the local chapters today. Hostesses were Mrs. Blaise B. Roemer, Mrs. J. J. Jerome, Mrs. Marcus Brower, Mrs. Arthur J. Grier.

Mothers in the John Muir Parent Teacher association are organizing a course in character building with reference to the young child. The movement was

Congress of Mothers May 8

By EDNA B. KINARD

Formal call for the twenty-fourth annual convention of California Congress of Mothers is in the mails. Stockton will be the hostess city to the representatives of the 55,000 women who make up the membership of the important group. For four days, beginning Tuesday, May 8, the several hundred delegates will confer on matters which pertain to the welfare of the public school child and to the interest of the congress. Mrs. Harry J. Ewing, San Jose, president, who is completing a three-year term, will preside. Election of her successor promises a large interest, with three candidates already in the field for the state leadership.

A "Fathers' Night" will launch the convention, a community supper featuring the occasion in the Y. M. C. A. Governor Friend W. Richardson has been invited to be a speaker. The teachers of California will be represented on the program by Arthur Chamberlain. The congress has decided to incorporate. Adoption of the necessary articles and by-laws will be the important business of the morning session of May 8. This day will also be given over to election interests. Mrs. H. J. Gule, Berkeley, has been named judge. Resolutions will be given the first reading by Mrs. John Robert White, Glendale, chairman.

State Superintendent of Public Instruction Will C. Wood, Dr. W. W. Kemp, State Teachers College, San Jose; and Mrs. Grace Stanley, State Board of Education, are named the principal speakers in the program for Thursday, May 10. Camp Fire Girls work will be demonstrated. The evening session will be given over to an Americanization pageant.

Resolutions will be adopted on Friday morning. Exhibits and posters are in charge of Mrs. W. B. Stanton, Berkeley. Convention programs will be presented in the auditorium of the First Methodist church.

Early California Indians, conservation and the Community Chest divided the interest of Park Boulevard club women at the April program. Dr. W. W. Kemp, State Superintendent of Public Instruction, presented the story of the red man in California. Howard Gilkey, landscape architect of Oakland, spoke on the theme of conservation. Nestor Robinson presented the project of the Community Chest. Groups of Indian songs were rendered by Mrs. Fred Kaiser.

SULPHUR IS BEST TO CLEAR UP UGLY, BROKEN OUT SKIN

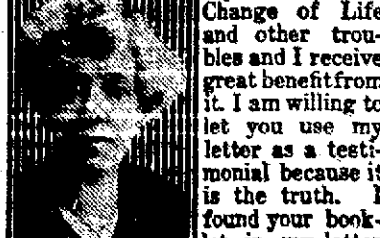

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Menthosulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation. Menthosulphur heals eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Rowles' Menthosulphur may be obtained at any drug store. It is used like cold cream. Advertisement.

**WOMEN OF
MIDDLE AGE**

Relieved of Nervousness and Other Distressing Ailments by Lydia E. Pinkham's Vegetable Compound

Brooklyn, N. Y.—"I first took Lydia E. Pinkham's Vegetable Compound four years ago, and am taking it now for the Change of Life and other troubles and I receive great benefit from it. I am willing to let you use my letter as a testimonial because it is the truth. I found your booklet in my letter box and read it carefully, and that is how I came to take the Vegetable Compound myself. It has given me quiet nerves so that I sleep all night, and a better appetite. I have recommended it already to all my friends and relatives."—Mrs. ENGLEMAN, 2332 Palmetto St., Ridgewood, Brooklyn, N. Y.

For the woman suffering from nervous troubles causing sleeplessness, headache, hysteria, "the blues," Lydia E. Pinkham's Vegetable Compound. For the woman of middle age who is passing through the trials of that period, it can be depended upon to relieve the troubles common at that time.

You should give it a fair trial now.

EINSTEIN THEORY IS CALLED INSULT BY FATHER RICARD

Doctrine of Relativity is Con-
demned as False By
Santa Clara

SANTA CLARA, April 17.—Branding the Einstein theory of relativity as "an insult to our common sense," Father Jerome Ricard of the University of Santa Clara has rallied to the support of Professor T. J. See of the Mare Island Observatory, who accuses the German scientist of "stealing his thunder" and of building up a theory on false premises.

Father Ricard's statement follows: "Professor See is both an eminent scientist and a philosopher. Those who, by observation, think they have established Einstein's theory of relativity appear to be good observers, but See has a broader and more metaphysical view of things.

The bending of starlight toward the sun is explicable otherwise than by the theory of relativity, the foundation of which is, to say the least, risky. For instance, it postulates that whether you go with light, or against it, the velocity is constant. This is plainly absurd. If you walk in a car in the direction in which it is going, your velocity is that of the car plus your own. If you walk backward, your velocity is that of the car minus your own. This applies to all velocities, whether of heat, electricity, magnetism or light.

Einstein's other postulate is the relativity of motion, which was known long before even the Java monkeys existed.

Einstein complains that all scientific innovations meet with opposition, but this is no justification of the theory of relativity, which itself was a scientific innovation, especially when it attributes to pure space qualities which belong only to existing substances.

Among these are curvatures and geodesics, which falling bodies follow when they come down to earth.

Subnormal Children To Get Vitamins

ATHENS, March 20.—(By Associated Press.)—To bring up children on yeast is the aim of an interesting experiment which will be tried shortly in the Near East Relief orphanage here.

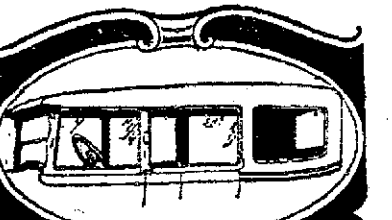

A thousand subnormal children, suffering from hardships encountered in the exodus from Anatolia, will be selected for supplementary feeding with vitamins in order to demonstrate how far these so-called "accessory food products" can combat and repair the results of prolonged malnutrition.

Two tons of concentrated vitamins have been received from New York. Miss Dora Miller, a dietetic expert from Chicago university, will conduct the experiment. "Yeast squads" of 150 children will be formed in seven large orphanages, and a teaspoonful daily of vitamin extract will be added to their soup or porridge.

The first series of experiments will continue for a month, and the results will determine how far this regime will be extended to the whole orphanage system of the Near East Relief in Greece, Syria, Palestine, Armenia and Persia, which is supporting over 100,000 orphans.

No Trouble to Keep Skin Free From Hairs

(The Modern Beauty)
There is no need for any woman to countenance superfluous hairs, because with a paste made by mixing some powdered delatone with water it is easy to get rid of them. The paste is applied for 2 to 3 minutes, then rubbed off and the skin washed. This treatment will rid the skin of hairs without leaving a blemish, but care should be taken to see that you get real delatone. Mix fresh as wanted.—Advertisement.

Smallest Army In Europe Has But 500 Troops

BRUSSELS, April 17.—Europe's tiniest army has been discovered.

The Grand Duchy of Luxembourg recently effected a reorganization of its army which would double the strength of its military forces. In uninformed circles the fear arose that this might forestall fresh disturbances in turbulent Europe.

The fear subsided, however, when it was learned that the increased army will include only 500 men. Its equipment is so scant that when a baby was born to the Grand Duchess a few weeks ago the army had to borrow guns from France before it could fire the salute required by custom to herald the new arrival.

Ski Runner Makes Record in Sweden

STOCKHOLM, April 17.—(By Associated Press.)—The Vasa ski run, the picturesque crowning event of Sweden's season of winter sports, took place recently in Delacuria. One hundred and sixty-one of the best sportsmen in the country took part and, in spite of the deep snow over the entire course, the winner covered the distance of nearly sixty miles in the record time of six and one-half hours. Oscar Lindberg finished first, but only one minute ahead of the second man.

MUSICAL PLAY ON TUT'S TOMB NOW ON BOARDS

Orphans Will Be Entertained
Saturday at Fulton
Theater Party.

The tomb of King Tut-Ankh-Amen, which was discovered at Luxor, Egypt, by the late Lord Carnarvon, will be rediscovered by the orphans of the city next Saturday afternoon, April 21, when Jack Russell and his company of thirty at the Oakland Century put their great original musical comedy, "King Tut's Tomb," on the boards at the CENTURY THEATER orphans' party.

Through an arrangement between Herbert A. Harris, general manager of the theater, and THE TRIBUNE, the orphans of the city will be taken to the playhouse on Saturday afternoon to witness the first matinee of "King Tut's Tomb." Harris has arranged for the kiddies to be taken to and from the theater by the California Transit company, and a record crowd of tots are expected.

The general public will also be admitted as usual, according to an announcement. As added attractions for the performance, Colonel C. E. Kelly will present the Palo Alto Military Kiddy band in concert; Jack Russell, Jr., son of the comedian, will entertain; and a feature motion picture will also be given. Candy.

Girl Shunted to Jail for Kiding Upon R.R. Tender

NEWARK, N. J., April 17.—Miss Lois Marshall, New York cloak model, was jailed yesterday at the end of a wild ride on the tender of a fast Pennsylvania train between Trenton and Newark, a distance of about 50 miles.

The young woman, attired in a black velvet dress, modish hat and red shoes, mounted the tender of the locomotive from the front coach while the train was whizzing along at a speed of 60 miles an hour. Members of the crew testified. She was dragged to safety by the fireman.

Before she climbed to the tender, Miss Marshall was alleged to have run through the train routing passengers from their seats.

Convicted of intoxication, she went to jail in default of a \$25 fine.

Pedestrian Victim Of Night Attack

SAN FRANCISCO, April 17.—The victim of a mysterious attack, Jack Sheehy, 33 years old, is at the Central Emergency hospital, suffering from wounds of the chest and back. At a late hour last night, in company with a friend, he was walking along Folsom street, between Seventh and Eighth, when a man approached and struck. Before he could defend himself the other drew a knife and cut him twice. Sheehy's assailant is described as 30 years old, apparently a Greek, heavy set, stock build, wearing a dark suit, and carrying a knife and a small bag. Toys and balloons will be given to the children by the management of the theater.

NICE, FRANCE IS RENO'S RIVAL AS DIVORCE CENTER

Injure Grave Covers Charge
and Concedes Real
Complaint.

By HARRY R. FLORY,
International News Service Staff
Correspondent.

NICE, France, April 17.—Reno, Nevada, is moving to Nice.

Not all the Americans weary of or disgusted with their marital ties and unable to obtain satisfaction in their home states now flock to the Nevada city for relief, nor to Paris, a divorce center which for a time threatened to usurp the prestige that once was Reno's.

Now American seekers after divorces are coming to the Riviera in ever increasing number.

American divorces in Nice have increased fourfold in the last six months, according to L. B. Delaney, the only American lawyer on the Riviera. He sees no end to the drift toward Nice, Cannes, Mentone and other glamorous pleasure spots of those who want divorce.

MAKE IT NICE.

"If Americans knew how easy it is to get a divorce here they would never go any place else," Delaney declared. Delaney explained to International News Service how pleasant the process may be made for the principals.

the hardest part of the procedure. To a person of means, however, it is not at all disagreeable to have a divorce, and especially for permanent habitation.

There he may live, perhaps only at infrequent intervals, and pass a much more pleasant existence than the "divorced" "Lightnin' Bill" Jones' hostelry on the Nevada-California border.

QUICK AND PAINLESS.

After that the divorce is an easy matter. The grounds offer no difficulty and if necessary may be arranged in a few minutes. The husband may write a letter to his wife candidly stating he is through with

her. That, according to lenient interpretations of the French divorce laws, is sufficient cause for a legal separation.

The same scheme is resorted to where the real grounds for divorce are sensational and serious. The lesser ground of "injure grave" is trumped up for the court hearing, so the real facts are never brought into court.

Unless American newspapermen get the scent and ferret out the case the decree is almost devoid of publicity. The hearing is secret, and a divorce is never brought by law to print the news, and if the

lawyers handling the case give out the details they subject themselves to ridicule.

Someone usually talks, and the news leaks out. But the good old institution "injure grave," used as a coverall, keeps the real facts from the American newspaper reading public.

Atwater Man Jailed On Girl's Charges

ATWATER, April 17.—Albert Guild was taken to the county jail yesterday by Constable Fulkner, under a charge of objectionable conduct toward a young girl.

Fort Rosecrans Buildings To Be Sold May 4th

SEALED BID

Building Contractors, and others who can use temporary buildings and the materials of which they are constructed, will find much of interest to them in the sealed bid sale closing at Fort Rosecrans, California, 10:00 A. M., on May 4th.

Thirty-six buildings and their improvements are offered at this sale. These buildings range in size from 26.5 x 35 feet to 20 x 91 feet, and they will yield, after wrecking operation, approximately the following more important materials:

5,115 board feet Joists, various dimensions below 2 x 8 x 20 feet; 1,056 board feet Sills, 4 x 6 x 12 and 6 x 6 x 16 feet; 558 board feet Posts, 4 x 4 x 8 and 10 feet; 1,415 board feet Plates and Rafter; various dimensions below 2 x 4 x 20 feet; 27,943 board feet Flooring, Sheathing, Battens, Siding and Ceiling; 30 Colonial and Screen Doors, 2 ft. 8 inch x 6 ft. 8 inch; 104 Windows and Sashes, various kinds and sizes.

Also considerable quantities of inside electrical wire and insulating equipment.

For catalog, specifications and proposal blanks, write the Quartermaster, Fort Rosecrans, California.

The Government reserves the right to reject any or all bids.

WAR DEPARTMENT

Phantom Ship at Thames Anchorage
By LYLE C. WILSON
LONDON, April 17 (United Press).—A phantom ship, swinging at double moorings in the waters of the Thames, a ship which added real romance to the war, is spending its last days swaying gently with the come and go of the tide. H. M. S. President was one of the phantom ships which during the war, dressed in the garb of a simple merchantman, the "Q" ships sailed the sea. It was understood that they played the merchantman role until the spy got within range and then the sides of fake cabins fell away. Murderous guns and torpedo tubes were revealed and the U-boat suffered. H. M. S. President is now a pros- seamen. It's a dead ship. Windows have been cut into the hull, the deck is covered with a rambling structure that has no seafaring term. It is just a house on a boat. One or two caretakers compose the crew. Two long-silent naval guns, one fore, one aft, with a only hints of past frolics with the U-boats. No one says the old craft a visit. It is dead. With it has died most of its sparkling history.

Cathedral Bell 1300 Years Old
ROME, April 17 (By Associated Press).—The oldest known bell still in use is in the parish church of St. Mary of Loreto, at Villalago, in the Abruzzi mountains, and bears the inscription "Ave Maria" followed by "Anno Domini 600." Considering that bells were invented, according to church authorities, by one unknown who was in use, an older bell is recorded. If you see it in The TRIBUNE tell them so.

FRANCE LODGES PROTEST AGAINST TURK CONCESSION

World-wide Struggle Over Mosue Oil at Lausanne Expected

WASHINGTON, April 17.—Informal representations have been made by France to the United States regarding the Chester concession for American development in Turkey, it was learned today.

By GEORGE R. HOLMES, International News Service Staff Correspondent.

WASHINGTON, April 17.—The international decks apparently are being cleared for an oil struggle of world-wide importance at the second Lausanne conference next week with America playing a leading role.

In the face of British and French protests against the Chester concessions in Turkey, assurances were again forthcoming from official sources today that the American coup in the Near East is looked upon as a piece of legitimate business enterprise and as such will command the support of this government.

The French government has lodged no "formal" protest with the state department against the Chester concession. It was announced, despite cable reports from Paris that Premier Poincaré had dispatched a note to Secretary of State Hughes. Instead, Ambassador Jusserand has called on Secretary Hughes and "informally" informed him the French government considers the Chester concession in conflict with certain French interests.

24 CONTRACTORS ON TRIAL IN S. F.

Joint trial of 24 building material contractors and ten building material corporations, charged with violation of the Cartwright anti-trust law, was continued before Superior Judge Louis Ward today. The trial, which opened yesterday, promises to be of the unusual and lengthy character in the history of the state. The thirty-four defendants, individuals and corporations named are the following: William H. George, D. B. Farrah, George T. Bowen, D. J. Sullivan, R. J. H. Forbes, Alex. Menzie, C. C. Fox, Thomas J. Campbell, Frank Moreland, H. Francis, R. D. Merrill, C. H. Merrill, Burr Eastwood, F. J. Baker, Marcus D. Merrill, P. E. Mack, James Leibiel, A. F. Dabiel, Andrew Dabiel, H. C. March, Morris Stubbart, A. S. LaMonda, R. W. Kinney, C. W. Weil, The Builders' Exchange of San Francisco, a corporation; Wolverine House Works, a corporation; Dabiel-Miller Co., a corporation; Crane Company, a corporation; Holbrook, Merrill & Stinson, a corporation; George H. Fox, a corporation; a corporation; Haines, Jones & Canby, a corporation; Grinnell Company of the United States, a corporation; R. W. Kinney Company, a corporation, and M. Stubbart Company, a corporation.

Wawona Road to Open at Week-end

The Wawona road into Yosemite Valley will not be in readiness for motor touring until Friday or Saturday of this week.

This announcement was made by Superintendent W. B. Lewis of the park, who said that the recent heavy rains in the mountains have delayed the opening, which was scheduled for yesterday.

In a general road bulletin, Superintendent Lewis says that the highway from Yosemite to Merced is suitable for travel in parts, but the Chowchilla mountain grade wet and travel is hazardous. This section will not be in condition until Friday at the earliest. The road inside the park lines is not built, he bulletin sets forth.

According to Superintendent Lewis, even experienced motorists should not attempt to make an early trip into Yosemite, because of the hazardous conditions in its present shape. A few warm days will make the road safe if not comfortable.

Tut Bob Is Newest Hair Dress Style

LIMA, O., April 17.—(By International News Service.)—The Tut-Ankh-Amun bob, latest design of coiffures, has made its appearance here. Bid good-bye to the permanent wave bob, says the hairdresser.

The Tut-Ankh-Amun bob is shorter than the regulation cut, the hair reaching a point about halfway down the ear. The hair is parted in the middle, turning up and flowing down over the ears. Ends of the hair are not fluffy, but are held together tightly to give the effect of heaviness.

The new bob was originated, and designed, at a convention held recently in New York.

Asks Division of Community Property

Asking division of community property valued at \$14,500 and \$75 a month alimony with custody of 14-year-old son, Mrs. E. Verona Joller has filed suit for divorce against Paul R. Joller, an employee of the P. H. Crosby company of San Francisco.

Eclipsed by a Scene Shifter

ETHEL BARRYMORE, who last night was interrupted

smoke from a burning rag floated out over the audience in a New York theater.

Soviets Jail Man; Insurance Policy Taken for 'Papers'

LONDON, April 17.—A Constantinople despatch to the Daily Mail says that Elgin E. Groselove, an American relief worker, has arrived in that city from Tiflis, where he said he spent 18 days in solitary confinement in a soviet prison on a charge of spying.

The charge was based on the discovery among his papers of an insurance policy which the soviet police mistook for an espionage document.

Groselove said that while he was in jail 92 political prisoners were shot in reprisal for the assassination of a Bolshevik commissar.

Fraud Charged in Real Estate Deal

R. J. Pavert of R. J. Pavert Inc., "fraudulently and maliciously with intent to damage" signed his name to an option for an exchange of real estate and then recorded it,

charge Perry H. Auson and his wife, Jessie, in a suit filed in the superior court. They make Pavert, the firm and three "fictitious" defendants and ask for \$100 damages, cancellation of the option and title to the property cleared.

By the terms of the option signed by the plaintiffs on April 27, 1918, which is incorporated in the complaint, the Ausons agreed to exchange lots in the Moss tract and \$15,000 in cash for a three-story apartment house at Fifteenth and Brush streets, the option to run fifteen days. It was later that Pavert signed his name to the agreement before a notary, misrepresenting that he had been requested to do so, it is charged.

STAGEHAND ENDS

COULD OVER FIVE

JOINED OVER FIVE

Employee Halts Star's Scene to Explain Smoke "Behind the Curtain."

NEW YORK, April 17.—(By Associated Press.)—A stage hand temporarily eclipsed Ethel Barrymore at the Longacre theater last night, where she is starring.

Point smoke came from back stage and floated out over the audience, causing decided uneasiness. Miss Barrymore became a very serious lady. Then a stage hand, dressed in his working clothes, rushed to the center of the stage, his hat in one hand and

Superb

Caswell's
NATIONAL CREST
Coffee

1,800,000 cups were served at the PANAMA-PACIFIC INTERNATIONAL EXPOSITION.

a smoking rag in the other. "Just a little rag burning, ladies and gentlemen," he announced, and darted for the wings. The audience roared.

Barrymore, and then she went ahead with her lines.

Mayme Kalan May Face Courts Again

Mayme Kalan, who has been tried three times in the last four years, was today again charged with the same crime of again being placed on trial as

the result of a jury failing to agree after four hours' deliberation. The jury was discharged late last night by Superior Judge George Samuels.

Miss Kalan was charged with the same crime of again being placed on trial as

was rendered. A second charge was placed against her, burglary also being alleged. It was this case which was heard yesterday.

ment of the jury. She will probably be placed on trial again.

FELLOWSHIP AT BELGIAN COLLEGE FOR CALIFORNIAN

Jessie Edna Smith of Stanford Will Study French Language.

NEW YORK April 17.—A fellowships covering a year's graduate study in a Belgian University for the year 1932-1933 were awarded to Americans here yesterday by the Educational Foundation, according to an announcement by Percin C. Galpin, secretary of the foundation.

These fellowships established to commemorate the work of the Commission for Relief in Belgium during the Great War and to promote closer relations and the exchange of intellectual ideas between Belgium and America were awarded to Mary Lajepie Caughey, of Sewickley, Pa.; Vassar B. A. 1931, now a graduate student at Bryn Mawr; who will study French medieval literature; George Martin Guest, of Hopkinton, Illinois; University of Cincinnati B. A. 1929 M. D. 1932, an instructor in pathology at the University of Cincinnati; and in Belgium during the war, who will study bacteriology; and M. D. 1932, an instructor in pathology at the University of Wisconsin; who will study international law; and H. T. H. Johannesen, of Milwaukee, Wisconsin; University of Wisconsin B. A. 1918, instructor at University of Wisconsin who will study medieval history; Jessie Edna Smith, Redwood City, California, Stanford A. B. 1916 M. A. 1917, now an assistant in instruction at Stanford, who will study French literature and language; Carlisle S. Spencer, of East Greenwich, R. I.; Wesleyan B. S. 1919 S. M. 1926 now a graduate student at Brown University, who will study organic chemistry.

Galpin said that each fellowship pays all necessary traveling expenses, tuition fees and in Belgium financial support for the academic year. Thirty Belgian graduate students next autumn under the foundation's exchange plan.

HOOPER IS PRESIDENT.
Emile Hooper, Minister of State of Belgium, is honorary president of the Foundation and Herbert Hoover is chairman of the board and president. Other officers are Edgar Blewett, vice-president; Gales W. McGarrath, treasurer; Edward M. Fiesch, comptroller; Percin C. Galpin, secretary; H. J. Ketcham, assistant treasurer; Frank C. Pace, assistant secretary.

During 1932 the American activities of the C. R. B. Educational Foundation embraced the continuation of the Exchange Fellowships with 25 Belgian students of the 1931-1932 group and 24 of the 1932-1933 group, including 10 new arrivals, in the United States during all or part of this year and 21 American students of the 1931-1932 group, including renewals in Belgium. The foundation report shows that other advance steps, inaugurated the visiting professorships with 1932-1933, a M. D. in Belgium and Professor Henri Drenne in the United States as lecturers.

In technical subjects in the University of Brussels and in Belgium and the School of Mines at Mons for a period of fifteen years, each of them are an annual salary of 10,000 francs.

Made a preliminary investigation, through Miss Sally Tufts Jean, Director Child Health Commission of America, and Miss Lancelotti Hargis, in the child health problems of Belgium and as a result.

Brought 15 Belgian Child Health Teachers to America for a year's work.

Authorized an investigation by R. Alexander Smith, Executive Secretary of Princeton University, and a director of the Foundation, into Belgium educational needs; Entered into a contract with the Universite Libre de Bruxelles by which the Foundation will expand up to 15,000,000 francs for land and buildings to meet present urgent necessities of the university.

Made grants enabling two Belgian specialists, Doctor O. Decroly and Mr. Raymond Buyse, to collect intelligence data.

Cooperated with the Book Committee on Children's libraries toward the support of a Belgian library in this country.

Gave, in 1931, 100,000 francs each to the Universities of Brussels and Louvain for the purchase of books, periodicals and documents for their libraries.

The most important development was the agreement to assist Brussels University. The executive committee decided to aid the University of Brussels because of the urgent need for buildings to complete its plans for a thorough physical reorganization of the university. Through generous help received from the City of Brussels, the Rockefeller Foundation, and many Belgians, buildings and equipment for the polytechnic schools and the medical schools are being provided.

Buildings for administration and library purposes, for the housing of its faculties of law and philosophy, and for dormitories for men and women students were required to round out the plans for the creation of a new university.

center. These buildings, together with the land, will be provided as a gift of the Foundation, at a cost not to exceed 15,000,000 francs. These buildings will be erected in the Solbosch quarter of Brussels.

sufficient land has been acquired to follow for future expansion. Brussels University can confidently expect to take an even larger place than before in the intellectual life of Belgium and Europe.

The proposed dormitories, campus, and athletic fields will give to Brussels the possibility of developing a college atmosphere with distinctly American features and will be a most interesting experiment.

A commission of the University of Brussels consisting of Professor Maurice Bourquin, Administrator, and Jean Willems, secretary, together with Millard K. Shaler, Belgian representative of the Foundation, came to the United States in October, 1932, for a six weeks trip. The commission visited Columbia, Vassar, Yale, Harvard, Massachusetts Institute of Technology, Princeton, Pennsylvania, and Chicago, and obtained much material on the organization of American universities, on arrangements of buildings, with particular reference to libraries and dormitories, and on social activities of the students and an alumni organization. There is no doubt but that the visit of Bourquin and Willems was most valuable and that the information they gained here will be most useful in the reorganization of their university.

John Ward Howells of New York.

has been appointed consulting architect and advisor to the foundation. He, with his assistant, Raymond M. Hood, have prepared a competition, open to selected Belgian architects, to determine the buildings that is to be given by the Foundation to Brussels University. The buildings will be ready for use in the autumn of 1935 according to present prospects. We confidently hope that these buildings will combine real beauty and usefulness and will be a material memorial of America's aid to Belgium during the war.

American Lauds British System

(By International News Service)
LONDON, April 17.—The English legal system is one of the things that have most favorably impressed me during my four months' stay in England," said Colonel Joseph McMillen, chairman of the United States commission for the hearing of war invention claims, on the eve of sailing for America.

"England's legal system is quite all right," he continued, "it has many points which our lacks and has a great many more short cuts than we have in America."

"The English criminal justice is so manifestly just that it impresses for the law on the part of the men creating a very high regard."

"I am going back to the States very satisfied with all I have seen socially. England is admirable, and I have been treated royally."

SHEIK'S FAVORITE IN MUSICAL HIT AT PANTAGES

Barbaric Dance Features the
Tabloid Song Comedy of
Bizarre Elements.

Musical comedy in tabloid form has frequently found its way onto the vaudeville stage, but it remained for the Pantages theatre to bring to Oakland a full-fledged musical extravaganza artistically fitted to take its place in any theatre regardless of the price of admission.

There is much to admire, much to marvel at and little to find fault with in "The Sheikh's Favorite," the musical comedy in nine scenes, which is presented as the headliner at the theatre this week. It brings all the bizarre and barbaric elements of the east and is a riot of color and form.

As is proper in a musical extravaganza, there is a wealth of scenic investiture and a dearth of plot, but who would worry about a plot when there is an ever-changing parade of femininity arrayed in all the colors of the rainbow and disposing themselves for the delectation of the sheik, not to speak of the audience.

MILIE, RAPIERO FEATURED
Milie, Margie Raffero and Jimmy Gildea are the featured artists on the program, but while the patrons yesterday laughed politely at the comic antics of Gildea, they had no interest in him after Milie. Raffero did her daring and spectacular dance alone in the second or third scene. It was a bacchanalian affair but a most artistic one.

Paticularly impressive was Milie. Raffero's dance following the order of the sheik to lash her for impertinence. While a huge slave stood over her cracking a black-whip with such vehemence that it seemed real this artist writhed about the stage escaping the sting of the snapper by fractions of an inch and yet never once losing the tempo. Truly it was a feat attempted by few and within the realm of accomplishment of only a danceuse of the highest order. It was easily the applause hit of the show.

This dance, while it is the thing of prime importance in "The Sheikh's Favorite," is simply an incident. There are nine scenes ranging from the deck of an ocean liner to the interior of the sheik's harem, each one headed by the members of a big chorus garbed in raiment that was nothing short of gorgeous.

What there is of a story concerns an attempt of a prize fighter to escape the threat of the law and his adventures with a radio appliance salesman who has decided to sell his equipment to the Arabs. The adventures of these two characters in the land of shifting sand, slaves and prayer rugs are exciting and generally productive of comedy.

NOT ONLY ACT
While "The Sheikh's Favorite" is the headline offering on the bill, it is not the only act. The Vin-tour Brothers open the bill with an all-out-brief acrobatic exhibition, followed by Barney Norton, Marian Hopkins, George Trapp and Marguerite DeVos in "The Man

Things they Ask the Tribune

BUREAU OF INFORMATION

"What does the science of anthropology include?"
Anthropology is the science of man or of mankind. It treats of man and his agreement with and divergence from other animals; his physical structure and intellectual nature; the various tribes of men with reference to their origin, customs, etc., and the general physical and mental development of the race. It includes physiology, psychology, sociology, ethnology, etc.

"What is a good book on the subject?"
Robert H. Lowie's "Culture and Ethnology."

"What is the population of Fort William, Ontario, Canada, in round numbers?"
The population of Fort William, Ontario, Canada, in round numbers, is 19,000.

"Who are the principal police officers?"
G. McCurdy is inspector of provincial police and William J. Dudge is chief constable.

"Who are the principal police officers of Winnipeg?"
J. E. Elliott, superintendent of Manitoba provincial police; C. H. Newton, chief constable; and J. McKenzie, deputy superintendent of provincial police.

"Has the state of Illinois begun to pay its soldier bonus?"
Yes, according to the local office of the American Legion, the local of the American Legion, the Application Blanks may be obtained from the local office of the American Legion, 419 Twelfth street.

"What is the origin of 'Hornitos,' the name of a town in Mariposa county?"
Two theories are advanced. One is that it was given by some Mexican settlers, on account of the extreme heat there. The other and more commonly accepted theory is that it was so-called from a number of bake ovens made of rock and mud, which were built there in the early fifties by a company of German miners.

"Have the towns of Sausalito and San Rafael daily papers?"
No. San Rafael has two weekly publications. Sausalito has one.

"When was the San Francisco Symphony Orchestra organized?"
Who was the first leader?

The first meeting was held in 1910 and the first series of concerts in 1911.

"Hunt" a bedroom farce of the "She Walked in Her Sleep" order, and as funny as it was completely acted.

Came then Harry Bloom in "Figure It Out Yourself," and an air of "I'm the bit of the bill, feast your eyes on me while you may."

Bloom has a fair singing voice and should sing more and introduce fewer objectionable lines in his monologue and more comedy. Later he was to appear as the sheik with greater success.

"The Sheikh's Favorite" was one of the successful Shubert units and easily takes precedence over anything presented this season or last at the Pantages. It sets a mark that will be found difficult to pass.

ESTUARY TUBE USED NECESSITY NEED NECESSITY TO NAVY BASE

Bridge Would Damage Property, Posey Tells Hearers at Hotel.

A tube under the estuary to replace bridges was pictured as a great aid to the future Alameda naval base by George A. Posey, county surveyor, speaking today at the Hotel Oakland.

Removal of the Webster and Harrison street bridges in accordance with the government ruling means that the west end of Alameda is cut off from the mainland, said Posey. "A bascule bridge, replacing the present low bridges, would provide communication, but would still offer a bar to the development of the harbor and would result in many delays to local traffic."

"We are going to have the naval base on the Alameda shore some day, and we should begin now to get ready for it by providing the best means of transportation. A tube is that means."

Posey discussed the relative damage to property values by a tube compared with a bridge and showed that the tube entrance, stretching along Harrison from Sixth to Fourth and blocking traffic only at Fifth, would aid rather than injure property values. The only visible feature, he pointed out, would be a parcel from Sixth to Fourth, which would not be unsightly. Harrison street, he showed, will be widened thirty feet, he said, would be feet. A bridge, he said, would be more than thirty feet high at Fifth street and would be above the street as far up as Fifth, causing serious damage to property on both sides.

Posey told of the traffic count recently made to determine the needs of the tube. The records of the past counts showed that in 1912 there were 67 motor vehicles an hour both ways. In 1918 there were 444 and in 1923 the count showed 1005, a great increase. The tube, he said, will be practically the same size as the bridge, and can be expected to carry about the same amount of traffic, with all delays for bridge openings eliminated.

P. P. Porter, president of the Real Estate Board, declared, after he had heard the arguments, that a tube is the proper solution of the estuary problem and intimated that he would be in favor of the bond issue. Other speakers at the meeting were Lechli King and W. J. Hamilton, chairman of the Board of Supervisors.

HOSPITAL BLAZE.
NEW YORK, April 17.—Fire starting in a vestibule against the outer wall of a ward of the Metropolitan hospital, on Welfare island, in the East river today, caused a scare, but the blaze was extinguished before many of the 1300 tubercular patients knew of it. Nurses and orderlies formed a bucket brigade and had the blaze under control before firemen arrived.

ECUADOR VOLCANO
In Strong Eruption
GUAYAQUIL, Ecuador, April 17.—The volcano Tungurahua is in strong eruption, huge flames rising from its crater and showers of rocks being shot into the sky, descriptions from Rio-Bamba say. White, hot stones are falling in the environs of the city, which is covered with ashes and fine sand.

SOLDIER BONUS BONDS FAIL OF SALE IN IOWA

(By The Associated Press.)—There were no bids when State Treasurer W. J. Burbank for the fourth time offered the \$22,000,000 soldier bonus bond issue for sale at auction this morning.

Following the failure to receive bids, Burbank announced that he would receive a written proposition for a conditional sale. It was reported that steps toward the organization of a syndicate of local banks to underwrite the purchase of the bonds at par were taken last night. The proposition to be made by this syndicate, it is understood, is that in return for buying the bonds the banks are to be allowed to pay interest on quarterly balances of state funds instead of upon daily balances which is the rule now.

BUILDING MEN'S MEET PLANNED

WASHINGTON, April 17 (By International News Service).—Strong pressure has been brought to bear upon the department of commerce to sponsor a national conference in Washington of building contractors, building trade associations and supply manufacturers. Secretary Hoover announced today.

The backers of the proposed conference have been asked to specify what they hope to accomplish through the meeting.

GIER TO BE FREED HE DID NOT CHARGE OF ILLEGAL GAMING

SAN FRANCISCO, April 17.—Federal grand jury indictments against Theodore Gier of Oakland and several associates, involving alleged conspiracy to defeat the national prohibition laws, are to be dropped, and misdemeanor charges substituted, it was announced today at the office of the United States attorney.

Gier and those indicted with him, who include his nephew, Henry Gier, Jr., Gustav Linderman, and Fred Poeller, will plead guilty to the misdemeanor accusations, it was declared.

This plea of guilty by the accused men will be followed by a request on the part of the United States attorney for the confiscation and destruction of several thousand dollars' worth of wines and liquors seized in a raid on the Gier wineries in Oakland nearly a year ago, according to the announcement.

Squaw, Discarded, Beholds Husband

CHAMBERLAIN, S. D., April 17.—When Minnie Hawk, an Indian squaw on the Crow Creek reservation, turned against her husband, who had brought an action for divorce, she became so infuriated she got an ax, went to his tepee while he was asleep and chopped his head off, according to a confession she is alleged to have made to the reservation authorities. She has been arrested and will have a hearing before the United States commissioner here.

DIVORCES DROP 33 PER CENT IN ENGLAND, WALES

Fidelity is steadily gaining strength in England and Wales, if recently published statistics regarding divorce may be taken as a criterion. During 1921 the number of divorces in these countries declined by 33 per cent. In the previous year matrimonial suits showed an increase of 355 over the pre-war totals. In recent years additional legal facilities have been accorded to poor persons seeking divorce in England, and this has brought a large increase in the number of cases. During the last nine years 24,209 matrimonial suits were filed. Of the 341 suits entered in 1921, 1702 petitions were filed by husbands and 1759 by wives. In 95 per cent of the cases the petitioners were successful. The proportion of childless marriages was high, reaching a total of nearly 2000.

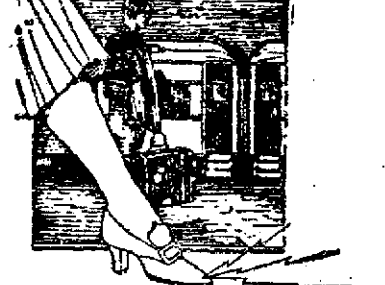

Spain to Increase American Trade

SEVILLE, Spain, April 17.—The Spanish overseas congress held its closing session Sunday, King Alfonso presiding. The king in a short speech praised the patriotic endeavors of the delegates to improve the condition of Spanish trade by forming closer relations with the American nations. Senator negotiations for the importation of tobacco monopoly, has opened negotiations for the importation of tobacco from Mexico, Brazil, Venezuela, Colombia and the Philippines, which is expected to cause a considerable increase in the trade with those countries.

MEMPHIS CARMEN OUT ON STRIKE

MEMPHIS, Tenn., April 17.—A strike of 650 street railway employees went into effect at 6:30 this morning. The company, for the first day at least, will make no effort to move the cars, officials asserted. The workmen now receive 38 cents an hour for the first year; 43 cents the second, and 48 cents for the third. They demand a flat increase of 7 cents an hour. The company offers a flat increase of 2 cents an hour. This was rejected.

Corns Go

The simplest way to end a corn is Blue-jay. Stops the pain instantly. Then the corn loosens and comes out. Made in clear liquid and in this plaster. The action is the same. At your druggist.

Blue-jay

DOLLAR DAY

For one day only---Dollar Day---any garment in the Eastern's big stock of new Spring and Summer apparel is your's upon the payment of only ONE DOLLAR down.

Our assortments were never better. Think what a joy it will be to choose from such a stock with the knowledge that only one dollar is necessary to give you possession of the new things.

One Dollar Down

Balance easy weekly or monthly payments

Removal Sale Now In Progress

We are making a supreme effort to reduce the number of garments in this store before moving day. Our new home will be ready shortly so we've priced everything way below regular to accomplish a big task. And there's the added privilege of Credit Gladly in addition to the low prices.

Credit Gladly

Credit Gladly means one price to all. Whether you pay all cash at the time of purchase or use your credit the price is the same. No extra charges---no interest---just regular cash prices on liberal credit terms.

Eastern Outfitting Co.

The Community Chest, supporting 43 agencies with one campaign once a year.

581 Fourteenth St., Corner Jefferson

Hot Dishes Won't Mar

If you polish your dining room table occasionally with Johnson's Wax you will have no trouble with hot dishes. The Wax forms a thin, protecting coat over the varnish, similar to the service given by plate glass over a desk or dresser top. Johnson's Liquid Wax is the ideal furniture polish.

JOHNSON'S Paste - Liquid - Powdered POLISHING WAX

You can give every room in your home that delightful air of immaculate cleanliness by using Johnson's Polishing Wax occasionally on your furniture, floors, linoleum and wood-work. Johnson's Wax cleans, polishes, preserves and protects—all in one operation.

There is no Substitute for Johnson's Polishing Wax. For Sale at All Good Stores.

Special Values in WOMEN'S SHOES FOR DOLLAR DAY

100 DOZEN EXTRA HEAVY
BLEACHED CASES: 12x36. Each..... **39c**
40 DOZEN BLEACHED "PEQUOT"
SHEETS: 81x90. Each..... **\$1.75**

200 SATEN COMFORTERS: Large double
bed size; pretty patterns; heavy
weight; \$5.45 value. Each..... **\$3.95**
1500 YARDS 66-inch BLEACHED "INDIAN
HEAD" MILL LENGTHS: 45c
50 PAIRS WHITE BLANKETS: Heavy
weight; quality; pink or blue border;
size 60x76. Pair..... **\$2.95**

3000 YARDS "FRUIT OF THE LOOM" MUS-
LIN: 36 inch; extra fine. Yard..... **22c**
40 DOZEN UNBLEACHED SHEETS: 80x90;
good heavy quality; seamed centers.
Each..... **\$1**
100 DOZEN BLEACHED PILLOW CASES:
10x26; good durable quality. Each..... **\$1**
100 CUB SPREADS: 45x65; good
weight; pretty patterns. Each..... **\$1**

700 YARDS BLEACHED SHEETING:
2 yards wide; heavy grade; 2 yards..... **\$1**
25 DOZEN BLEACHED SHIFTS:
81x90; seamed center. Each..... **\$1**
20 DOZEN UNBLEACHED SHIFTS:
72x90; heavy weight. Each..... **\$1**

FRINGED BED SPREADS: Double
bed size; good weight. Each..... **\$2.19**
"MARSEILLES" SPREADS: Heavy
quality; satin finish. Each..... **\$4.95**
PLAID BLANKETS: 66x80; good;
fleece quality. Pair..... **\$3.95**

3000 Yards
Hope Muslin 6 yds. \$1
36-inch; soft finish

3000 Yards
Lonsdale Muslin 5 yds. \$1
36 inches wide

2000 Yards
Unbleached MUSLIN 10 yds. \$1
Mill lengths, 32 in.
wide.....

300 Bolts Bleached
Cheesecloth 1.50 Each
36-inch; good absorbent
quality; 25-yard bolts.

Household BARGAINS
Glass
Mixing Bowls

Heavy clear glass; set of 3, one
each of 5, 6, 7, 8, 9 inch bowls;
regular 75c value. Set

59c

AN OPPORTUNITY.

The Community Chest campaign opens tomorrow.

By this time, it is to be presumed, every citizen of Oakland realizes the purpose and the application of this plan to raise in one drive the money the community heretofore has subscribed in forty-two drives. It is the business-like and economical way to guarantee to each of the charitable and welfare organizations the amount it wishes and needs for the year's work.

In giving to the Community Chest the subscriber knows he is giving at one time what he has been giving in response to many appeals. He will know that there will be no demands made upon him during the year and that the subscription which he gives tomorrow may be collected in parts if he so desires.

In consideration of the fact that something like \$50,000 will be saved by this manner of collection and that the greatest possible percentage of money given will be applied direct to the community needs it is probable many citizens will increase the amount of their contributions above that of other years. Those who have favored charities will realize that in the chest program those charities are to be given all they ask and that there is a leveling effect in the one campaign.

Oakland has always supported all of the agencies which are included in the chest. It has been imperturbed by forty-two drives and has thus been called upon to contribute nearly four times each month. There has been no way to distinguish between the wealthy and unworthy, no way to distribute the money so that support is made dependent upon the needs and is not the result of the most successful money-raising plan.

Perhaps of most importance in the benefits of the Community Chest is the opportunity it brings to every resident to assume his responsibility in welfare work.

San Francisco went over the top in the Community Chest. In other cities where the plan has been tried for a number of years it has been found to be increasingly successful until in Cleveland, for instance, close to 12,000 persons engage annually in the work of presenting the appeal to the public.

Oakland will rise to the opportunity.

THE DANCING CRAZE.

This year the spring fever seems to have gone to the feet of the 15-year-old American girl. A new dancing record against time is recorded with each day and the music continues. The twenty, thirty, forty, fifty and sixty hour marks have been passed by young women who wear out partners, exhaust orchestras and try the patience of the sober-minded.

Learned men will concentrate upon this

sudden craze for sustained dancing which has spread over the world and will offer an explanation as to why the girls are able to dance so many hours more than the men. The average man confesses a bewilderment. He is not going to master the names and the records of these contestants, for there are too many. He refuses to see "marathon dancing" in the light of sport and he is talking so much to that effect the opinion is gaining ground that "something should be done."

Of course the craze will not last long. Shoe leather and saxophones will not stand the strain. In some states old laws are being used to prevent contests which are held to be harmful to the health and in others the police are aiding distressed parents who were not aware that when their daughters stepped out to a dance they were going to continue waltzing for two or three days.

The only result of the dancing contests, except for the momentary publicity won by some of the fair dancers, is a generally hearish effect upon records of all kinds. "Why," some of these young women ask, "is it not as much of a feat to dance for sixty hours as it is to run a hundred-yard dash in ten seconds?" The

men who fell out of the dancing endurance test may be hard put for an answer.

Admittedly the parent and the physician

are reasons to oppose these senseless exhibitions. The gentleman who won the Texas pie-eating contest and the man from Walla Walla, Wash., who ate eighty-seven oysters at a sitting will do well to remain silent.

CITIZENS' TRAINING CAMP.

The Citizens' Military Training Camp will offer young men of California some unusual opportunities in recreation, character building and social acquaintance. Its object is to bring together young men of the country, to develop a closer national and social unity; to teach the duties, privileges and responsibilities of American citizenship; to stimulate patriotism; to interest young men in the importance of military training, and to develop the physical standards of the American youth.

Those who accept the opportunity which is offered with the opening of the camp at Del Monte on July 26 and stay there until the closing on August 24 will have learned something of self-discipline. They will have met upstanding young men from all parts of this state and from others, and will have joined in games and athletic contests under the direction of experts.

The Ninth Corps Area comprises eight of the Western states and will support three of these Citizen Military Training Camps—Del Monte, Camp Lewis and Fort Douglas. The artillery sections will camp at Fort Winfield Scott in California and Fort Worden in Washington.

There is more than an idea of preparedness for war behind these camps. The young man who participates is better prepared for life and for emergencies, for the training is one of the body and mind. The War Department provides transportation to and from the camp and, also, board, lodging, medical attendance and amusements.

A COMMUNITY CENTER.

The Berkeley Chamber of Commerce is to be commended for the substantial way in which it is lacking its confidence in the development of the city. Plans for a new home to be erected near the entrance to the university grounds are being prepared and, within a short time, a modern structure will be built.

In keeping with the spirit and tradition of Berkeley the Chamber of Commerce building will be more than a meeting place for business men. It is contemplated that there will be an art gallery, a stage and a forum for the discussion of community problems.

The Berkeley chamber has always been alive to the opportunities for service. It has recognized the peculiar claims of the city for distinction and has not been slow in spreading the name and reputation of Berkeley as a center of the arts as well as for its commercial and residence advantages.

In a home of its own the Berkeley organization will assume a larger place in the civic life. It will be able to welcome and entertain visitors in a building which will overlook the campus and the beautiful Berkeley hills. In the plan of its building and the program it has outlined the chamber cannot fail to become a community center of which the city will be proud.

A NEW CENSUS.

The Government is at work upon a new census, but this is not one which will engage the attention of chambers of commerce nor stimulate rivalry between cities. It is a census of birds which is being compiled under the direction of the Department of Agriculture.

The bird census, the Department says, furnishes information as to the exact number of pairs of breeding birds actually nesting within the boundaries of selected tracts of land, and throws light on the many problems concerning the distribution of bird life. That this work may be continued on an increased scale, the Department is asking for volunteer observers who are interested in bird life. Here is a call for census enumerators without pay, for men and women who look in the trees and the hedgerows.

Information is needed regarding the number

sections and on different types of land; the relative numbers of the different species; and the fluctuations that take place in bird life. Data are needed to show what effect existing laws for bird conservation have had, how much birds have increased under protection, and what species have been most affected.

This call has been extended before and, always, has been answered. It is interesting to know that there are as many persons in the United States who will volunteer for this service without pay as there are who will apply for positions as paid enumerators on the official population census. The Biological Survey, United States Department of Agriculture at Washington, has the work in charge and will enroll all the bird lovers who make application.

The Los Gatos idea of erecting large concrete cats at the two main entrances to the city is a good one. Los Gatos was named for the wildcats which used to infest the neighborhood and, already there are two concrete cats in the immediate vicinity. Tourists will ask what the cats mean and will associate them with the beautiful city which speeds or greets the traveler as he enters or leaves the mountains.

The LANTERN

The really fatal thing is to lose on the job for a week or so, and then realize what a very little difference it actually makes.

The Captain Loses Three Fingers.
Sir: Last Sunday evening I dropped in on our friend, Captain Fitzmaurice and his cronies, and found the Captain in a reminiscent mood. He was talking about the time when I was able to take shorthand notes of his remarks without offending him. The narrative which dropped from his lips follows:

"A few years ago I was in a remote part of the Southwest newly opened to irrigation and power development. I had been of great service to those in charge of the scheme on account of my thorough knowledge of electricity, and a local group of cattle rustlers, engaged at the absorption of the hitherto free range by huge agricultural projects, quite correctly singled me out as the guiding spirit of the enterprise and as their worst foe."

"Although alive to their hostility, I despised them and did not fail to meet them with my witty sarcasm at every opportunity, to the delight of my admiring friends. Apparently, I carried the matter too far, for, realizing that not one of them was my equal in a man-to-man fight, they banded together and one night crept through my open window and bound and gagged me before I could reach my rusty dagger under my pillow."

"Without delay they carried me off in a large motor truck. Inside me in it was a watch, one which told me plainer than words of my impending fate. From time to time my tormentors cursed and kicked me. Arrived, finally, at the newly erected power line carrying 30,000 volts across the country, they halted, knotted one end of a rope around my neck and, throwing the other over the live wire, proceeded to hold me up to what seemed to them a most appropriate death. As I was lifted above the group, a severe rain shower, I could see in the darkness our approaching at fearful speed, guided by my faithful watch. To all appearances, however, he was too late."

"I shall never forget the extraordinary effect upon me at the moment when my neck came into contact with the wire. I was suddenly carried to the Seventh Heaven. I was immediately fired upon by four. From my finger the fabled lightning which dashed the terrified group to the ground, while I seemed to walk over their electric corpses. I would have wished this joyous oblivion to continue, but it unfortunately ceased at its very inception, and my mind became blank."

"My watch has supplied me with the subsequent events. On coming to the cattle thieves' camp, I was bound to the back of a horse, and, thinking he was the sheriff, while I fell heavily fifty feet to the ground. Leaping to my side, my watch, with a hypodermic needle, immediately injected into me a huge dose of a serum to whose discovery I was instrumental, and which I always carry in my vest pocket, to revive those whom from time to time I may wound or injure through mistaken identity or unaccounted assault. It then lifted me tenderly into the basket and slowly massaged me."

"Before long I breathed, I slowly, but surely, came back to life. Stunned faintly at first, but finally reached my right hand and grasped the edge of the basket to lift myself into a sitting position. At that very moment the horse, thinking my movements returned to normal, and being back to back to their horses, suddenly my head slammed down the lid of the basket, crushing three of my fingers, and then buried his face in his handkerchief until the jarring commotion had passed. Later in the day he finally accepted me. The three fingers, under my direction, and by night I was riding over the hills and through the woods as we took to the hills to plan for the future."

"Though I am not a bloodthirsty man, the following weeks were the happiest of my life, as one by one I called to account my foes. I invariably appeared to them in person before slaying them, and several of the more cowardly died of fright at their first view of me. Others, more hardy, I tortured with my electric rays, and finally, when their demise was too complicated to describe, they were killed by my electric rays. They will be given in full in my autobiography, shortly to appear in print. Suffice it to say that not one survived, and though you may argue that I was too severe, since I had not been thoroughly killed, yet I felt I had avenged my honor for the loss of my three fingers."

"At this point the Old Sock, who had been paying no attention to my 'speech,' interrupted me, saying: 'What's the matter? Usually it is as insignificant as the word 'Dear,' which

anything? Usually it is as insignificant as the word 'Dear,' which

ILLUSTRATION BY DON MARQUIS.
We have received a letter from Captain Fitzmaurice, in which he denies, truthfully, that he ever resorted to dubious methods to procure his drinks and meals. We never said he did—it is there not more than one distinguished-looking man in the crowd, who has injured three fingers on his right hand and calls himself "Captain."

DON MARQUIS.

Safe Office.
Bilkins had no love for his wife's little red dog, but one day when it mysteriously disappeared he offered \$25 reward for its recovery.

"But I thought," said a friend, "you hated that dog like poison?"
"So I did," replied Bilkins; "I could not bear it!"
"Then why on earth did you offer such a big reward for its return?"

"Well, that may be, but \$25 is sure to bring the dog back!"
"I think not," answered Bilkins, "unless some one saw me bury it in the garden."—The Congregationalist.

VOTE THE STRAIGHT TICKET!

OAKLAND'S COMMUNITY CHEST CAMPAIGN
BEGINS APRIL 18TH

42 CHARITABLE AND WELFARE ORGANIZATIONS

GENEROUS OAKLAND

EXCERPTS from the NATIONAL PRESS

Washington Post: "The outbreak of violence in London in the vicinity of the North Pole, which is reported by Canadian authorities, is a tough nut for crime analysts to crack. It has become the fashion to attribute crime waves in this zone to the war or to bootlegging or to pervasiveness of dangerous ideas. But how about our Eskimo brothers? The World War would be the spot news in their habitat. As for bootlegging, there is none; and as for dangerous ideas, there is a dearth of distance and rigors of climate. Or is there an epidemic of some kind that knows no racial barrier?"

New York Herald: "Recent investigations show that the traffic in slaves has been revived in Africa to such an extent as to be a matter of serious concern to European nations having African colonies or possessions. Evidence has been obtained showing that native villages in the interior of Africa are being raided, that in Abyssinia thousands of human beings are annually sold into slavery and that slave runners are carrying on a lively trade between African ports and Arabian and Persian ports under the noses of officers of France and Great Britain."

New York Times: "The campaign of the women of Glens Falls to enforce the cooperation of local merchants in checking the billboard evil will meet with State-wide sympathy. As shown in today's Times, the successful drive may be in their own neighborhood that they

other towns to follow their example and help bring about a limitation of obnoxious forms of billboard advertising. The fight against obnoxious signs is at least a century old."

JUST FOLKS
By EDGAR A. GUEST

BROTHERS ALL.

We're brothers all, whatever the place.

Brothers whether in rags or lace.

Brothers all, by the good Lord's grace.

Some may sit in a royal hall.

Some may dwell where the rooms are small.

But under the skin we are brothers all.

Some may toil 'neath a burning sun.

Some may dream where the waters run.

But we're brothers all when the day is done.

Dreams of splendor and dreams of rest.

Warm the proud and the poor man's breast.

What is best for God, for us all is best.

By the sun that shines and the rains that fall.

By the shadows flung on the garden wall.

By the good Lord's grace, we are brothers all.

By the hurt that comes and the falling tear.

By the common grief at the silent bier.

And the grave that awaits, we are brothers here.

PERSONAL SERVICE

By WILLIAM BRADY, M. D.
Noted Physician and Author.

WHY CHILDREN SHOULD, IF ADULTS SHOULD.

When anyone purporting to be a teacher of or an authority on health undertakes to reconcile the teaching that fresh air is healthful with the admission that exposure to ordinary cold and wet, draft or sudden change is unsafe, the general effect, as it seems to me, is rather odd, and brings to mind the thoughtless, nagging mother who had a habit of calling out frequently: "Johnny! Where are you—what are you doing? And stop that right away! I think adults have nothing whatever to gain by the use of the toothbrush as a toilet habit, unless under special direction of physician or dentist for a particular therapeutic purpose. At the same time I believe it is highly important that all children should brush their teeth carefully and painstakingly every day. Children have everything to gain by this practice—sound teeth. A child with sound primary or baby teeth is sure to have even, regular sound permanent teeth; there is no better asset for health or beauty than perfect teeth. This places upon me the obligation to reconcile these apparently inconsistent teachings.

Either I am weak in my conviction or I attribute other benefits than cleanliness to the practice of brushing the teeth.

That is it. Children are generally restricted more closely to ultra refined foods than adults are. Children are generally assumed to have feeble digestive powers and hence to require careful mastication of their food if not partial digestion of it. They should begin chewing things as soon as they cut their first teeth, but by custom and practice they are carefully prevented from making any real use of the baby teeth. Brushing, therefore, does in a poor way for the teeth and the gums what a natural diet and proper mastication would do well. Hence I say that the children should give their teeth a thorough brushing daily or two or three times a day. It children in civilized environment were allowed and encouraged to use their temporary or primary teeth for masticating whole cereals, cracking nuts, gnawing on bones, and the like, they would need to brush their teeth no more than calves or puppies do.

THE FORUM

The editor of THE TRIBUNE explains responsibility for opinions and statements expressed in this column. Editorial correspondence on current topics of general interest is welcome. They will not be as a rule, but will be published if they are of the nature of a letter which, if not, will be withheld from publication.

NOT A RACE RIOT.

To the Editor of the Tribune:
I take this method of calling your attention to the fact that the publication of an account of the trouble which happened on Thirty-seventh street, Friday, the 15th, between white and colored property owners, in which it was stated that there were about twenty colored people at Mr. Lane's door when an officer was shot by Mr. Lane is, I believe, at variance with the facts. There was only one colored man accompanied by four officers at the door when one of the officers was shot. There were only four other colored men in the vicinity of the excitement before and after the shooting. This statement can be verified by the officers who were present.

There was no race riot nor race riot. The fight started between two white neighbors, one of whom objected to the other selling his property in a colored man, which resulted in the objecting neighbor having placards posted on his and the property of several owners in that block, which read as follows: "We the property owners in this block have pledged ourselves not to sell or lease our property to negroes, nor countenance the sale or lease of same to them."

The colored people in the community protested against the posting of such signs and one of them accompanied by four officers went to the leader in the movement's house to request him to take the sign down, and they were answered by the report of a gun, shooting one of the officers through the thigh.

Will you publish this, and set our city and citizens in their proper light before the country?

JOHN D. DRAKE
President of the Northern Branch of the National Association for the Advancement of Colored People.

"My, my!" said the bank cashier. "I made an awful mistake today."

"You did?" The vice-president said.

"Yes. I met Milt Morrison and the cashier told him a half dozen good stories, bought him a cigar and parted with him smiling. I didn't know he was overdrawn."—Richmond Times-Dispatch.

An Artful Ruse.

"I never knew you so two to quarrel so much. It's positively wonderful the way you have been talking to each other of late." "I'll tell you about that. The servant girl is thinking of getting married and we're trying to get her to change her mind."—Detroit Free Press.

\$200,000 TO BE SPENT ON WATER LINES

East Bay Company Begins
Work On Extension of the
Mains Throughout Cities
to Meet Rapid Increases

To meet the constantly increasing demand for water service due to extensive building and rapid growth in population, the East Bay Water Company today announced an improvement program involving an expenditure of more than \$200,000 for additional water mains in the East Bay cities.

Work already has been started in Oakland and Berkeley on the installation of thirty and sixteen inch mains, and will continue throughout the spring and summer. During the first three months of the year, more than 2000 new services were installed. This means more than 2000 new buildings were erected, consequently additional pipe lines are needed to supply water, according to officials of the company.

LINE AROUND LAKE.

A 30-inch water main is being laid from Fourth avenue and East Sixteenth street, around Lake Merritt to Twenty-sixth and Broadway, where it connects with the general delivery system. Water from this new line will reinforce the system west of Broadway and south of Fortich street. This section of Oakland is developing into an apartment house district, and because of its proximity to the city, with a resultant demand for more water. The new line is about two miles long and is being installed at a cost of \$70,000.

To provide additional water supply for the Lakeside Highlands residential sections, a 15-inch main is to be laid on Excelsior boulevard and Hopkins streets, between Sheffield and Montclair avenues. This line will deliver water from the new thirty-ninth avenue reservoir to the Lakeside Highlands section. Approximately 6500 feet of pipe will be laid at a cost of \$21,000.

Growth of the Maxwell Park district calls for a combined sixteen and twelve-inch main 4500 feet long, extending from Thirty-fifth and School streets to Maxwell Park. The cost of this construction will be about \$20,000.

Additional water supply for the Upper Claremont district will be furnished through a 15-inch main from Temescal lake to Alvarado and Tanager roads in Berkeley. The service line will be 3600 feet long and will represent an investment of approximately \$12,500.

Completion of reinforcement work on Adams Point, has made necessary the laying of a 15-inch main on Oakland avenue between Mont Vista and Perry streets, a distance of 1500 feet, at a cost of about \$10,000.

INCREASE IN PIEDMONT.

Consistent building in Piedmont has made necessary additional facilities for water service. To meet this demand, a 15-inch main is to be laid on Grand avenue between Oakland avenue and the Embarcadero, a distance of 500 feet. The line for reinforcing the Piedmont water supply will cost approximately \$25,000.

Building in Berkeley has necessitated the construction of a 15-inch line from La Loma and Rose streets to Prospect, a distance of more than two miles. The water main passes through the University of California property and will serve the district of Berkeley lying east of Prospect avenue and south of Canyon road. The new line is completed to the site of the new stadium and is serving the contractors on that work. In all about 6000 feet of the main is in service, the remaining portion will be installed as rapidly as possible. The improvement represents an investment of \$27,000.

At the request of the city of Richmond, a 15-inch main is being laid on Tenth street between Y and J streets, a distance of 100 feet. The cost of the work is about \$3000.

DINNER PARTY IS FINAL EXAM IN ONE COURSE

BERKELEY, April 17.—No more will the weary-eyed student of public speaking at the University of California burn the midnight oil to prepare a speech for his final examination in the class of Professor E. Z. Rowell.

Professor Rowell has invited the entire class to a dinner party Friday night at his home on Miller avenue. He will preside at the banquet table with the toastmaster's gavel in one hand and a red pencil in another. Each student in the course will give an after-dinner speech. The toastmaster will "grade" each effort, and upon the student's showing will depend his final mark in his course for the semester.

Among the students who are to be guests of the professor at this unusual final examination are: Lila Morton, Edwina Schneider, William Allman, Miles Kittredge and John Edgar.

Adelphian Club to Hear Book Review

ALAMEDA, April 17.—"The Vehement Flame" from the pen of Margaret Deland will be reviewed next Thursday afternoon by Mrs. Walter Clark of Berkeley, before the Adelphian club at its meeting in the social hall of the clubhouse on Central avenue. Mrs. Clark, who will preside and give a short review of current literature.

Y. W. C. A. to Open Day Nursery For One Afternoon Each Week

MRS. JAMES A. STEWART, member of the Young Matrons' Club of the local Y. W. C. A., with one of the "guests" at the once-a-week nursery at the association building, where mothers may leave their children in safe hands while they go shopping or to the theater.

The young mother's problem of what to do with the baby when she wants to go shopping or to the matinee is to be solved, for one afternoon a week, at least, by the local Y. W. C. A. Beginning tomorrow, the association will conduct a day nursery every Wednesday afternoon in its headquarters on Webster street.

The Young Matrons' Club of the Y. W. C. A. originated the plan, and will be in charge of the nursery, at least one of its members being present each Wednesday afternoon. The nursery will occupy a sunny blue room on the second floor, and on the south side of the building. It will be in operation from 2 until 5 o'clock every Wednesday, and will admit all children between the ages of 2 and 4 years. It will be known as the "Children's Hour."

Mrs. J. H. Trumbull is president of the Young Matrons' Club, and is one of those chiefly responsible for the inauguration of the new plan. Mrs. James A. Stewart is another member of the club who has taken an active part in the preparations.

California Mortality Increases in 1922

SACRAMENTO, April 17.—Deaths reported from the state at large during 1922 totaled 51,968, representing an increase of 4000 over the preceding year, according to mortality statistics announced by L. E. Ross, head of the bureau

of vital statistics. The increase in the death rate was nearly 1 per cent greater than the rate of gain in population, Ross stated.

MARCHIONESS DIES.

PARIS, April 17.—Marchioness M. de Noailles, member of one of the most aristocratic and distinguished families of France, died at her hotel here today.

Pioneer Will Be Buried Tomorrow

The funeral of Mrs. Ellen Montgomery, 85-year-old pioneer of California, will be held tomorrow morning from St. Francis de Sales church. Mrs. Montgomery, who was the widow of former U. S. Attorney General Zachariah Montgomery, died at her home, 1815 Grove street, yesterday. She is survived by two sons and three daughters. They are: Richard J. J. P.

Mary, Margaret and Jane Montgomery.

As a young woman, Mrs. Montgomery came to California with an emigrant train in the first gold rush, making her home in Yuba. Later the family came to Oakland to establish a home. She was married in this city.

OLD BRIMSTONE LONG FAMOUS FOR SERMONS

Later Years Has Witnessed Reducing Punch in Noted Pittsburgh Edifice.

By WALTER C. MERRITT.
International News Service Staff
Correspondent.

PITTSBURGH, Pa., April 14.—"Old Brimstone," pioneer Methodist Episcopal church in this city, stands at the corner of Seventh avenue and Smithfield street. It is the oldest religious edifice in Pittsburgh, dating back over 100 years, some say 125 years.

They don't preach "hell-fire and brimstone" in this church as strongly as they did in the days of our forefathers, but Methodism without any frills is expounded here to citizens who sit in plain, simple pews like of yore.

The church derives its name from the old orthodox Methodist of another day, when the unworshipful and unrepentant were doomed to "hell-fire and brimstone" eternally. Strange to say citizens who are strong Methodists and some who are not such keen churchmen will call this church "Old Brimstone."

Everybody in Pittsburgh does. The name is not used in derision. Far from it. Officially the name of the church is the Springfield Street Methodist Episcopal church, but nobody hereabouts uses the official name to any extent.

STILL HOLDS ITS OWN.

Scattered about Pittsburgh are some costly edifices of this denomination. In some a flock coat is more or less desirable if you want to feel comfortable and believe those about you are not mentally harparding you if your clothes are not right up to the minute and of the best.

But for a century or more "Old Brimstone" stands like a giant, a half building, has stood like Gibraltar, unshaken by evolution or anything else. Those in charge have always maintained that follows the Gospel and nothing else. Here they get it every Sunday. Here one man or woman is as good as another. The millionaire and the pauper meet on common ground. They come for the same reason. All are equal. There is no class distinction here.

HAS PENN LAND GRANT.

"Old Brimstone" is the possessor of one of the few so-called William Penn church land grants in this city. The plot of ground it occupies for religious purposes. If the congregation should decide to move elsewhere the land, worth its weight in gold, would immediately revert to the heirs of William Penn, if there be any, or to the state otherwise.

The church stands on a busy corner, surrounded by great skyscrapers. The pastor, Rev. Daniel Marsh, is one of the greatest of its long line of ministers. He isn't exactly an old-time "hell-fire and brimstone" preacher, but he comes nearer to it than anybody else around here. In more modern language, he might be described as the person whose sermons have a decided "punch" to them. Rev. Marsh is immensely popular and a live wire in his work. He keeps an eye on police activities and social proprieties and has accomplished a world of good since he came here some years ago.

Council Battles Over Key Route

BERKELEY, April 17.—(Continued from page 1.)—The Oakland Terminal Railway was the subject of a stormy session of the city council today. The verbal fireworks resulted from the request of Mayor Louis Burlett that the traction company be granted permission by the council to operate one-man street cars. The matter had been up in the past and it was ruled by the council, who refused permission, that the system would be inefficient and dangerous.

Hardly had the mayor finished when Heywood leaped to his feet and, objecting, hurled accusations at the street railroad company.

"The traction company has not done the right thing by Berkeley," Heywood declared. "If they wish to keep their peace with the city by keeping faith and proving that they are willing to do the right thing, if they do this then consider granting their favors, and not before."

Held For Driving Car While Drunk

James Rush, a student at the University of California, was today charged with driving an automobile while under the influence of liquor. Police Judge Edward J. Tyrrell, before whom the preliminary examination was held, fixed his bail at \$100. He was arrested on March 23 at First street and Broadway by Sergeant James Walters after he had driven his machine over the Southern Pacific tracks near the ferry landing.

Sailor Denies He Knew Rabbi Latee

SAN FRANCISCO, April 17.—"I never saw Rabbi Latee in my life," said Clarence B. Hicks, U. S. sailor, charged with the murder of the cleric when he appeared today before Police Judge Jacks. His case was continued on week, as the coroner's inquest is to be held Friday. Hicks was not represented by counsel, but said arrangements were being made at Mare Island for an attorney to defend him.

Littleton Pleads, Trial Set May 10

SAN FRANCISCO, April 17.—Frederick N. Littleton of Alameda lost his first battle in the federal court today when United States Judge Pennington overruled his demurrers to the indictments charging him with accepting bribes while acting as United States naturalization officer. He then pleaded not guilty and his trial was fixed for May 10.

Shun Science in Religion, Barrows Urges Students

BERKELEY, April 17.—"If we were to take the revelations of science and apply them logically to our life, the whole race would shortly be left without moral principle or religious conviction. This is what happens when an intellectual leader attempts to explain human conduct on a purely scientific basis. The result is always materialism, and materialism, I am convinced, is entirely destructive of human life and of human society."

In these words David P. Barrows, retiring president of the University of California, last night urged students on the Berkeley campus to forget their scientific teachings in following their chosen religion. Speaking at a mass meeting in Harmon Gymnasium at the first of two lectures on "Science and Religion," President Barrows chose the subject, "What We May Not Know." Tonight at the same place he will talk on "What We May Believe."

The doctrines of Thomas Huxley and other noted agnostics, Dr. Barrows declared, instead of "hurting" religion, has strengthened it, in that it made investigations into the mysteries of life the more earnest.

KNOW, OBEY MORAL TRUTH.

"It matters little to any of us whether we live surrounded by every triumph of modern art and invention, under conditions of simplicity such as the untutored savage can create for himself," said Dr. Barrows. "This is relatively unimportant. But to know the moral truth and obey it, to have a hand a refuge of spiritual conviction to which we may resort in great tribulation or minor chagrin—this is of the real essence of human experience; and without it we had better never been born and compelled to face the vicissitudes and disappointments, the sorrows and despairs of life."

Continuing, Dr. Barrows said: "If I have any appeal to make to you as the head of a great scientific institution, it is this: Do not try to live by what you have scientifically learned here. You will not find in these studies that which will properly order your lives or give you strength in the day of affliction. To wish and help you in the infinite calls that will be made upon your sympathy and understanding, to reflect that science has taught you that life is a struggle for survival of the fittest. It will not give you a self-command to believe that you have of moral sense is simply a refined inheritance from what Mr. Huxley himself called the ferocity of the tiger and the

STOVE ALIGHT; SHE SPEEDS UP, THEN IS FINED

SAN LEANDRO, April 17.—"Keep the home fires burning" may be a good wartime slogan, but it brought no end of trouble to Mrs. Clara K. Kohn of San Francisco, yesterday.

Mrs. Kohn was taking a spin in her automobile on this side of the bay, and as she was passing through San Leandro she suddenly remembered that she had left the stove in her home burning. She stepped on the gas and was arrested by Traffic Officer Harold Johnson. She was fined \$10 by Judge J. J. Johnson.

A desire to try out the speed of his recently repaired automobile brought M. J. Horswell, 214 Greenbank avenue, Oakland, about of the law here. He got off with a \$25 fine.

The following offenders, pleading guilty in each instance, were also fined by Judge Johnson for speeding: J. L. Chicks, 2713 Broadway avenue, Oakland, \$10; James L. Hawkins, 3445 Twentieth street, San Francisco, \$10; S. D. Matthews, 426 South Seventh street, San Jose, \$10; J. P. Brown, Newark, \$10; A. G. Harris, 5024 Fairfax avenue, Oakland, and A. Cardozo, 9827 C street, Elmhurst, each forfeited \$10 bail.

U. OF C. WORKER HIT BY MOTOR; DRIVER SOUGHT

BERKELEY, April 17.—An unidentified young woman is being sought by the police today to explain how she happened to run down Mrs. Laura Furtado, an employee of the University of California printing plant, with her automobile this morning.

After the accident, in which Mrs. Furtado received a fracture of the shoulder and other injuries, the young woman autoist carried her into the printing plant nearby, and then disappeared.

The accident occurred at P. M. on the corner of Broadway and University streets, where the printing plant is located. Witnesses said that the driver of the car made a sharp turn into Barrow street, which turns one entrance to the campus, and struck Mrs. Furtado, who was on her way to work.

Mrs. Furtado was treated at Temple hospital. She gave her age as 28, and her residence as 727 Seventh avenue, Oakland.

Chamber Offers Cup To Best R.O.T.C. Unit

The Oakland Chamber of Commerce has donated a cup to the R. O. T. C. of the Oakland public schools which will be presented to the winning organization following the winning drill to be held at the Auditorium on the evening of May 11. The public in general is invited to these exercises.

Missing Sailor Is Held Legally Dead

Lost at sea in a heavy storm on March 23 last, Charles B. Anderson, marine engineer, today was declared legally dead by Superior Judge E. C. Robinson on the petition of his widow, Emma H. Anderson, 1225 1/2th Avenue, Alameda, who was granted letters of administration on his estate.

According to evidence by Captain Martin Beck and First Officer Austin Scott of the S. S. President Anderson, who disappeared while the ship was off the California coast when a sailor was sent to call him at midnight his room was found empty. A search proved unavailing.

Both expressed their belief that Beck had gone on deck in the darkness and been swept overboard by a wave, as heavy seas were running at the time.

The estate amounts to \$2500, according to the bond required of the widow.

California Mills Debate Is Even

Debating team of Mills college and the University of California were both victorious and defeated last night when they met to discuss the question, "Resolved, that the United States should become a member of the League world court."

Two teams were chosen from each institution of learning, to engage in the annual intercollegiate debate. The home team in each case lost the debate.

Miss Margaret Noe and Miss Anna Van Hoesen represented Mills against Miss Veronica Trimble and Miss Minnie Braman of the University of California in Wheeler Hall.

Miss Geraldine Hunt and Miss Virginia Staunton represented the University of California against Miss Elizabeth McCarroll and Miss Helen Wall of Mills in Alumnus Hall.

Land Exemption Is Asked By Council

The city council, at a short session this morning, received an application from the Sequoia Manufacturing company, asking that tract at East Fourth street and Broadway be exempted from the residential district and allowed to be part of the industrial district. This is near the DeWitt Hotel.

The tract was referred to the city planning commission.

COAL SHORTAGE THING OF PAST IN FORD PLANTS

Automobile Manufacturer Is in Control of Big Tonnage of Fuel.

DETROIT, April 17.—(United Press)—Coal strikes of the future will not retard manufacture of Ford products, under plans already adopted by Henry Ford.

Coal properties, acquired during the past two years by the Ford Motor company, have been placed under direction of the Ford Motor company, recently incorporated under the laws of Delaware. These properties, according to a conservative estimate of Ford engineers, consist of a coal reserve of about 800,000 tons, and about 700,000,000 feet of timber. The largest timber holdings were obtained with the purchase of the Peabody coal lands in southern Kentucky, where it is estimated, there is about 500,000,000 feet.

Only the construction of more than 1,000 coal cars of 55 ton capacity already have been issued by the new company. These cars will be operated directly between the Ford mines and automobile plants over Ford's railroad, the Detroit, Toledo and Ironmont.

The recent purchases of the coal and timber lands is in accordance with Ford's plans to gain control of every step of manufacture, from the basic raw material to the delivery of the finished product and their sale to the consumer, at the minimum production cost.

THE FIRST PURCHASE.

Among the first coal properties purchased by the Ford Motor company were the Decatur coal mines at Twin Branch, W. Va. This property was bought last November and thereby gave the company nearly 18,000,000 tons of high quality coal, adaptable to both by-product and steam purposes. These mines employ about 450 men and have a daily capacity of about 2,000 tons.

Next, the Ford company purchased the Pond creek properties in eastern Kentucky, near Williams, W. Va. It is estimated there is about 250,000,000 tons of available coal at these mines which are operated through eleven openings. About 7,000 tons of coal are produced daily at these mines, by about 1,000 men.

Purchase of the Banner Fork mine added about 12,000,000 tons of high volatile by-product coaling coal to the company's interests. This mine employs about 400 men and has a daily production of 3,000 tons.

The Nuttallburg mine at Nuttallburg, W. Va., now owned by Ford, has a daily production of 1,000 tons and employs about 250 men. It is estimated that the Peabody coal lands have about 200,000,000 tons of coal. They will soon be developed, it was announced.

The Ford wage scale has been placed in effect in all mines with the result that the men are earning about 25 per cent more than they were before the properties were acquired by the automobile manufacturer. The properties have been placed upon the same high basis of efficiency, safety and sanitation that prevails in all of Ford's plants.

If more coal is produced by the Ford properties than can be consumed at the manufacturing plants, it will be sold directly to the public, it was announced.

Youth and Truck Reported Missing

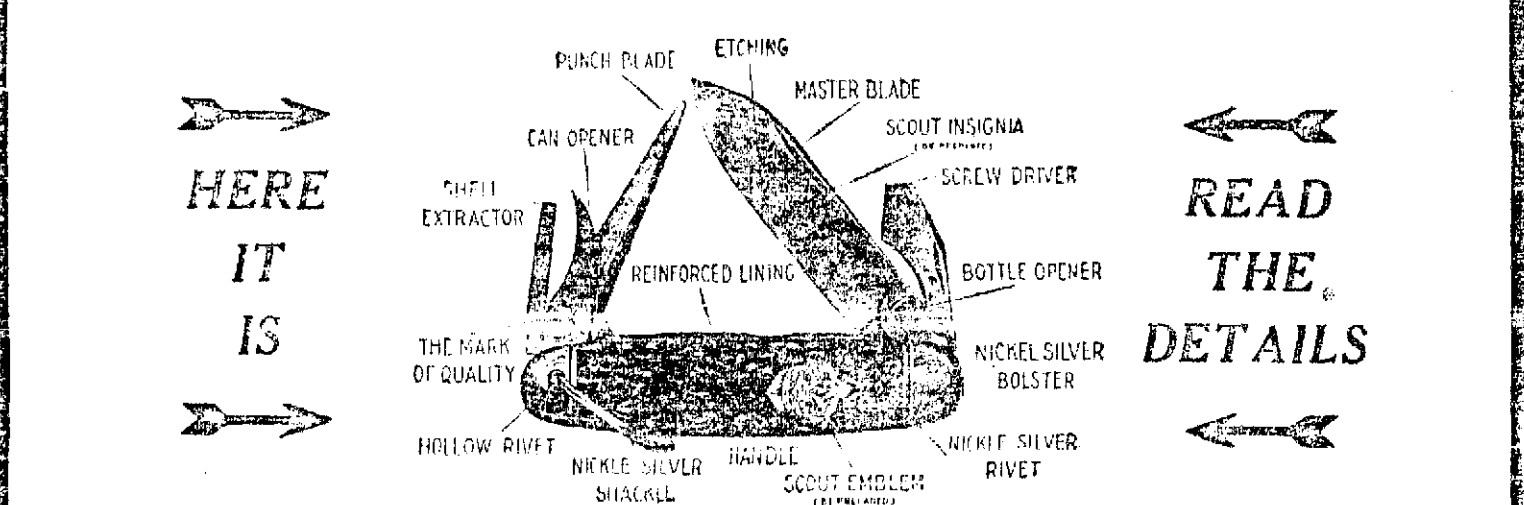

The police have been asked to find Richard Diamond, 18 years old, who has been missing since Saturday, when he left to go on a picnic in San Rafael. He is said to have been driving a truck which he loaned to the Thomas Iron company, 1729 Broadway, where he was employed. He was reported missing to H. E. Nelson, an official of the company, who told the police that one of his friends who went with him on the picnic wanted to go to their homes in Los Angeles. Diamond resided at 2927 Twelfth avenue.

BOYS! BOYS! BOYS!

Hundreds of "live wire boys in California have already secured a

Remington Official Scout Knife

The Official Scout Knife

THE Boy Scouts of America have authorized the Remington Arms Company, Inc., to manufacture the "Official Knife—Boy Scouts of America." This knife is of solid construction throughout and is built to meet the exacting requirements of Scout work. Every Official Scout Knife bearing the Remington trademark must be equal in quality and workmanship to the master exhibits submitted to and approved by the U. S. Government Bureau of Standards.

Remington Official Scout Knives bear on the handle the Fleur de Lys emblem with the Scout motto "BE PREPARED." The Fleur de Lys emblem with the motto "BE PREPARED" are also borne on the large blade. On the tang of the large blade in circle is the Remington UMC trademark. This mark is the guarantee of quality—a knife made in America.

A Real Man's Knife—Complete in Every Detail

- MASTER BLADE—The master blade is designed with extra gauge and weight to give greater strength and durability to the knife. It is made of high grade, hardenable and tempered from high grade crucible steel. They will sharpen and re-sharpen on any good sharpening stone—a most desirable feature.
- PUNCH BLADE—A most practical working tool—it will punch perfectly round holes in varying sizes in leather or other material. It is almost indispensable around the camp or on a hike. Remington Punch Blades are forged, hardened and tempered from high grade crucible steel. They will sharpen and re-sharpen on any good sharpening stone—a most desirable feature.
- CAN OPENER—Canned goods are always an important part of the camp menu. The can-opener blade is always ready for immediate use—has strong, thin edges and cuts cleanly and quickly.
- BOTTLE OPENER—The bottle opener is a handy tool for opening bottles or lifting tops from jam and jelly glasses.
- SCREW-DRIVER—There are always many uses around camp for a screw-driver; adjusting fishing reels, etc., etc.
- SHACKLES—The Shackle (ring) is made of 18 nickel silver wire of great strength. It is hollow riveted through the handle and will not pull out a nail. The knife is attached to the belt or near by.
- FOR RADIO—This Scout Knife makes a fine Radio tool. The punch blade is ideal for scraping insulation off a wire—also for making holes for wires, etc., etc. The screw driver also comes in handy.

3 IRISH REBELS DIE IN ATTACKS UPON REGULARS

Free State Victorious Over Irregulars in Two Encounters.

DUBLIN, April 17.—(By United Press.)—Two irregulars were killed and three captured when a rebel skirmish party was engaged by Free State forces north of Clonsilla during the night. Seven of the Free State forces were wounded. Bombs and rifles were used in the battle.

By DANIEL O'CONNELL,
International News Service Staff
Correspondent.

DUBLIN, April 17.—One man was killed and ten others wounded in a clash between Free State troops and republican irregulars at Castle Rosegreen today. A former state officer, named Sommers, was in command of the irregulars. They had taken shelter in the ancient castle and when Free State forces tried to dislodge them a bomb was tossed from a casement. Seven Free State soldiers were wounded by the explosion.

The rebels made a dash for liberty but were fired upon and one killed. Three Free State soldiers were wounded when the irregulars returned the fire. Free State military headquarters issued a communique announcing the capture of three more republican leaders.—Frank Bassett of the first western division, Eamon de Valera of the third division, and John Andrews.

No further word has been received as to the reported capture of Eamon de Valera and it is generally accepted now as premature. It is believed, however, that the Free State know where he is and can take him when they wish.

Monaghan Luzzo, who was sent to Ireland by Pope Pius XI to assist the Catholic hierarchy to work for peace, issued a statement saying he was anxious to help the Irish people back to tranquility without further delay.

President William T. Cosgrove of the Dail Eilreann said the policy of the Free State government had not changed, and he believed that the time was not opportune for mediation. He said that for the time being the military would be in charge of the situation.

LONDON, April 17.—The improved prospects for early peace in Ireland as a result of the utter disorganization of the republican movement through the recent government success are leading many people throughout the country to question the wisdom of pressing for a fight to the finish, says a Dublin despatch to the Times.

"The Free State has some 12,000 to 15,000 prisoners in its jails," the correspondent writes, "and the problem of their future is becoming acute. If the government insists upon a Carthaginian peace these men will come out of the prisons cowed for the moment, but sullen and resentful at what they consider a peace of vengeance."

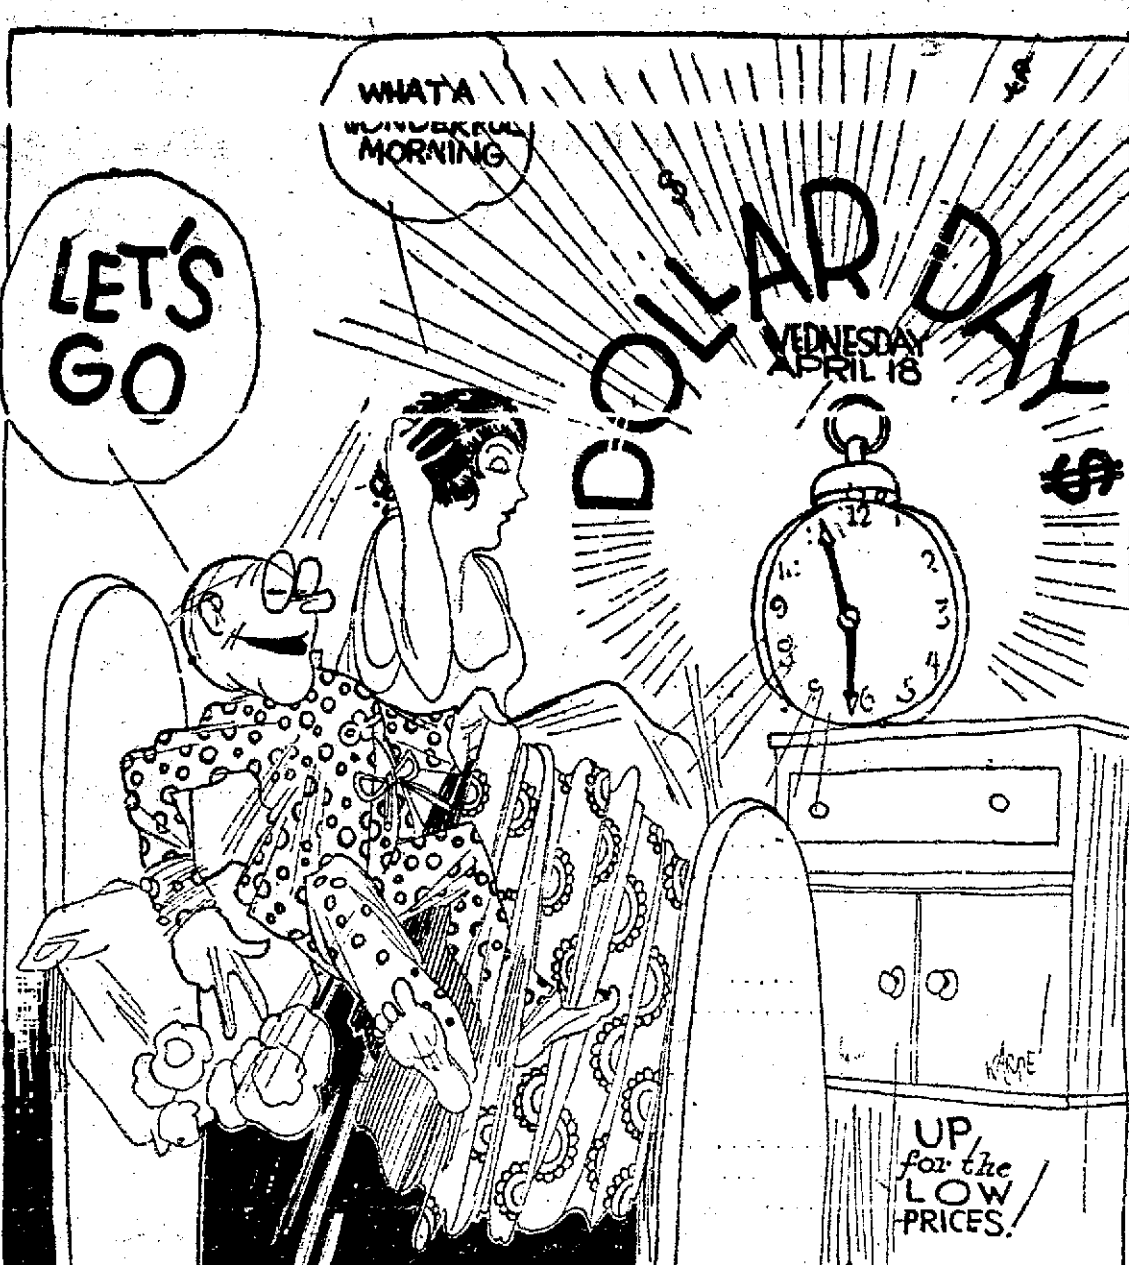

More seeds of bitterness will be sown, and the spirit of revenge will be kept alive by the women. Thus the children will grow up as in the past with a spirit of hatred for the existing institutions bred in their bones.

There is a growing feeling that De Valera should, if possible, be given a chance to save his face.

As an indication of the prevalent feeling, the correspondent quotes the Irish Times as advocating a conference between a government representative and the republicans with a neutral chairman. It suggests Monsignor Luzzo for this post.

The newspaper admits that the idea may not be pleasing to the government, but says a conference is the only alternative to a continuation of the fighting until the extremists have been utterly crushed. It urges that the government could not be endangered by such a conference, which might bring a "safe peace—the only peace the nation can afford to accept."

MASKED BALL PLANNED.
RICHMOND, April 17.—The Women of Mooseheart Legion at their meeting last night reported plans for a masked ball for their masked ball April 23. Several of the local Legionaries will go to Martinez Thursday for the birthday party of the lodge there.

RICHMOND

City to Celebrate Road Completion

RICHMOND, April 17.—The completion of the final link in the San Pablo Canyon highway in the near future will be the occasion for celebration on the part of Richmond. It was said at last night's meeting of the Richmond Merchants' Association, "The road will be an attraction to tourists and will prove a great utility, it is said, connecting Richmond up with the central part of the county. Harley R. Carter was chairman last night.

Property Leased By National Bank

RICHMOND, April 17.—The First National Bank of Richmond, recently granted a charter by the controller of the currency of the United States, has obtained a lease of the building at 611 Macdonald avenue, and will open for business between May 15 and June 1, it was announced yesterday.

Lions Will Visit Den at San Jose

RICHMOND, April 17.—The Richmond Den of Lions will send a delegation to San Jose tomorrow for a visit with the San Jose Den. The Lions from this city will join contingents from Oakland and Berkeley.

Lincoln P. T. A. Plans For Mother's Day

RICHMOND, April 17.—Observance of "Mother's Day" was discussed last night at a meeting of a committee of the Lincoln Parent-Teachers' Association at the home of Mrs. Charles S. Renwick, 1225 Nevin avenue. The women are evolving a program and will issue invitations to all mothers and all school children. The refreshments committee is headed by Mrs. Renwick and Mrs. J. A. McNary is chairman of the program committee.

Mission to Open at San Pablo Church

RICHMOND, April 17.—A mission will be opened at St. Paul's Roman Catholic church, San Pablo, on Sunday, April 29, at the 8:35 a. m. mass. Very Rev. Father Berchmans, a Capuchin Father recently arrived from Ireland, will deliver the sermons.

Widow to Marry Husband's Brother

RICHMOND, April 17.—License to wed was issued yesterday to Harold B. Brinham, Standard Oil Company, and Marie E. Brinham. The latter is the widow of the late Stonewall Jackson Brinham, who was a brother of the bridegroom-to-be.

Church Club to Hear Law Speech

RICHMOND, April 17.—Law enforcement in Contra Costa county will be the subject of a speech by District Attorney A. B. Tamm, at a dinner given tonight by the Good Fellowship Club of the First Presbyterian church. Fred S. Newsum will be chairman.

Workers Councils Will Hold Picnic

RICHMOND, April 17.—The Contra Costa Building Trades Council and Central Labor Council are arranging for their annual picnic to be held at East Shore park Sunday. The demand for tickets indicates that the attendance will be large.

Civic Center Club Plans for Dance

RICHMOND, April 17.—The Civic Center Club of Richmond, one of the strong social units formed in the eastern end of the city, announces a dancing party on Wednesday evening, May 9. Mrs. K. A. Cole is president of the club.

Couple Home From European Tour

RICHMOND, April 17.—Mr. and Mrs. Francis Reinini, who have been absent on a several months' tour of Europe with long stays in London, France and Germany, returned to their home in this city.

Ad to Meet

RICHMOND, April 17.—The Ladies' Aid Society of the Point Richmond Baptist church will meet tomorrow afternoon at the home of Mrs. T. Hultberg, in Buena Vista avenue.

ZONE ORDINANCE NEAR COMPLETION

RICHMOND, April 17.—An ordinance fixing zones for the city of Richmond is in process of drafting and will be submitted to the city council for adoption at its meeting Monday evening. It was announced at last night's meeting of the council. The task of zoning Richmond has been in progress for nearly two years, a zoning commission having been appointed for that work. Dr. Carol Aronovici, city planning expert of Berkeley, has had charge of the work and will appear at next Monday's meeting.

The improvement of Maine avenue and Potrero avenue will be considered next week. In the case of the former, a 60-foot street, the Southern Pacific Company claims the city has a 30-foot right of way. City Engineer Chapman proposes changes of certain grades in Potrero avenue.

The board of freeholders was given till June 16 to complete its labors, which is an extension of 60 days.

Mr. L. Locker was appointed traffic agent at a salary of \$200 a month. He will be charged with getting business for Richmond's public warehouses. His headquarters is in San Francisco.

A landscape gardener for Grand Canyon Park may be employed soon, according to the council. The riding of the park of poison oak will be undertaken.

The city auditor's report showed the city treasury held \$169,820.99 on March 31.

Outlook Favorable For Kiwanis Club

SAN LEANDRO, April 17.—A meeting of local business and professional men was held today noon at the Estudillo Hotel with Robert Kean, an eastern organizer, to report progress on the proposed establishment of a Kiwanis Club in San Leandro.

According to informal expressions from committee members, formation of the club appears favorable, the next week probably to determine success or failure. The local chamber of commerce is known to be standing behind such an organization.

BENEFIT WHIST PLANNED

SAN LEANDRO, April 17.—Final preparations are being made by members of the Ladies' Auxiliary of J. J. Dorce Camp No. 41, Spanish War Veterans, for their initial whist tournament to be held at St. Joseph's hall, Friday night, April 20. Mrs. M. Chestnut is chairman of a committee in charge. Funds derived will go to the order's treasury.

ALLEN GRINS AS COURT DELIVERS 'LIFE' SENTENCE

Accused Slayer Shakes Hand of Prosecutor On Learning His Fate.

Smiling through the ordeal and without a trace of nervousness in his bearing, Harry Allen today heard sentence pronounced which will keep him confined in prison for the rest of his life. As Superior Judge George Samuels finished committing him to the penitentiary Allen turned toward Deputy District Attorney Preston Higgins, intending to shake hands with the prosecutor. Higgins had turned away and was leaving the court room, however, and did not see the proffered hand.

After Allen was led back to the county jail he sent for Higgins and for District Attorney Ezra Decoto. The latter was not in his office but Higgins went to the jail. Allen shook hands with him there and assured the prosecutor that he held no bitterness against him.

"You presented the evidence you had and that was what you were supposed to do," declared Allen.

Allen was sentenced to life imprisonment for the murder of Walter Dowdy, with whom he was engaged in buying and selling second-hand automobiles at Palo Alto. The murder took place December 21, last, while Dowdy and Allen were on an automobile trip. Allen is alleged to have killed Dowdy with an ax.

Although Superior Judge H. L. Preston of Ukiah heard the evidence in the case, both sides stipulated that Judge Samuels should pronounce sentence. The term of life imprisonment was in accordance with the verdict of the jury which found Allen guilty of first degree murder with a recommendation for the life term.

Citizens Protest Transfer of Poles

SAN LEANDRO, April 17.—Declaring that such action would impair the beauty of the street and would depreciate property values, Cambridge avenue residents appeared at a meeting of the San Leandro board of trustees last night to protest proposed transfer of combined electric light and telephone poles from their present position along the center of the block in Broadmoor, bordering the back yards to the curbing line. Representatives of both the electric and telephone companies were on hand to induce the board to allow the change, stating that it would improve service, would prevent line-hang from curbing back yards at night to make repairs and would establish a uniform and not a broken system line. The board, in view of the protests from residents, held the matter over until a meeting the night of May 7.

TALKING HARMS U. S. RELATIONS.

ENVY STATED

LONDON, April 17.—(By International News Service.)—There is too much talking about international affairs by people who do not know what they are talking about, according to an opinion expressed here today by Alexander P. Moore, newly appointed American ambassador to Spain and former newspaper publisher in Pittsburgh.

"The best thing that could happen to improve relations between the United States and Great Britain would be for Americans who come to England and Britons who go to the United States to cease their idle talking about international affairs when

Chief Slain, Man Shot By Bandits

(By International News Service.)

Searching parties took up a hunt today for five bandits who murdered Robert Wilgerson, Wilson, chief of police, and shot "Shorty" Adams, a cab driver, during a running pistol fight that followed the blowing of the postoffice safe, before dawn. The robbers fled in such haste they got no money.

Adams' death is certain. They do not represent any considerable opinion of their fellow countrymen," said Moore, "they should quit talking about things they know nothing about and leave conversations to official government sources."

Odd Fellows Plan Founding Service

SAN LEANDRO, APRIL 17.

Commemorating the one hundred and fourth anniversary of the national organization, members of the local Odd Fellow and Rebekah lodges will hold special services on Sunday morning, April 29, at the First Presbyterian church of San Leandro. Edwin Duck is chairman of a committee in charge of arrangements. Rev. Monroe Drew, pastor of the church, will conduct the services. A social hour will be rendered. It is expected that 100 men and women will be present.

COURTESY VITAL IN I HAVE WUKLU, CAPWELL STATES

Department Store Head Tells
Kiwian Club of New
Business Methods.

"Courtesy, its Value and Application in Business," was the subject of an address by H. C. Capwell, local department store owner, before members of the Kiwanis Club at their luncheon yesterday at the Hotel Oakland.

Capwell spoke in connection with the opening of National Courtesy Week, which is being conducted this week throughout the United States and Canada by Kiwanis clubs. He stressed the fact that to be courteous is out of date and the slogan of the day is "politeness, courtesy and service." He refused the criticism that the American people are more courteous than they were twenty-five years ago, and said that because of our complex method of living, courtesy is essential for both business and social relations.

"Courtesy is contagious and if you radiate pleasantness and good cheer, it will have its effect on others," said Capwell. "In business courtesy makes a customer tolerant and willing to listen to a salesman while he sells both himself and his wares. Even if the customer does not buy, courtesy on the part of the clerk helps build up good will for the store."

"The old idea that 'the public be damned,' which was practiced by large corporations, has been supplanted by the new idea that 'the public be pleased.' This old theory for disregard for the public's wishes was originated by one of the large railroad companies. This concern has had to change its policy because of competition and now make service and courtesy its managers' motto and aim."

"Business men ought to realize that the public is their boss. Their employees cannot meet the people with a frown on their faces and expect to promote business. The public is the boss and the only being because of the lack of courtesy on the part of the small town merchant. These firms have built up a large trade because of the courteous manner in which they deal with their customers."

Church of Future Is Outlined

"The church that is a dead duplicate, with its job gone and out of touch with God and man, not a padlock, but the church that is a free, independent, democratic American church, linking the truth of the ages with the life of today, intellectual yet spiritual; that knows no class or race or group; that church needs the greatest preacher in America, and that church is now in the heart of Oakland," said Frederick Vining Fisher in his sermon Sunday morning at the First Presbyterian church on "Padlock or Preacher?" He spoke, in part:

"This coming Oakland, like the best of western America, will care for authority, form or tradition or dogma in religion but it will ask life, truth, leadership."

"What is the Congregational church, and what has it to offer this strategic spot-to-be at these gates of the east?"

"First a church that is absolutely independent, responsible and responsive to no one outside the gates of Oakland, a genuine community church. The age of the strait is going, the age of the perpendicular is coming. The time is at hand when we who live under the same roof must feel our supreme kinship above all other interests. The coming city will demand the best we have. The finest contribution that Oakland can make to America is the best kind of Oakland. The church must live in that spirit, unhindered and unfettered."

"Second, a church that is more democratic than democratic America, a training school for American democracy. In this church rank and file must be taught—'a man's man for a' that."

"Third, it offers a free church where men can believe what they believe, and where in the hope of John Robinson, it looks for and is not afraid if new light breaks out of the ages. It is the Mayflower church of the Covenant—we covenant and combine together."

"Fourth, it is intensely independent and unshaken by the community, it is vitally interested in all humanity and all civilization. The Congregational church founded the American college, started foreign missions and has backed every great reform of the nation."

"The great thing that the church of tomorrow in this coming great city must do is to be at once a church of clear, straight thinking, yet with its heart on fire with the mightiest passions of the soul and without being tied to gateways, it must not lose the wealth or truth of the past, but interpret the past in the terms of the living world of today. That is the burden of Congregationalism and that is its ready to do."

Don't Spoil Your Child's Hair By Washing It

When you wash your child's hair be careful what you use. Many shampoos and prepared shampoos contain too much free alkali, which is very injurious as it dries the scalp and makes the hair brittle. The best thing to use is Mulsified coconut oil shampoo for this is pure and entirely greaseless. It is very cheap, and beats anything else all to pieces.

Two or three teaspoonfuls of Mulsified coconut oil shampoo in a little warm water is all that is required. Simply moisten the hair with water and rub the Mulsified in. It makes an abundance of rich creamy lather, cleanses the scalp and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, easy and easy to manage. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

Shampoo at any drug store, and a few ounces will last every one in the family for months. Be sure you get Mulsified coconut oil shampoo. Advertisement.

News of the Churches

Fewer and Better Churches Need

"Fewer and better churches, every way that incarnates the spirit of our Commanding Officer," said Dr. Charles L. Kloss, pastor, at the Plymouth church Sunday morning, the subject of "The Church of the Future." He said in part:

"The cut-throat, competitive, devil-take-the-hindmost spirit is in the discard. We are getting together in business, why should not the churches lead the way? The New Testament word is together. They were all together in one place, they prayed together, worked together, did their charity work together. The spectacle of a divided church, Catholic and Protestant, liberal and fundamentalist, ignorant of each other's program, working at cross purposes, is the scandal of Christendom."

"In a world of suspicion, hatred and lust for gain, what leadership does a divided church offer? The church must be something distinctive, and more necessary in their day. It is right to take pride in the regiment and regimental trappings, but the army is the big thing and the command and spirit of the leader are the essentials."

"We will get together, not on creeds and definitions, but in service—service to children, to secure to them their right to be well born, their right to play and the best education, service to the sick, jobless, dependents; service to bring in a better social order; service to regulate the conscience of others, but Christ insists upon that right. When young people drift toward bad company and mature folk slip toward an empty life, He breaks in with a serious and timely warning. Jean Valjean rushes back to the good bishop and begs for forgiveness because Christ as Lord of authority is charging his conscience. Judas Iscariot flings the thirty pieces of silver down upon the pavement because of conviction and remorse as a result of Christ as the Lord of authority charging in his conscience Jesus the Christ, that He is the King of Truth, and would rule men by the force of truth."

"And what is the result of installing Christ as authority in our lives? It effects a vital change in our lives. It gives us the life of God in our souls—it transforms our character. This life of Christ in the believer is just as real as the life of spring in the maple tree. Receiving Christ as authority also means a great mental change. We furnish ourselves with the opinions of Christ rather than mere worldly opinions. There is widespread discontent today, but we are failing to see the reason. It is not economic conditions, nor even international conditions, it is mental—it is the mind of the individual and the dysfunction causing men to be alienated from God. We need new minds of contentment and confidence that comes from installing Christ as authority over the mind. We need an international court to settle the world squabbles but even an international court, if accepted, will not function unless the world mind of Christ authority also gives us the might of moral and spiritual organization."

"No man is a match for his passions, temper, appetites and ambitions," said Dr. Frank M. Sibley Sunday morning in the First Presbyterian church, speaking on the theme "Pilate's Handwriting at the Cross." He spoke in part as follows:

"There is only one absolute authority in the universe, and that authority is indicated by the handwriting of Pilate at the Cross. It is Jesus of Nazareth. Christ spoke with absolute authority over every man, woman and child without the slightest apology revised and amplified it. There is only one absolute authority over the conscience of man and that is Jesus Christ."

"No human has the right to

Man No Match for His Passions

"No man is a match for his passions, temper, appetites and ambitions," said Dr. Frank M. Sibley Sunday morning in the First Presbyterian church, speaking on the theme "Pilate's Handwriting at the Cross." He spoke in part as follows:

"There is only one absolute authority in the universe, and that authority is indicated by the handwriting of Pilate at the Cross. It is Jesus of Nazareth. Christ spoke with absolute authority over every man, woman and child without the slightest apology revised and amplified it. There is only one absolute authority over the conscience of man and that is Jesus Christ."

"No human has the right to

"Third Anniversary" Celebrated

and facing with you a new year of service and sacrifice together than to have lived in any other day since the angels of God began the keeping of chronological record," said Dr. John Knox, on the occasion of his "Third Anniversary" as pastor of the First Baptist church, Sunday morning, speaking on the theme "By the Space of Three Years."

In the three years of his ministry Dr. Knox has married 116 couples, conducted 110 funerals, preached 235 sermons, made 200 addresses, received 512 new members, and made 2500 pastoral calls. In his anniversary sermon he said: "Paul was pastor at Ephesus just as long as I have been pastor in Oakland, but right there the comparison ceases. What a wonderful man was Paul! What pignomes modern ministers are in comparison! He outshines all prophets of our day as an arc light outshines a lit candle."

"Think of the themes of his ministry, the spirit of his ministry, the tranquility of his ministry. He preached repentance toward God and faith toward our Lord Jesus Christ. He declared the whole counsel of God—that is to say, the gospel Paul preached—was a theological gospel, a sacrificial gospel, an evangelistic gospel, an ethical gospel, an ethnic gospel."

"He was not afraid of emotion

just as much a mark of civilization and progress to project ourselves mentally forward, as it is to be able to swing ourselves backward

RHEUMATISM

Cannot Exist in the Human Body if You Will Use Trunk's Prescription. It is preposterous to say that it is a shame to suffer with rheumatism, muscular, sciatic or any form of Rheumatism.

This Prescription does not ruin the stomach, it does not depress the heart. Eat all the meat and good food you wish while taking Trunk's Prescription. Contains no mercury, calomel, soda, all wintergreen or narcotics, but positively overcomes any kind of rheumatism or gout on earth. What more do you want? There is nothing just as good, and better.

The greatest uric acid solvent known and also a superior liver medicine.

Trunk's Prescription sells for \$1.75 per bottle. Sold at all druggists, grocers and 12th.—Advertisement.

SAYS RHEUMATISM LEAVES YOU FOREVER

James H. Allen of Congress Avenue, Rochester, N. Y., once a rheumatic cripple, who discovered ALLEN-RHU and with it banished every trace of uric acid and every sign of rheumatism from his body, says that, every druggist guarantees a full pint bottle of ALLEN-RHU to show the way to complete recovery or money back.

It relieves at once and immediately after you start to take ALLEN-RHU the good work begins. It searches out uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels. Even in cases where suffering has been intense and painful all traces of this dread disease disappear in a few days. All druggists can supply you.—Advertisement.

INGROWN TOE NAIL

How to Toughen Skin so Nail Turns Out Itself

A few drops of "Outgro" upon

nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it cannot penetrate the flesh, and the nail turns naturally outward almost over night.

"Outgro" is a harmless, anti-septic preparation for cutaneous dista. However, anyone can buy from the drug store a tiny bottle containing directions.—Advertisement.

VOTERS ORGANIZE

NATIONAL DUTY

A new political organization designed to aid in the solution of "local, State, national and international problems by bringing the collective intelligence of the country to bear upon them" has just been organized under the name of the *United States Voters' Association*.

Announcement of the formation of this "national non-profit federation" was made today by Samuel Adams of Chicago, president of the American Agricultural Editors' Association, who has accepted the post of director general of the party.

The object is to have old-fashioned assemblies to decide on party matters. Governors of all states will be asked to serve on the advisory board and representative citizens from all walks in life will round out the board membership of 100.

Ira Nelson Morris, recently

United States minister to Sweden, has been selected as president; James W. Good, formerly congressman from Iowa and now a Chicago attorney, is vice-president, and G. W. Weyland, of the same city, is secretary.

The name of the organization was selected in a national name contest and is the choice of W. F. D. Brown of this city, to whom was awarded a prize of \$100 for the suggestion.

Side-Lights Upon Browning to Be Given

ALAMEDA, April 17.—Side-lights on Robert Browning and his rating as one of the greatest of the Victorian poets will be outlined by Mrs. Emma Rathgeb tomorrow during the literary part of the Wednesday club program.

The club will meet with Mrs. John Heidt for luncheon which will be followed by the regular business session of the organization and the response to roll-call with quotations from Browning. Mrs. Harold Miller, president, will preside and introduce Mrs. Rathgeb.

PICNICKERS FIND

ABED MAN'S BODY

BAKERSFIELD, April 17.—A group of youngsters, members of a picnic party, stumbled upon the body of R. D. Farmer, 70, in a lonely cabin near the old abandoned sawmill on Mount Breckinridge Sunday. Coming to Bakersfield, S. A. Cassidy of this city, one of the picnickers, notified coroner House.

According to the coroner, Farmer had been dead only two or three days. No marks of violence which might indicate murder were found on the body.

Farmer left this city ten days ago, following his recovery from influenza, and is thought to have been taken in alone in the mountains.

MAX-MONKEY CAPTURED. BANGKOK.—A creature apparently a man but having all the characteristics and habits of a monkey was captured near Rangoon but later escaped.

FLORIDA LEADER PICKS ROBINSON FOR PRESIDENCY

TALLAHASSEE, Fla., April 17.—The name of Senator Joseph Robinson of Arkansas was submitted to the Florida legislature today for consideration in the light of the next president of the United States by former Governor C. H. Brough of that state. Brough addressed the lower house.

The Democrats will most certainly carry the next presidential election, he declared, adding that there will be considerable interest as to who would be the party's standard bearer.

"I want to submit for your consideration a name that has not before been mentioned," he said. "Mr. McAdoo and Mr. Cox will most likely poll the leading strength of the first few ballots, but I do not think either of them can be nominated."

STATE AT END OF TESTIMONY

LOS ANGELES, April 17.—(By International News Service.) Concluding testimony for the prosecution in the trial of W. R. Kruee and Forest Mingle, alias J. W. Allen, charged with the slaying of Nicholas Dabelich, Oakland cafe owner, in the so-called mysterious "diamond murder," was to be presented today.

Pictures, taken at the scene of the crime, were to be offered in evidence by the State in an effort to give the jury a clear analysis of how it was enacted. Whether the prosecution would finish in time to allow the defense to start today was doubtful, as court opened this morning. The defense has not been revealed.

Disabled Chief Visits Oakland

HAMILTON C. Cook, national commander of the Disabled American Veterans of the World War, will be the guest of Oakland Chapter No. 7, D. A. V., of W. W. tonight at Sons of Herman hall, Twelfth and West streets. All men and women who were wounded or disabled during the World War are invited to attend the meeting.

Cook is touring the United States inspecting veterans' hospitals and schools. He was welcomed to Oakland by officers of the local chapter and by Harry Wentworth, State commander, who was accompanied by officers of San Francisco Chapter No. 3. After inspecting hospitals in the bay district Cook will leave for Los Angeles.

HEAT-HUNTERS' DESPAIR. SINGAPORE.—British scientists investigating the rapid depopulation of the Solomon Islands report that the natives have lost interest in life owing to the abolition of head-hunting.

LAKE IRON MINES

READY FOR SEASON

DULUTH, Minn., April 17 (Associated Press).—The Oliver Iron Mining Company, ore producing subsidiary of the United States Steel Corporation, and owner and operator of 40 per cent of the ore properties in the Lake Superior district, the world's greatest ore beds, will open new mines in 1923, according to an announcement by John E. McLean, general manager.

All of its forces will be centered on developing the previously established properties to meet what is expected to be a smart demand for the iron mineral. Mr. McLean said while no definite word was available from the various districts pending the announcement of the actual program of production for the season, McLean declared that the Oliver's entire force of approximately 11,000 men would be working full shifts this summer. He thought it probable that a thousand or more men might be added during the busiest part of the season.

Independent operators in the district report similar activity in advance of the opening of the shipping season next month.

The Mesaba range, the largest and oldest in the district, is the center of the Oliver's properties. The Oliver company moved 15,000,000 tons from its twenty-three mines, which has 56.68 per cent of the total production for the Mesaba last year. In 1922 the Oliver moved approximately 70 per cent of the ore shipped from this range. The Mesaba's 94 mines produced 28,555,334 tons of the approximately 40,000,000 tons hauled from the district in 1922. This was an increase for the Mesaba of 74 per cent over the preceding year.

CAT MOTHERS' HABITS. HAMMOND, Ind.—When a cat belonging to Chester Denson loosed her kittens or freezing she immediately adopted two wild young rabbits whom she tends and nurses.

WHAT Is Double Gum-Dipped?

Considerable interest has been shown just what the double gum-dipping process means in tire-building. For its importance to mileage performance has attracted attention everywhere.

This improved process in cord tire construction is rarely found in other than Firestone Cords. Extremely difficult to carry out, most tire manufacturers cannot duplicate it.

Yet Firestone has now so perfected and simplified gum-dipping, that notwithstanding their many advantages, Firestone Cords cost no more.

By this process the cord fabric is dipped in a heavy solution of liquid gum or rubber. When thoroughly saturated it is removed and allowed to dry. Thin coats of sheeted rubber are then pressed

onto each side of the cord fabric in a process called "calendering." Thus there is double assurance that each separate cord is completely submerged in live, springy rubber.

The deterioration of tires caused by internal friction is well known by experienced car owners. Excessive heat is generated that literally burns away

In Firestone Cords, internal wear is practically eliminated. Gum-Dipping makes them stronger and more resilient. It is largely responsible for the buoyance and easy-riding Firestone users experience.

There is a good dealer near you who sells and services Firestone Cords. Go to him this month if you are looking for the way to reduce your tire costs.

FOURTY MEASURES MEASURED UPON IN TWO HOUSES

Nine Assembly and Eleven
Senate Bills Are Ready
for Governor.

SACRAMENTO, April 17.—The two houses of the legislature of California passed a total of forty bills yesterday, after finally disposing of nine assembly bills in the senate, and eleven senate bills in the assembly. Against the general reduction of twenty numbers, thus gained in the files, the two houses added forty-two numbers by bills emerging from committee, so that when the day closed the members faced twenty-two more numbers ready for action than confronted them in the morning.

In the assembly, T. M. Wright called attention to the steadily increasing file, and after a long argument that body decided, on motion of Graves of Los Angeles, to hold night sessions Thursday and Friday of this week and every night next week, in an effort to catch up with the work.

Neither house passed any bills of statewide import.

SENATE BILLS PASSED.

The senate bills passed in the assembly yesterday included but two of more than local interest. There were bills by Hurley, authorizing the organization and operation of municipal harbor districts, which was sought by Oakland and Berkeley, and by Lyon, forbidding cities of the sixth class from annexing contiguous lands within the limits of the annexed property. The harbor bill, designed to regulate the sanitary conditions in shops and among the workers at that trade, came up for passage, but after some argument went over again for amendment.

The assembly put final legislative approval on a bill by Feltom authorizing the use of voting machines in California, when it concurred in some minor amendments to the bill that had been made in the senate. The bill now goes to the governor.

SENATE LEGISLATION.

Passage of thirteen senate bills and nine assembly measures represented the bulk of business transacted by the upper house.

Approval was given a bill by Senator Murphy, San Francisco, to prevent technical evasions of the women's eight-hour law. He explained a woman might work eight hours a day in a factory or other establishment and then put in additional hours at home in the evening. His bill would prohibit such practices, which he said, violated the spirit of the law.

Another measure passed was Assemblyman West's bill to declare January 24 Gold Discovery Day and to have it observed with appropriate exercises in public schools. Other bills passed included these by:

Senator Gray, San Francisco, to raise the standards in the practice of optometry.

Senator Eden, Santa Ana, to increase the state's allotment for junior college students from \$50 to \$100 apiece.

Senator Murphy, to provide for inclusion of housing conditions among factors not to be considered by employers of labor.

Senators W. F. Gates, Hart, A. B. Johnson and Ingram, four bills introduced at the request of the Long Beach Bar Association, to provide Long Beach with branch courts.

Civic Candidates Repudiate Aid of Club in Berkeley

BERKELEY, April 17.—After the regular process of warming up the political pot in this city has started to boil preparatory to spilling over on May 1.

Today Walter Mork, Elmer E. Nichols and Frank W. Wentworth, candidates for city council under the city manager plan, and members of the Berkeley Municipal League, repudiated the aid of the All-Berkeley club's ticket for city council.

The three candidates set forth that they have been endorsed by the league because they fought for the city manager plan and that their names were put on the opposition ticket without consultation.

This statement was followed by one from James K. Fisk, candidate for mayor, in which he made charges that the San Francisco-Oakland Terminal Railway is ignoring its franchise and costing the citizens of Berkeley thousands of dollars in refusing to pave streets properly. His platform will be to force the trolley corporation to "make good its agreement in street improvements."

Another endorsement of the salary raise from \$130 to \$150 monthly sought by the Berkeley firemen was given today by the Berkeley chamber of commerce.

This is the thirty-ninth endorsement of the proposition by civic and improvement associations.

**BROTHERS DIFFER
OVER TRUST FUND**

Charging his brother, Harry L. Rosenberg, 340 Post street, San Francisco, with violating a trust agreement entered into years ago to provide their parents with a competency, Joseph Rosenberg today filed suit for an accounting of property in Oakland and a division of the trust.

The plaintiff sets forth that he owned land in Oakland and agreed to deed this land to his brother if the latter would construct a building upon it, the income to go to their parents during their lifetime, after which the two brothers would settle their separate interests.

This agreement was carried out, the parent collecting the income until their death. After this the plaintiff collected the rents and credited them to the account of his brother, he says, as they were jointly interested in different business enterprises and a condition of mutual trust and confidence existed between them.

This situation prevailed until March 1, 1927, when the defendant began to collect the income from the property. On November 11, 1929, the plaintiff requested an accounting. He says that three appraisers he appointed to value their separate interests and the court to find judgment along with an accounting for the past receipts, which he claims amounts to about \$30,000.

**Chicago New Chief
Of Police in Office**

BY ASSOCIATED PRESS
CHICAGO, April 17.—The city's new chief of police, Morgan A. Collins, appointed to succeed Charles Fitzmorris, was inducted into office last night. Chief Collins has been a police captain for a number of years. He started his police career 33 years ago when he took a job as night patrolman to earn money to pay his way through a medical college.

**American Woman
Weds Rome Prince**

BY ASSOCIATED PRESS
PARIS, April 17.—Mrs. Ernest A. Wiltsie, daughter of the late Colonel Stuart Taylor, American Civil war veteran, was married yesterday to Prince Carlo di Biadito, son of Senator Admiral Prince di Bittorio di Italy, in the church of St. Jovine d'Evry. Myron T. Horrick, the American ambassador, gave the bride in marriage.

Excursion Fare: Railroad tickets

California are on sale daily. New and lower excursion fares are effective for the Spring and Summer seasons. Round trip fares from Bay Cities to Yosemite Valley and return as low as \$19.50. Y.T.S. 240-Mile Motor Tour or the "Tioga Pass Route" may be included in railroad tickets at excursion fares.

Three Yosemite Features: Bear in

mind these three things when you think Yosemite: "Y.T.S. 240-Mile Motor Tour, reaching both sides of the Park" with free trip to Glacier Point; "Tioga Pass Route" in either direction between Lake Tahoe and Yosemite Valley; and "Y.T.S. 240-Mile Motor Tour or the 'Tioga Pass Route' may be included in railroad tickets at excursion fares."

Yosemite National Park: Yosemite National Park, reaching all points of interest on both sides of the Park and serving all resorts, Yosemite Valley, Glacier Point, Tuolumne Meadows, Tioga Pass, Lee Vining Canyon, Mono Lake, Carson Valley of Nevada and all the Yosemite Valley and all the Yosemite National Park.

Yosemite National Park: Yosemite National Park, reaching all points of interest on both sides of the Park and serving all resorts, Yosemite Valley, Glacier Point, Tuolumne Meadows, Tioga Pass, Lee Vining Canyon, Mono Lake, Carson Valley of Nevada and all the Yosemite Valley and all the Yosemite National Park.

19 to Membership
RICHMOND, April 17. — Log Cabin Camp No. 637, Woodmen of the World, elected 19 to membership at last night's meeting. The initiation will be held on next Monday evening.

This compromise is being sought by the Governor, in addition to the \$450,000 provided by the recent highway amendment in the hope that the bill will end the growing opposition to the budget. It is said, and in order to pass the financial measures quickly out of the Senate Finance Committee, and that the bill will be passed.

That something has to be done to expedite matters, and to bring this session to a close, is apparent to all observers. The Assembly is not far from being adjourned, although the bills are not piling out bills with commendable speed, the houses of the Legislature are slow to act. For this reason night sessions of the Assembly will be held on Monday, Tuesday and Wednesday night, and will be continued next week as a regular feature of the session until adjournment is taken. As a rule night sessions are not resorted to by the Legislature until the day of adjournment is pressing.

The Assembly has passed, with-

lates the sale of hypodermic needles and other substitutes of the drug traffic, and provides, under certain circumstances, for the seizure and confiscation of automobiles found to contain narcotics. The highway bill which has the rather unusual feature as compared with the flood of road bills for which funds are asked—that it does not request one cent from the State, but actually offers the sum of \$1,000,000—was passed in the Assembly by a vote of 40 to 10.

San Francisco. Under this bill the city of San Francisco offers the money toward construction of a new road from San Francisco to Redwood City, and the State will contribute under the supervision of the State Highway Commission and the road to become part of the state highway system.

HIGHWAY MESSAGE SENT.

A message dealing with highways was transmitted to the Legislature by the Governor, in which existing roads which counties and cities wish to turn over to the state will be sent from the gov-

The practice of certain employers to give their women workers "jobs to work at after they get home," thereby exalting the provisions of the eight-hour law for women, is combated in the bill of Senator Daniel C. Murphy, which has just passed the senate. According to Murphy some employers are in the habit of circumventing the law in this manner, thereby "introducing sweatshop tactics into the home." Senator Murphy, Daniel C. Murphy, which "piece work" being done at home, which, should be done, under ordinary circumstances, in the factory.

SWEDISH TRADE IN BETTER SHAPE

STOCKHOLM, April 17.—(By Associated Press).—The clearing-up process of the years of depression has led to a firm foundation for improvement and general prosperity in Sweden, and the critical period of liquidation has passed through its final phase, according to the official economic review of the first quarter of this year, which has just been issued by the Swedish Board of Trade.

Significant facts set forth in the review are the stabilization in industrial stocks since the beginning of the year, and the notable rise in industrial production, though labor problems and the Baltic situation have caused temporary reaction. Considerable progress has been shown in practically all the timber, wood pulp, and paper industries. The iron, steel and machine shop industries, however, have had only a slight increase in production.

The number of firms has been steadily decreasing. The banks report that the withdrawal of savings by small depositors has now been re-

Some alarm, however, is caused by the present labor conflict, which involves 65,000 men in the wood and iron industries. If prolonged this strike may materially influence Sweden's exports during the fall, and may cause a rise in prices for their Swedish staple products for which no marketing prospects are otherwise good.

A statistical analysis of Sweden's total foreign trade for 1922 based on values instead of volume, shows that both exports and imports have been increasing since the middle of 1921, and at the end of last year had passed the normal line for 1921. This the review cites as one of the most trustworthy evidences that normal conditions in foreign trade have been restored.

SONORA PIONEER BURIED.

SONORA, April 17.—The funeral of the late pioneer, Andrew Poor, took place yesterday afternoon under the auspices of Marble Mountain Lodge No. 405 I. O. O. F. Interment was made in Odd Fellows' cemetery. He was 91 years old. He had lived in Tuolumne county since the early gold days, dying at the home of his son, Andrew, at Ravendale, four daughters and four brothers, the latter all over 60 years old, also survive.

OROVILLE MILL BEGINS LUMBER CUT FOR SEASON

**Saws Are Started in Swayne
Plant With Capacity of
180,000 Feet Day.**

OROVILLE, April 17. — Saws were started running at the Swayne lumber mill here yesterday when the company opened its 1923 season. W. H. Swayne, president, and R. H. Swayne, vice-president, say the capacity of the local mill is 130,000 board feet of lumber per day, and it is expected to bring the mill up to capacity within a short time. Approximately 500 men went to work in Oroville when the mill started.

Two woods camps are in operation cutting logs for the local mill. One of these is located at Mountain House and the other at Merriam, in the heart of the choice sugar pine country of the Sierra Nevada, and both are equipped with all modern conveniences for the workers.

The Swayne Lumber Company has sufficient timber holdings east of Oroville to assure ongoing operations for at least 40 years. R. H. Swayne is a large owner of the Swayne-Hoyt Lumber Company, and he has this to say about the lumber market:

"More and more eastern buyers are turning to California and the Pacific coast for lumber supplies. This is true for lumber, as well

of lumber in the heretofore vast eastern timber sections."

Masons Gather For Stockton Conclave

STOCKTON, April 17 —Before a large audience last night Stockton

The city is full of Master Masons and their families and members of the various lodges. The grand lodge of the four day convective. The commandery and parade and massed drill formations Thursday evening are expected to mark the peak of interest in the present sessions.

Esparto High School
WOODLAND, April 17.—C. Holthead, superintendent of construction of the new \$100,000 Esparto high school, started a crew of men on the foundation of the new structure late last week, while another crew of men began tearing down the old high school building, making room for the new structure. Students of the school are holding their classes and recitations wherever there is a vacant room in Esparto, that the work of rushing the new building may not

have the building up and ready for the opening of this fall semester. The school will hold a bazaar Saturday with Masonic services and United States Senator S. M. Shott will be the orator of the day.

Cafe Guest Fires And Routs Bandits

FRENCH CAMP, April 17.—Not the slightest trace has been found of the bandits who attempted to hold up the O. M. Atwood cafe early Sunday morning during a

lost their nerve and ran, after compelling Atwood to turn the cash register over to them for \$200. At that point a guest whose identity nobody learned, opened fire. The bandits, masked with handkerchiefs, dashed out the rear door, 30 to 40 yards, and began to speed from the place, one gang having been on guard in front, unknown to the merry occupants. As the robbers fled toward Stockton they fired a volley of intimidating shots.

the use of naphtha gas but without compressed air.

ROSEVILLE, April 17.—Forrest V. Rogers of Roseville has been convicted of giving narcotics to young girls. He was sentenced to five years in San Quentin and to pay a fine of \$2000.irate parents

inducing young girls to use dope. Leaving Roseville he went to Sacramento where Federal Agent Stanley Hall traced him under another facelooking narcotics.

The Vegas brothers of Newcastle are building a beautiful colonial residence on their ranch on the highway. The building will cost \$10,000.

The foreman of the Placer county grand jury, W. B. Hotchkiss, of Appleton, is sending out, through the Placer county chamber of commerce, questionnaires addressed to all grand jurymen who have served during the previous five years, in which the question is asked, "Do you still stand for the

ings which was recommended by the grand jury during your term of office?"

new hall of records and jail at an estimated cost of \$100,000. The board of supervisors suggested two added propositions to be placed before the people, a county hospital costing \$175,000, and four memorial halls for ex-service men, each costing \$10,000, to be located at Lincoln, Auburn, Roseville and Colfax.

It is expected to enlist the inter-

Hoitchkiss is planning on a vigorous campaign if the returns from the questionnaires justify that action.

OAKS FIGURE TO PLAY BETTER THAN THEY DID AGAINST SEALS

WASHINGTON COACH BELIEVES CALIFORNIA IS FAVORITE TO WIN CREW RACE SATURDAY

HUSKY EIGHTS IN HARD WORKOUTS ON OAKLAND ESTUARY

Washington Freshmen Lead Varsity Oarsmen By Length and a Half Over Two Mile Course In Morning Practice

By DOUG MONTELL.

Those who are under the impression that the University of California is in line for a sweeping victory in both Freshman and Varsity races next Saturday morning against the University of Washington eight are laboring under a mistake. Nothing else. Two finer boats have not been seen coming from the north in recent years. Each, in its distance, is capable of giving anything in these parts as tough a battle as could be desired.

This is particularly true of the Washington first-year oarsmen who are the finest aggregation of young huskies trotted out in a long time. Yesterday morning the husky babes swept the varsity off their feet in a two-mile spin on the Estuary, leading by a length and a half at the end of that distance.

In the afternoon workouts the babes did not look so good. The work of the morning had left its mark and the youngsters trailed on every sprint. Both boats indulged in a hard grind in the morning practice but took things easy in the afternoon. Coach Callow is taking no chances on overworking his men and the Huskies appear to be in the pink of condition.

Hunter Wins Championship From Armstrong

LOS ANGELES, April 17.—Willis L. Hunter, formerly amateur golf champion of Great Britain, is the new Southern California amateur champion, having won the title by a two and one victory over E. S. (Scotty) Armstrong, of the Wilshire Country Club, former titleholder, yesterday.

It was Hunter's remarkable recovery shots which enabled him to defeat Armstrong. The new champion had difficulty with his tee shots several of which went into the rough. However, he was able to send the ball within reasonable putting distance. His putting also was exceptional. He sank several shots from more than 100 yards. Armstrong's tee shots were consistently good, but his putting only fair. While Hunter was getting himself out of trouble in sand traps or in the rough, Armstrong was wasting strokes on the greens. Hunter is to become golf secretary of the new Southern California Golf and Athletic Club which is building a clubhouse at Elsinore, Cal. His amateur standing will not be affected, it is said, by which the move is held.

Huskies Are Able To Set Fast Pace

Washington has a varsity crew capable of hitting a starting stroke of as fast as the first minute and yesterday afternoon in practice the varsity boat was not through a series of racing starts for stretches of two minutes. Coxswain Grant drove his oarsmen at a clip in the heat of the race and the boat tore up well under the increased stroke.

California will drive at the start under a higher number of strokes per minute than Washington, according to Coach Callow, who says that the Bruins stroke has a tendency to increase above that used by the Washington men.

California men returning from their week-end vacation, took the varsity boat out at 10 and both freshmen and varsity were sent through their paces by Coach Wallis.

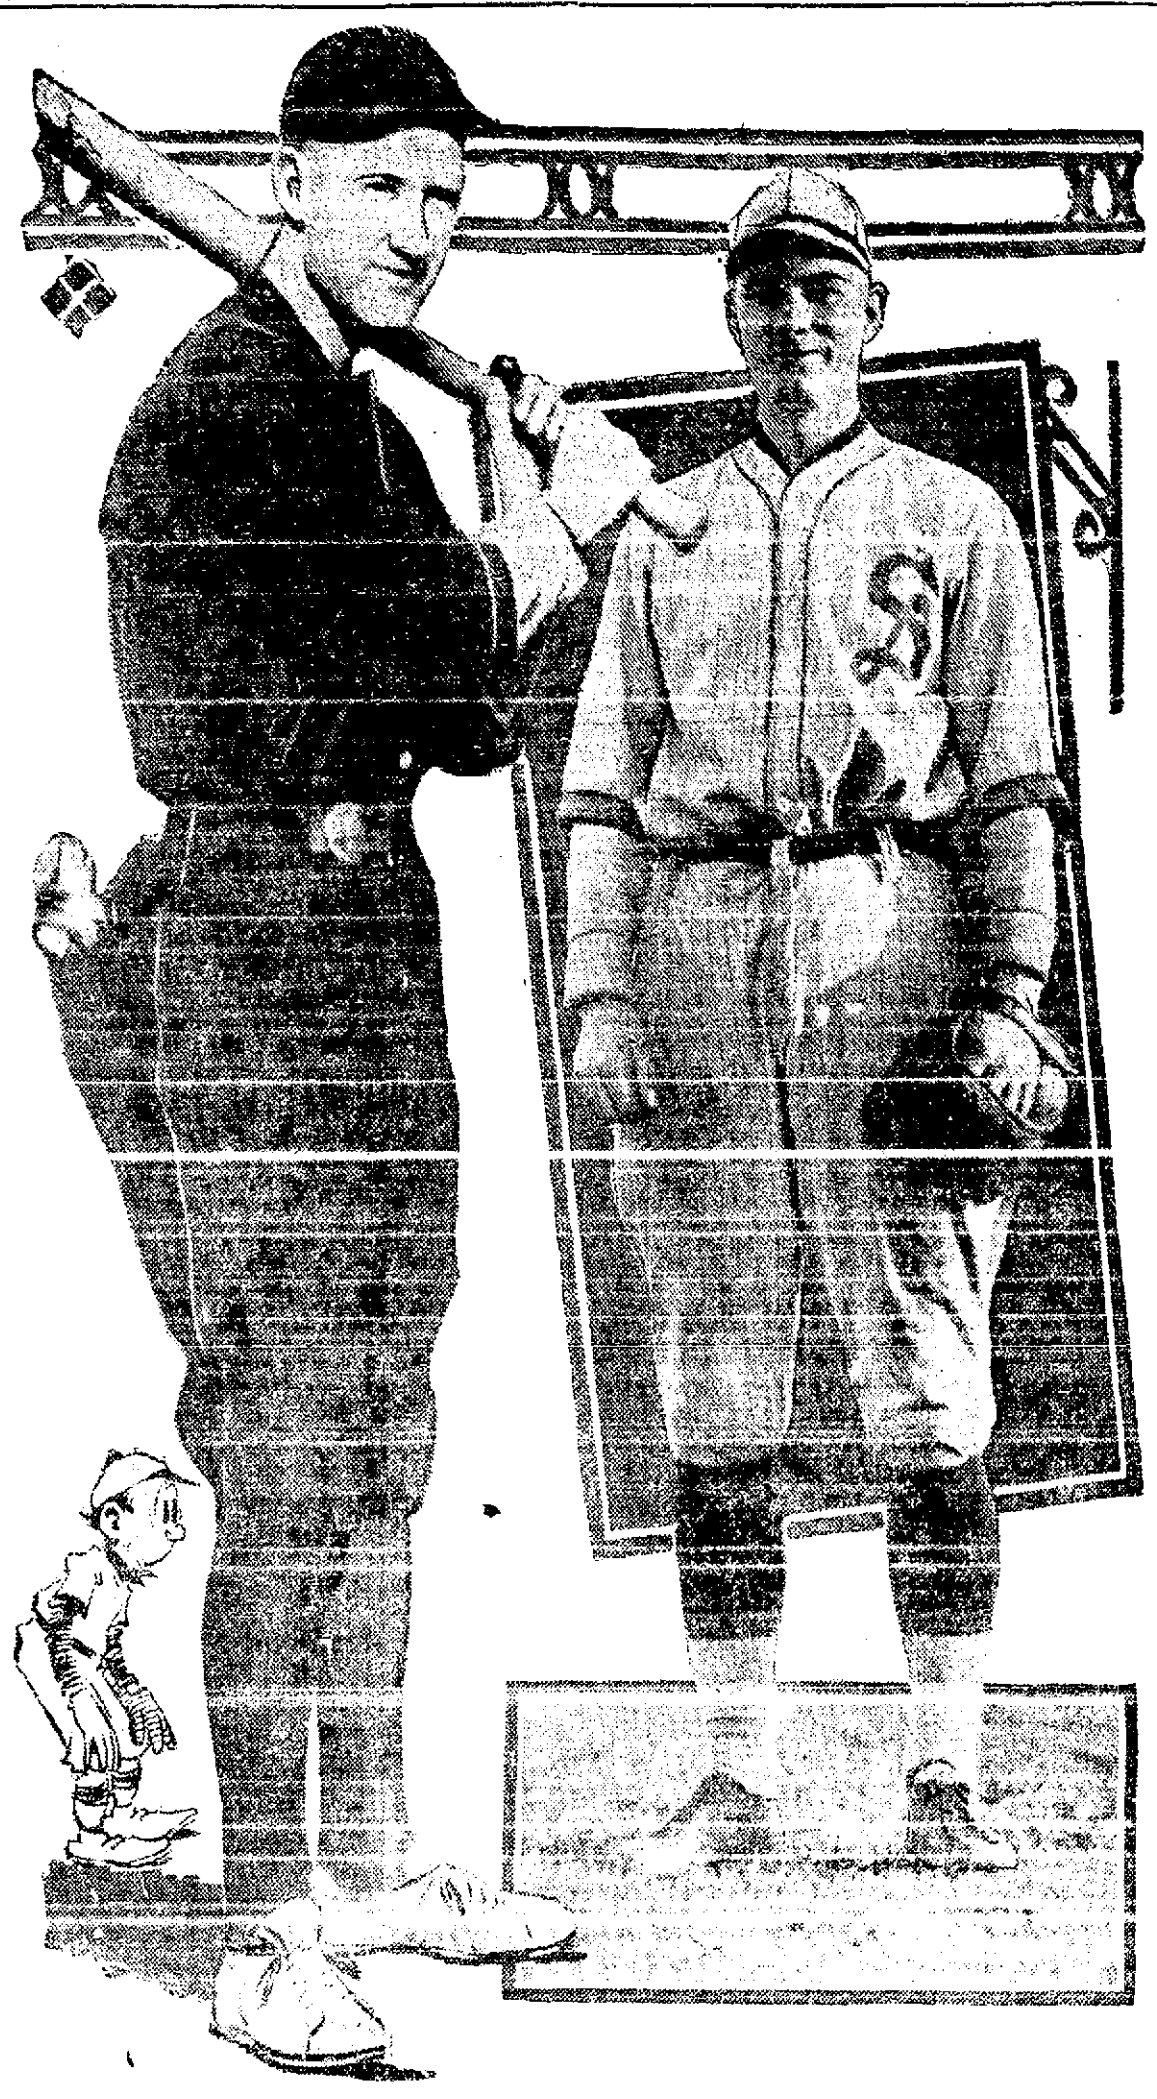

The Bruins are working with greater effort than ever, spurred on by the reports of the prowess of the visiting oarsmen.

Bruin Oarsmen Lacking Height

The Bruins, while shorter on the average, are stockier than the Washingtons. Standing side by side the average California freshman appears as a dwarf against the six-foot northern babes. Four of the men in the Washington Freshmen boat are well over the six foot mark and every inch of this beef

Rival Captains of Card and Bruin Nines

"LEFTY" HERMLE (left) and CLAUDE PEAVEY (right), are a pair of college ball players due for more baseball after leaving college. Hermle has been the backbone of the California infield all season at first base, being one of the leading hitters of Zamlock's team and playing a steady fielding game. At Stanford Peavey was one of the few veterans available for Coach Harry Wolter's nine and during the year has held down second base in most satisfactory fashion.

High Schools' Junior League Ready For Start

The second team baseball squads of the Oakland Athletic League will open their season Thursday afternoon at the Bay View playgrounds. Fremont will cross bats with Techinist, while University will tuck up against Vocational. According to reports the University team may take the game by force, as they are the only team to put a second team in the field.

Each team has a number of squads in the league, and with "Lefty" Smith on the mound against Grimsore of Fremont, the fray should attract considerable attention. Coach Daugherty of Oakland has also formed a formidable second team and the race as a whole, should be well contested.

KREAM BREAD TEAM WINS

The Kream Bread team of the Oakland Athletic League won their first game, Thursday afternoon, at the Bay View playgrounds. They defeated the team from the University of California, 10 to 2. The Kream Bread team was led by their pitcher, Lefty Smith, who pitched a complete game and allowed only two runs. The team's batting average was .350.

Bankers' League

The Oakland and Berkeley Bankers' League got off to a good start Saturday when the Oakland Bank rounded the Bank of Italy at Bushrod, while the Central National boys slipped the Mercantile Trust nine a beating. All four clubs seem to be well balanced, so the fans should see some good games of ball during the next few months. Oakland Bank used Kream Bread on the hill, and the tall southpaw was in good form. Manager Borba had a good club to support Martin. Emmett Guilo, leader of the Central National, expects to see his boys win another pennant.

Figures Show Batsmen to Be Off Form

Cooper Steals Only Base, And Club Batting Average Is .210

By EDDIE MURPHY.

The Sacramento Senators, led by Charlie Pick, arrived here this morning and are ready to do battle with Ivan Howard's Oaks in a series of seven games. The leader of the Oaks looks for his athletes to come out of their slump at the expense of Pick's athletes. Fielding and batting averages of the Oaks show that the club is not working up to form. With men like LaFayette, Willie, Cooper, Brubaker, Knight and McGaffigan, who have Coast League batting averages of last season to speak for them, the club is far off form in having a club batting average of only .210 for the first two weeks. It is hard to believe that the Oaks will not bat much higher than that for the season, and for that reason Ivan Howard claims that the boys are not going at their best at the present time.

We hope that Tran is right, for it certainly would be pitiful to have them finish the season with such a low batting mark. LaFayette was the best batter on the club last season, and to date he is not even batting as high as .200. When LaFayette is in a batting slump, his fielding also takes a slump. If George will just try and shake the old gloom, and make some noise around first base, he may come out of his slump. The Oaks' infield made about as much noise last week as a room on a morning out a sponge.

Manager Howard said today that he hoped to have Marty McGaffigan in the lineup today or tomorrow. The Oaks are in need of speed on the bases, according to the figures collected from their work of the last two weeks. A total of only thirty runs have been scored in the twelve ball games played. Ted Cather, who is the leading hitter on the club, scored but three times, while Brubaker and Willie lead with five each.

Marty McGaffigan should speed up the team on the bases. Bums cannot be scored if the men cannot beat the catcher's throws once in a while. In the twelve ball games played, only one stolen base was credited to the Oaks. Claude Cooper is the only one who has stolen his name. Only one three base hit, made by Ray Brubaker, is credited to the Oaks for the twelve games. There are no home runs, while the two have hit column shows eight for the Oaks.

If the San Francisco Seals play the same brand of ball all through the season as they did in the series against the Oaks, they will be hard going to stop. As for the Seals, if C. L. Chapman, Jack Miller has his athletes on their toes all the time, they will be hitting and always looking for breaks is bound to get to some good place. The Seals' batting average is .250. As they shape up they look mighty sweet, and they should look a lot stronger with Eddie Mulligan stationed at third base. The Seals' pitchers worked well against the Oaks, but the Oaks' batsmen played much better ball, and Manager Tran Howard promises to get the work out of the bats, and have all his athletes give the Seals a better argument when they meet again. LaFayette, Cooper, Willie and Brubaker should be going at their best then.

The Senators are tied with the Seals in the drive for the pennant, but the Oaks hope to pull them down the line. Tomorrow, Thursday and Friday will be free days at the ball games for the lady fans. Last night's attendance at the game here was better than for any series last year, which speaks well for the Oakland fans supporting their team. When the Oaks go against the Seals, they are going at the fast they are going to see who will be the victor every Sunday and also have good crowds watching them on week ends.

Alameda High Tossers Trim Piedmont Team

By MARTIN ROTHE.

The second baseball game of the Alameda County Athletic League turned out to be a regular track meet, when Alameda high defeated Piedmont, 15 to 2, yesterday afternoon at the Piedmont high stadium. Wakened to a great extent by the ineptitude of their star pitcher, Les Healey, Piedmont proved "easy meat" for the Alameda sluggers, who batted away with the willow for a total of fourteen hits.

Healey, stranded on the mound for the Hizzunders, but after being knocked for seven tallies in the fifth inning, he was taken out in favor of "Tiny" Winchester, who fared a trifle better than his predecessor. Healey worked on the lineup for the winners in the

St. Mary's to End Baseball Play Tomorrow

Right-Handers vs. Left Will Conclude Season for Phoenix.

The St. Mary's baseball team, intercollegiate champions for 1923, by winning over Santa Clara on Saturday, will conclude their season. The team has won all four of its games, and is now looking for a fifth victory. The team's batting average is .350.

Cather Leads Oakland Club In Stickwork

Willie and Cooper Are Leading in Run Scoring With Five Each.

Ted Cather is the leading hitter for the Oaks with an average of .311, and he is the only regular Oak in the "three-hundred" class. Brubaker and Willie are tied for run-scoring honors with five each. The batting averages which follow are for those players who got one or more hits since the start of the season, while the fielding averages show those who played in one or more games:

Bill Hughes Of Sacramento Is Best Moundsman

Bill Hughes, the new pitcher with the Sacramento Senators, and who will oppose the Oaks here this week, is tied with Frank Shellenback of the Vernon Tigers for Coast League pitching honors. They each won three games and did not meet with a defeat. Hughes was responsible for only one run. The pitching records, including the games of last Sunday, follow:

Sacramento Is

Best Moundsman

Hughes, the new pitcher for the Sacramento Senators, and will oppose the Oaks here this afternoon. He is tied with Frank Shellenback of the Vernon Tigers for second place in pitching honors. They won three games and did not lose with a defeat. Hughes was the only one to win. The following records, including the results of last Sunday, follow:

Oakland will be port of call for another freight line next Monday when the steamship Cuba of the Panama Canal Co. steams to the Port of Portland to take on cargo for the week. The vessel will make regular weekly calls on this side of the bay for local freight. Cargoes will be loaded Monday at 5 o'clock for the Cuba.

The line maintains a 45-hour passenger and freight schedule between the bay and Portland, sailings taking place on the San Francisco at 3 o'clock on Tuesday afternoon at 3 o'clock. The ship arrives in the Oregon port at noon Thursdays.

According to advance information, all freight is trucked aboard the ship by the San Francisco. Consequently no hooks are used on shipments.

The Baxley passenger agent will be E. J. Linebald, and the company will maintain offices at 1423 Third Avenue, and 2127 University Avenue, Berkeley.

The new Electric Line has announced that commencing next Monday afternoon a regular freight service will be maintained with Oakland. The steamer CUBA will call every Monday at Parr Terminals to receive Oakland freight shipments for the north.

[illegible]

VICTORIA, B. C., April 16.—The steamer Line freighter, *Phelan*, it is announced today, is due to arrive here April 25 to load 2,000 tons of lumber for New York and Boston. She is the first steamer vessel to resume the Pacific service from Germany via the Panama canal, and is now at the Vancouver wharf.

VANCOUVER, B. C., April 16.—With an exceptionally large quantity of freight the Harrison Drive steamship *Aetna* arrived at the wharf this morning from the Kingdom ports via San Francisco and Victoria. The ship had a total of 2,000 tons of cargo for Pacific coast ports, and is expected to arrive at Vancouver. The latter includes 1,000 tons of tinplate and 900 tons of lumber.

The McCormick Steamship Company freighter *Edna* arrived early this morning from San Francisco and is expected to sail to Seattle tonight.

The Japanese steamer *Dojin Maru* arrived yesterday to load for the Orient.

The Canadian *Robert Dallas* Company's *Steward Dallas* will arrive at the wharf this morning. After unloading and will proceed from there to the Sound and come back to Victoria.

...ing him and his husband, who is a director of the company, by large number of others. He also served as consul for Sweden in the jurisdiction embracing California, Nevada, Arizona, Washington, Idaho, Utah and Alaska. He was a past president of the San Francisco Chamber of Commerce and a member of three of the largest clubs in the city.

Captain Mattson was born in Lysekil, Sweden, October 18, 1849. Like all youngsters of that section he went to sea early in life, and as a cabin boy sailed on a sailing vessel, rounded Cape Horn and came to San Francisco. For two years he sailed on the coast, commanding a deck hand did not appeal to him and he became master of a schooner, which was wrecked. He then held the same position on the schooner Mission Canal. In 1882 he purchased his first ship, the *Emma Claudina*. This boat was the first of his later great fleet to start the Hawaiian island service, a concern which has since become a factor in the shipping world.

The new building will be completed within a short time and will be one of the finest on the coast.

Notice to Mariners

Captain S. J. O'Brien of the American steamer Cuba reports to this office by radio this date that at 6:55 a. m. when in latitude north 27° 53' 33" longitude west 122° 55' 15" passed a brown timbered dyke.

Commander J. S. N. in charge.

Yaquina Bay Entrance, Oregon: The following information concerning the entrance to Yaquina Bay, Ore., has been received from Victor B. Ostry, second mate of the tug E. A. Doty, of Portland:

About 500 feet of the outer end of the south point is destroyed and there is no buoy or other mark to indicate how far out the rock extends.

The channel is shifting at the southward at a sharp angle and at times the seas break clear across the channel making it impossible for vessels to enter or leave.

A depth of about fifteen feet of water.

Long Alaska Packers' Association, Seattle, Wash., reports that the tug Pacific Mail, of Seattle, was seen at 10:30 p. m. on Sunday, May 2nd, at 10:30 p. m. at the mouth of the Columbia River.

Canal Ports

Castro—Sailed, Apr. 15, str. Eldorado for Ecuador.

Balfour—Sailed, Apr. 15, str. Eldorado for San Francisco.

water from an arm on a post at latitude 48° 24' 01" north, longitude 122° 40' 02" west.

Vitt Rock light is flashing white light, 100 ft. in diameter, 100 ft. above the water from a framework on a square wooden house, latitude 48° 28' 02" north, longitude 122° 45' 10" west. (Department of Commerce.)

Columbia Island Upper Dike Light—The characteristic of Morse 1st Upper Dike light in approximate latitude 48° 55' 15" north, longitude 122° 45' 10" west, is fixed white. (Department of Commerce.)

15,000 Ton Drydock

The Canadian government has issued instructions to the Wallace Drydock company at Vancouver to proceed at once with the construction of a \$2,500,000 floating drydock for the use of the Canadian navy at the mouth of the Columbia river.

About April 1, 1923, the following changes will be made in the lights of Columbia river above Willamette river mouth:

Troutdale light will be moved about 2124 yards 62° to the south bank of Columbia river near the

trick.

Willamette River-Nadon first light, 6. will be carried away April 4. It will be placed as soon as practicable.

Willamette River-Nadon second light, 14, will be carried away April 12. It will be replaced soon as practicable.

Willamette River-Nadon third light, 15, will be carried away April 3.

Columbia River—

(a) Clifton Star buoy, 11, moved

by 112 feet wind. There are 12 feet sections in the structure, about 1250 yards (1 1/2 miles) to the eastern end of Lady Island and the Tanager Lady Island upper light, without other change.

Tunnel Point light will be moved about 500 yards and set on the outer edge of the reef.

1. Ralmer bar buoy, 1 reported out position April, be about 10 yards in position. It will be relocated as soon as practicable.

2. Quagga light, established April 1908, 1300 yards from shore, 100 feet above water, on arm on 4000 ft. level.

All U. S. Ship Coal

WASHINGTON, April 17.—Coal rebated by the Shipping Board New York for its steamship lines will be inspected and sampled by agents of the Bureau of Mines. It

will be shown from an arm or post about 20 feet above water.

Approximate position: Latitude 45° 22' 36" north, longitude 123° 17' 30" west.

work of the experienced crews of foreign ships remaining on handker on the arrival of Shipping Board vessels at New York as well as the sampling of coal being dumped there.

[illegible]

formation available this condition was not improved during the calendar year 1932.

The Canadian government organized its fleet as a corporation, the Canadian Government Merchant Marine, Ltd., with a capital stock of \$1,000,000 in 10,000 shares of \$1 each (\$408 issued), reduced by \$1,000,000 to \$100,000. The Canadian government was authorized in 1916 to loan money to the corporation for the construction of ships, secured by a first mortgage on the ships and by the company's debentures. The government drew down interest at 5 per cent on the loan of its fleet was delivered in February, 1919, the last 30 January 1921. The fleet on December 31, 1921, comprised sixty-five steamers and 100 motor launches, with a gross cost \$74,571,842, plus \$6,000,000 interest accrued and unpaid—in \$73,668,668; it is carried on the books of the company at \$89,234,554, which is considered to be about the correct value. The company reported for 1921, issued in June, 1922, stated that the average cost of the fleet was \$291 per deadweight ton, that the present cost in Canada of Great Britain of building similar vessels was \$375 per deadweight ton, so that the fair replacement value is \$75 per deadweight ton.

The sixty-five vessels total 350,000 deadweight tons, representing a gross cost to the Canadian government of \$73,668,668, and a replacement amount at the rate of 57 per cent would be \$3,351,500.

The company's loss on operations during 1921 was \$5,047,655, to which was added \$1,535,226 in dividends unpaid to the shareholders, and a deficiency of \$237,416 on insurance recovered for the lost ship Canadian Exporter, and for others which is subtracted, the surplus for 1921 was \$1,508,619. The company's beginning of 1922 of \$3,116,114, the beginning of 1922 of \$3,116,114,

and Engine Building company in Philadelphia for a new tailshaft and propeller for the gunboat Bravo. This, so far as known here, was the first repair order placed by the Mexican Navy Department since the Madrid revolution twelve years ago.

Under the Diaz regime the Mexican navy consisted of some twenty small gunboats, which were maintained in excellent condition and did efficient service in the coastal patrol work for which they were designed. Most of them were of the diesel type, and one or another of the revolutionary war breaks since that time, and the fact that President Obregon is taking steps to put them back into commission has been one of the chief reasons for the progress toward normal conditions in Mexico. Terms of credit in advance for the Bravo's tailshaft were cheerfully accepted by the Mexican government.

The columns of heights gives the elevations of each tide above the mean of Chart No. 1 very Chart solutions. The numbers are

PORTLAND, Ore., April 18.—The steamer *Lake Selwoge* has been purchased by the Pacific Super corporation and after being overhauled here will be placed in the lumber trade out of Takuina Bay, Oregon, carrying cargoes. The vessel is expected to be ready for service within one month.

Inauguration of regular steamship service between here and Alaska is being planned by the Alaska Navigation company, who was here today seeking to sell reservations for cargo and passengers. Portland has no regular steamer line to Alaska for three years past. The proposed line, the steamer *Bufof*, which is under charter to make three round trips from San Francisco to the North star here en route.

About ten passengers will leave here Tuesday on the steamer *Cadiz*, ganshire of the Royal Mail steam packet fleet, represented by the Oregon-Pacific company. Portland is the only port of call for the vessels of the Royal Mail Steam packet and Holland-American lines en joint service to Europe.

The steamer *Lancaster* of the American line is due to leave here Thursday to discharge miscellaneous freight from Atlantic ports. It will load lumber and other cargo sailing from here April 23.

The Dutch steamer *Ypsilanti* shipped at 10 o'clock for Portland, and the *Astoria* (terminal, where she is loading 250 tons of flour for Hong Kong). She will sail tonight for Batavia.

Coming to take the place of the coast guard cutter *Algonquin* during her annual cruise in Alaska waters, the coast guard tug *Tamala* arrived this morning from San Francisco and will leave for her station during the coming summer. She is commanded by Lieutenant Commander W. M. Thompson and

Island Ports.

DUKE'S BRIDE-TO-BE FAVORS SIMPLE THINGS

Lady Elizabeth in Home and Dress Indicates Plain Taste and Simplicity.

By ETHEL MARSHALL, International News Service Staff Correspondent.

LONDON, April 17.—There will be almost none of the royal splendor customarily associated with royalty in the home where the Duke of York and Lady Elizabeth Bowes-Lyon will live after their wedding.

White Lodge, where the royal couple will dwell, is being refurnished and redecorated along the simplest of lines. Queen Mary and the Queen Mother Alexandra, have contributed extensively to the furnishings of the new home.

In compliance with the plainly understood wishes of Lady Elizabeth a large portion of the gifts her friends have sent have been selected with an eye to their utilitarian value.

White Lodge, where the royal couple will dwell, is being refurnished and redecorated along the simplest of lines. Queen Mary and the Queen Mother Alexandra, have contributed extensively to the furnishings of the new home.

OPERA SNOBBISM FATAL TO MUSIC

CHICAGO, April 17. (Associated Press).—Artistic snobbism should be abolished at once and for all time, or as a nation we can leave no trace behind, declared Mrs. Archibald Fraser, chairman of the Opera in our Language Foundation, in an address to the Affiliated Clubs of Chicago.

"There is patriotism in art, or there is no patriotism at all," continued Mrs. Fraser. "If the opera is to be a part of our life, it must be a part of our life that is not snobbish, that is not snobbish, that is not snobbish."

"We as a nation have a language; we have American trained singers and more than 70 American operas in this country and to have them banished from our stage is an injustice every true-hearted American should resist."

"Every country of Europe is singing its own language, which means they are building up their own national music and literature. We take good care of our own language, but we neglect our own language."

"We must go still further. How can we build up good citizenship with a condition existing such as three score foreign language newspapers in Chicago in which no word of English appears? We cannot carry facts or art to the citizen who does not know our language."

"These newspapers and all like them, by governmental decree, should be bilingual. Our children will have no careers in this artistic field if we do not demand opera in English of all companies incorporated in this country."

"Poor translations are being harped upon, but without cause, for in the private library of Mrs. Edith Fraser, there are many translations of the operas of the world."

"The Duke of York, who has become known as the 'Industrial Prince' because of his keen interest in industrial affairs, is entirely opposed to needless display or extravagance both in the furnishing of his home and in the arrangements for his wedding."

"The Duke of York, who has become known as the 'Industrial Prince' because of his keen interest in industrial affairs, is entirely opposed to needless display or extravagance both in the furnishing of his home and in the arrangements for his wedding."

KONG WAH HERB CO.

Dr. Ph. Oak. 4186. Each individual case studied especially and herb tea prepared accordingly. As to health the quickest relief and best results.

1000 41th St., San Francisco, May 19, 1932.

TO WHOM IT MAY CONCERN: I take this method of expressing my sentiments of appreciation to Dr. Kong Wah for the wonderful cure he has effected in cases where several members of my family, including myself, were afflicted with various ailments.

I am desirous to be the means of building up a man in the field of medical advice, as he will find Dr. Kong Wah a specialist and absolutely conscientious. Through an occurrence experienced by a member of my family I learned that Dr. Kong Wah is a complete cure. I will under no circumstances accept the case.

Very truly yours,

JULIUS ZUNINO,
ROSE M. LUPORI,
GEORGE P. LUPORI,
MARY ZUNINO,
LINA ZUNINO.

Y. I. Chan Leads Field

Honest dealings, effected through the use of the English herb tea, leads the field in the treatment of ailments. Dr. Kong Wah continues to lead the field in the treatment of ailments. He is commended to him daily.

WRIST WATCH

SCENE OF AN ANCIENT BATTLE—Here is a picture of Donnington Castle near Newbury, England, in the neighborhood of Lord Carnarvon's castle. The marks of cannon balls are visible in the walls of this ancient stronghold, which is a holdover from the War of the Roses.

MILLIONAIRE'S SON WORKS AS BUS BOY—Setting tables, carrying water, sweeping up the crumbs—that's Carl E. Bergson's job at the Waldorf-Astoria Hotel in New York. Carl is the son of a millionaire and a high officer in the Swedish army, while his sister is a well known singer. Bergson and his mother now live in an exclusive Madison Square apartment. Carl is 16 years of age. He took his present job in accordance with his idea that no matter how much money a man may have, he should learn to do some useful work.
—Copyright by Underwood.

MOTION PICTURE EXPOSITION BUILDING—This is an architect's drawing of an exhibit bungalow of Mexican adobe which will be one of the buildings at the American Historical Revue and Motion Picture Exposition commemorating the Monroe Doctrine Centennial to open at Los Angeles in July, this year.

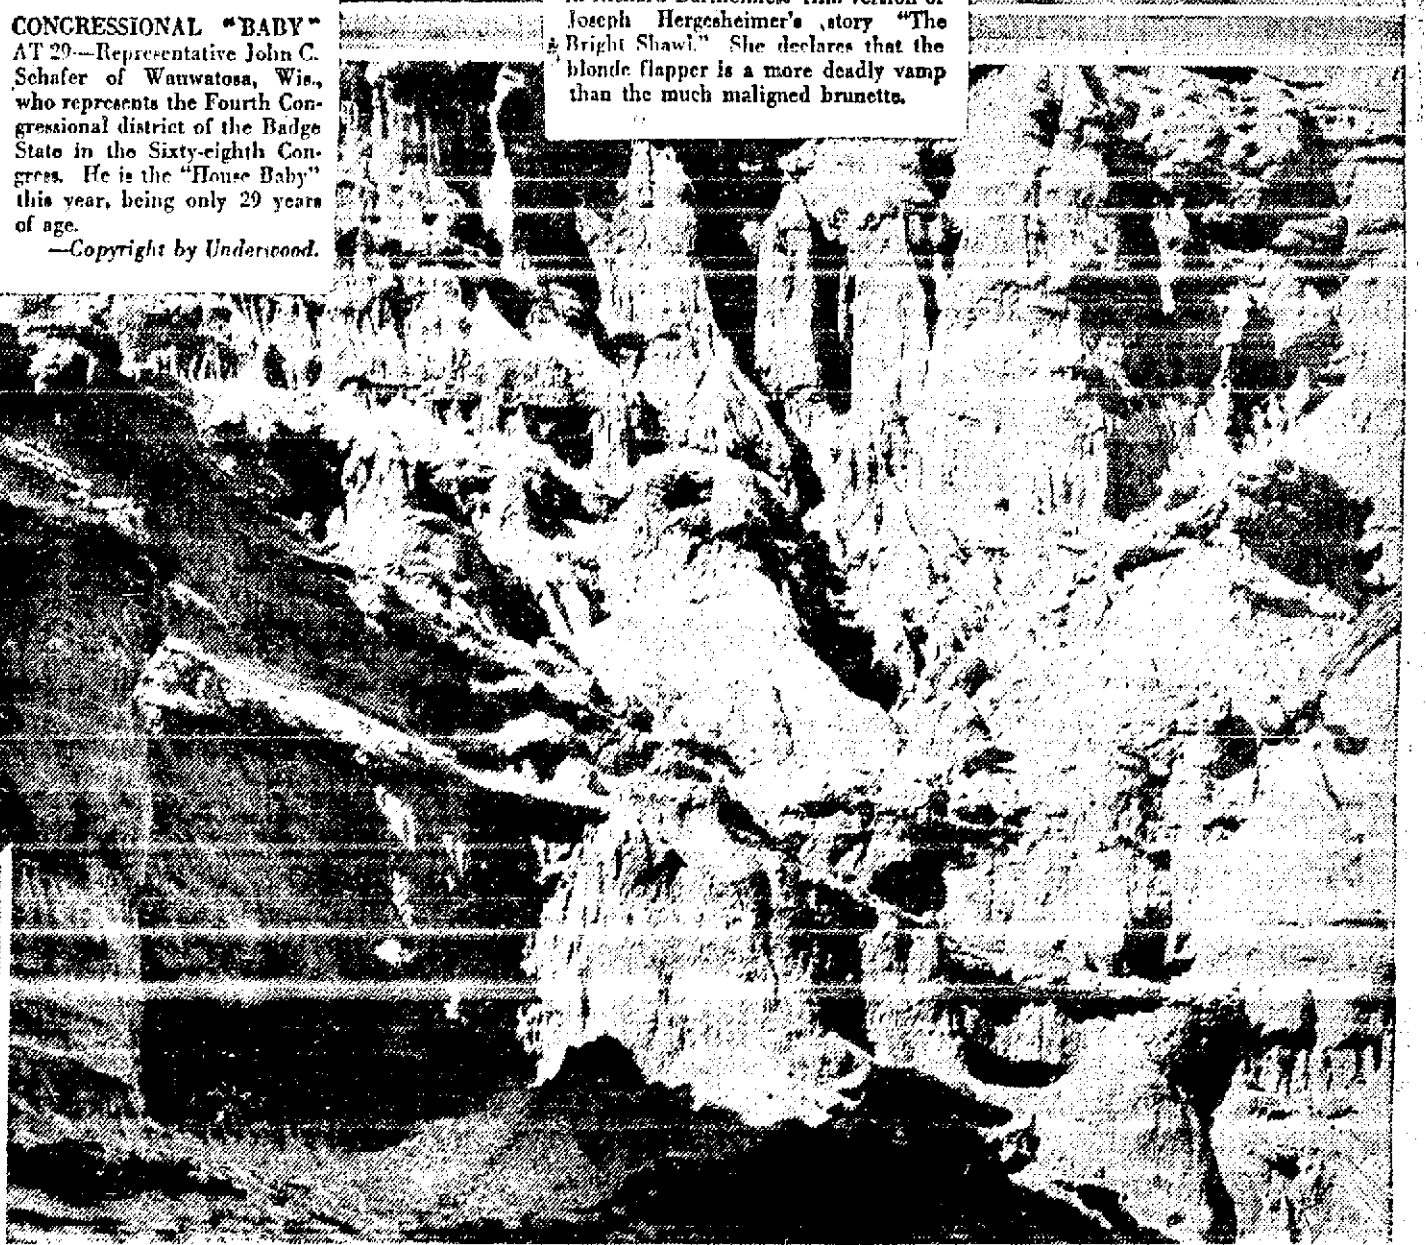

CONGRESSIONAL "BABY" AT 29—Representative John C. Schafer of Wauwatosa, Wis., who represents the Fourth Congressional district of the Badger State in the Sixty-eighth Congress. He is the "House Baby" this year, being only 29 years of age.
—Copyright by Underwood.

SHE CAN "HEAR" PHONE MESSAGES WITH FINGER TIPS—Miss Katherine Steffens of Detroit, Mich., who has been deaf since childhood, has astonished her associates at the Detroit School for the Deaf, where she learned lip reading, by demonstrating how she could "hear" with her fingers on the telephone. She takes down the receiver, places a finger on the diaphragm and through the voice vibrations "hears" every word.
—Keystone Photo.

"GIRL AT THE WHEEL," NEW YORK'S LATEST—At last New York is to have women taxi drivers. These new taxis have been dubbed "suff buses." The young woman in this picture is the first to go on duty, of twelve who have just been hired by a taxi corporation. If the experiment succeeds, the company plans to put many more of them to work.
—Copyright by Underwood.

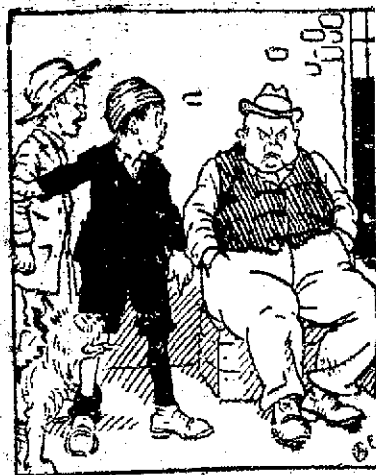

"CAVE OF THE NUNS"—This is one of the many peculiar rock formations in Red Rock Canyon, Kern county, Calif. Note the figures of the two nuns in the foreground.
—Photo by Willard Wood for Earle G. Anthony, Inc.

ONE WAY TO CHANGE CARS—The populace of San Diego turned out to witness a thrilling scene being taken by Clarence G. Barger, while filming the Goldwyn picture, "Red Lights."

HE'S A PREACHER AT 8 YEARS—Mayo Cleveland, 8-year-old son of Rev. and Mrs. W. G. Cleveland of Greenville, Texas, who is said to be the youngest preacher in the world. He recently delivered his first sermon, prepared by himself. The sermon was delivered before a large audience in Kingston Baptist church.

Little Shylock, which is his wife, has told him that he has got to get a job.

I laid and thought about my father a long time this morning when I woke up. Whitey's father plays ball with him and takes him to picture shows as well as being his father. Whenever I talk sense to my father about long pants or something he talks about wearing only short ones with a barrel.

I bet when I get a little boy I will get him a pair of long pants as soon as he can stand up. Nibs has got long pants and I can lick him any day, but a fella in short pants feels kinda ashamed of himself. I bet a fella in long pants feels ashamed of himself though. It must have rained in the night because everything was wet and there was a rainbow when the sun came up this morning. Some of the fella think there is gold at the end of the rainbow and some don't. I don't know which is better. I would rather it would be a shot gun if I was going to find it, or a goat and wagon and harness and everything.

When I had finished the dumplings I went in the pantry

and dropped some stuff out of the window where Jubilee could find it.

After breakfast the bunch was waiting out in front so I did not have to go looking for them. We got to school kinda early and we told about the slippers. Jubilee and I tried to get him to go out there with us tonight but he was feeling grouchy. Little Shylock, which is his wife, has told him that he has got to get a job and earn some money when school has let out.

He said if he could get a setting of eggs somewhere and a setting hen he would go into the chicken business and make out. He said if he could get a setting of eggs somewhere and a setting hen he would go into the chicken business and make out. He said if he could get a setting of eggs somewhere and a setting hen he would go into the chicken business and make out.

If we could get him to go out to the slippers sticks and he has slipped and tried to get him to go out there with us tonight but he was feeling grouchy. Little Shylock, which is his wife, has told him that he has got to get a job and earn some money when school has let out.

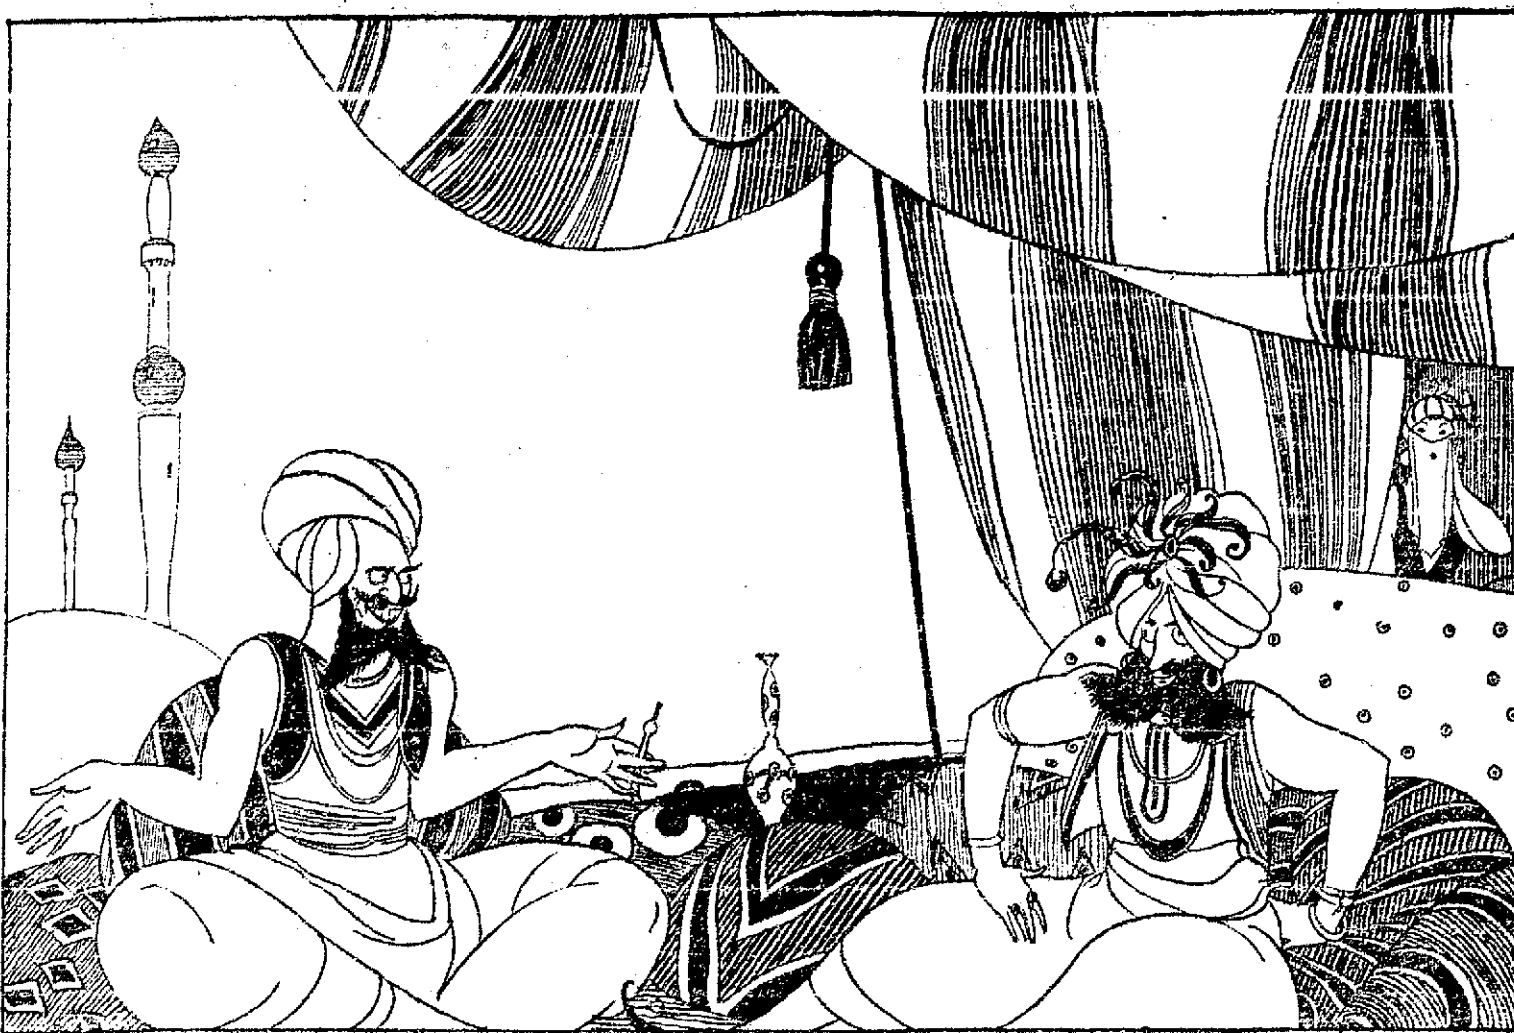

My mother asked my father when we are going over to Yonnie's mother's to spend the evening. He said he was not going anywhere till about catch up on his sleep Sunday morning. If we had went I would have let Yonnie play and I would of sung as many times as I could.

Fellows

By J. A. Waldron

"And as they spoke a veiled woman listened for a space."

FATIMAH AND THE MERCHANT

ALA-UD-DIN the Merchant, and Ghayas, The Wise, his friend, remembered to brush out a momentous matter. And as they spoke a veiled woman, a side from eyes, listened for a space.

In all Hyderabad Shah is there no so rich as thou art, Ala-ud-din. Thou trarest in alien hands, and the trinity thereof are thine. Thou art a worshipper of the serpent, and thy habit is in accord with the faith; yet like some adventurer of the far west to whom religion hath no meaning, thou puttest welfare and inclination first, is it not so?

"Why should it be otherwise? Whose wealth with folded hands when that which he desireth is within reach deserveth unhappiness."

"But why shouldst thou covet this woman? She hath a husband, one trusted by thee, and one who looketh up to thee?"

"Asketh thou why? It is true I have many wives, but no help have I but in my wish and my prayer. I would take this woman Fatimah in hope of a son. Thou hast seen her only as her veil doth conceal her. Thou knowest her eyes are like the stars. I came upon her once in the bazaar. She is a favorite with my wives, though of a strange faith. Her skin is the color of wild honey, and her grace surpasseth that of the most beautiful."

"Even so. And may I not also desire an heir?"

"Yet would she be a favorite of the wives if they knew thy wish and desire?"

"What matterth it in my bazaar though another come?"

"But as to Fatimah, the husband thereof cannot reap riches, Jafar. He is young and fond, even as is Fatimah. It is true that thy wealth is great, as her honor is, but when an ass climbs a ladder then shall we know his strength."

"I see thou art smitten with the beauty of this woman?"

"Even so. And may I not also desire an heir?"

"Yet would she be a favorite of the wives if they knew thy wish and desire?"

"What matterth it in my bazaar though another come?"

"But as to Fatimah, the husband thereof cannot reap riches, Jafar. He is young and fond, even as is Fatimah. It is true that thy wealth is great, as her honor is, but when an ass climbs a ladder then shall we know his strength."

"I see thou art smitten with the beauty of this woman?"

"Even so. And may I not also desire an heir?"

"Yet would she be a favorite of the wives if they knew thy wish and desire?"

"But as to Fatimah, the husband thereof cannot reap riches, Jafar. He is young and fond, even as is Fatimah. It is true that thy wealth is great, as her honor is, but when an ass climbs a ladder then shall we know his strength."

It is written that while thy slave is upon the foot that cannot tread upon the thorn, yet...

"Good hath cometh to him who taketh fortune in hand."

And Ala-ud-din and Ghayas sat long together, turning the matter this way and that. And when their hour of sleep came, the trusted Jafar was on his hand. And when Ala-ud-din came to his servants and among them came Kasim, keeper of his camel, and now by Kasim had intelligence for Ala-ud-din.

"Jafar, O master," said Kasim prostrating himself, "came to the house of the camel with Fatimah, his wife, prepared for the journey upon which thou seest them. And Jafar demanded the two fastest camels, and upon them he and Fatimah disappeared eastward in a great dust."

And Ala-ud-din sent Kasim to be beaten, while others were dispatched in pursuit of Jafar and Fatimah.

But they found them not. For going eastward upon the swiftest camels for a space, Jafar and Fatimah changed their course.

And with them they took the store of rare jewels which Ala-ud-din had gathered among those who knew not their worth.

The Adventures of Raggedy Ann
and Raggedy Andy

by Johnny Gruelle

Copyright by JOHNNY GRUELLE. All Rights Reserved.

"I'm so glad that the Bettle Imp and the Greenhiker have changed and are not mean and selfish any more!" Betsy Bonnet String said to Raggedy Ann.

"I am glad too," Raggedy Ann replied. "It wasn't a bit of fun having them chase us all the time trying to take things away from us!"

"They were trying to take your magic apron away from you, weren't they, Betsy Bonnet String?" the Too ack quack asked.

"Yes," Raggedy Ann answered. "Betsy Bonnet String asked, 'You see, Mr. Too ack quack, Betsy Bonnet String can shake her magic apron and anything good she wishes will come from it!'"

"Indeed!" the Too ack quack said. "Now I should like to see her do that!"

"We will stop under this big tree, where it is nice and shady!" Betsy Bonnet String said, as she got off of her magic bicycle and her friends got off of their magic bicycles.

"Now, Mr. Too ack quack," Betsy Bonnet String asked, "You see, Mr. Too ack quack, Betsy Bonnet String can shake her magic apron and anything good she wishes will come from it!"

"Indeed!" the Too ack quack said. "Now I should like to see her do that!"

A QUEER LITTLE OLD WOMAN CAME BOUNCING RIGHT OUT OF THE TREE.

lovely, golden brown pancakes in a large dish and four little dishes besides. Then shaking her apron again, Betsy Bonnet String shook out a pitcher of maple syrup and forks and napkins.

My! You should have seen the Too ack quack eat the lovely pancakes with maple syrup on them! And the Raggedy and Betsy Bonnet String enjoyed them almost as much as the Too ack quack did.

Betsy Bonnet String had to shake her magic apron six times before the Too ack quack had enough pancakes. He ate so many, which is more than anyone except a Too ack quack and a giant can eat at one time.

Then just as Raggedy Ann was washing Raggedy Andy's and the Too ack quack's face with her hanky and water from the brook, a queer little old woman came bounding right out of the tree and snatched the magic apron right away from Betsy Bonnet String.

And before either Raggedy Ann or the Too ack quack, or Raggedy Andy could take the apron away from the queer little old woman, she had popped right back into the tree and closed it behind her.

Some months were used up in getting to the southern end of South America. The weather was cold, and it was hard to get drinking water from on shore because of the ice over lakes and pools. One of the ships was wrecked along the coast. All the crew was saved, but now only four ships were left in the fleet.

By and by, Magellan came to a body of water which looked like a bay. He thought it might be the beginning of a strait. He hoped he now had a chance to get to "The Ocean of the South," which Bating had found.

Two ships were sent in advance to explore. A fierce storm arose. Several days passed and it was feared the ships ahead had been wrecked. Sorrow filled the hearts of the sailors, but suddenly the "lost" ships came into view. They fired cannon, which was a signal of good news—a strait had really been found!

Magellan gave the order for his fleet to sail through the strait. Three ships obeyed, but the pilot of the fourth turned his vessel around and it was sailed back to Spain.

The remaining ships soon passed into the great ocean called the Pacific, so named by Magellan himself.

If you will take a look at the Pacific on some map of the world, you will see what a tremendous space it covers. The hold graven men on the little ships from Spain may have seen it.

Day after day passed, week after week, month after month. The winds were good, but the water seemed to contain no land—except for two small desert islands, which were of little or no help.

Food became short. There was biscuit to eat, but it was so old it was hard to swallow. The water was yellow and stale with age. Prizes were offered for any man who might catch a rat for the dinner table. Soon rats became "as scarce as hens' teeth."

One day, some one thought of getting value from the ox-hides which were used to keep the sails from chafing against the masts and yard arms. The hides were taken down and dragged in the sea for four or five days, to make them soft. Then they were dried, cooked over an open fire and eaten!

Each sailor wondered, "Are we doomed to starve to death?"

HOUSEHOLD HINTS

PLANT LIFE.
An authority on horticulture says that plants should never be kept in a sleeping room during the night. Plants consume the fresh air and give out carbon dioxide, which is detrimental to the health of the individual using the room.

LESS LAUNDRY.
A little butter under the spout of the cream pitcher will prevent the cream from dripping and making grease spots on the clean table linen.

A SAUCE FOR SPAGHETTI.
Plain boiled spaghetti is delicious if served with a sauce of tomatoes, mushrooms, chopped pepper and a little onion. Garnish plentifully with grated cheese.

EASY COOKING.
An asbestos mat on the gas stove when cooking preserves is a relief to the housewife, insuring against sticking.

BRINGS BACK THE LUSTRE.
In the spring the gold or silver trimmings begin to look a trifle passe. Place a cloth over the trimming and pass a warm iron over it gently for a few minutes and the brightness will return.

PEANUT BUTTER.
Add a pinch of salt and a few drops of vanilla to the peanut butter and note the improvement.

THE UNSIGHTLY RAT RACK.
Remember that the first impression of a home may be a lasting one, and if greeted with a rat rack piled with coats and hats one is not apt to be impressed in a great deal. If you must have a rat rack, keep it as far in the background as possible.

MAKES PAPER STICK.
If the paper that has been whitewashed are rubbed down with vinegar, paper will adhere to them.

FRESHEN THEM.
About the polished chairs in the hall for a few minutes. Then you will know they will not be soggy when served.

A SEWING TIP.
Buy three times the length of material for box plating. Frits take two and a half times as much material.

A QUICK IMPROVEMENT.
It only means a few minutes in boiling water to make tomatoes peel readily and they are so much nicer without the skins, in salad or any other dish.

OPENED CLAMS.
Pour boiling water over the hard-shell clams and allow them to stand a bit for a few minutes. The shells will open easily.

My Favorite Stories
by IRVIN S. COBB
Not a Hit, But a Crash
A popular playwright—prosperous now

tral figure of the champion hard-luck experience.

"I had written a dozen or more plays," he says, "and all of them died aborning. Finally one of my brain-children lived to see production on Broadway. One day farther down the street from the theater where we expected to play, stood a savings bank, and in that savings bank was deposited the last two hundred dollars I had in this world."

"Well, we had our opening night. The crowd seemed fairly enthusiastic, though I noticed that the critics present managed to restrain themselves and remain calm. The next morning when I had read the notices in the paper, none of them being particularly complimentary, I decided to stroll down to the theater to see how tickets were selling for the second night's performance. As I turned the corner into Broadway I almost dropped from joy and astonishment. A line of waiting persons extended along the block and midway into the block below."

SCIENCE
INVENTION

European scientist has discovered that there is aluminum in small quantities in desert plants.

The making of a set of good ivory billiard balls requires the joint labor of half a dozen experts.

Produced by means of ammonia is equal to 50,000 tons of ice consumed daily.

Scientific researches conducted by the Bureau of Standards in Washington, D. C., cost approximately \$41,000,000 a year.

Pads to be worn on a thumb and finger, connected by a short strap, have been invented to give a golfer a firmer grip on his club.

A new electric treatment of pneumonia "like placing a mustard plaster inside the lung" has been successfully applied on nine patients in New York.

A machine has been developed that automatically fills cartons with a measured amount of ice cream. Bricks of one, two or three flavors can be made.

The largest telescope in the world is being constructed at St. Albans by the Nicolson Observatory in Russia. When complete, the apparatus will weigh nine tons.

Of the 35,500 applications for patents taken out in England last year, a large percentage were made by women. Women outnumbered men with inventions for the home.

The balloon has been termed a scientific paradox by certain authorities on the ground that even nature has been unable to create a mobile, self-supporting and self-directing lighter-than-air flying creature. Birds are all heavier-than-air machines.

His
MarkTODAY'S SHORT STORY, BY
Ad Schuster

It is the man that his right name has kept a secret with that of the place where his story had setting. Then, again, there may have been a mistake somewhere. Fleece may have been wrong. It was a queer mix-up, all around, and one impossible in most any other part of the world.

When Rawlins was star reporter for The Relay, a leading British paper in a South American city, he was a big man in bearing and prospects. It was known he was close to all the officials, and he was engaged in the daughter of an American millionaire.

"I will be made," he said in the office, "the continues to send out good copy, and he will soon be, say, a news editor's resignation any day, for the secretary of General Watson would not have to pound a typewriter in The Relay office."

The resignation came, but not as expected. Something happened to the reporter's love story and he could not face the job and the city after all the dreams he had had. Rawlins did not

one knew where he went.

"If anybody sees Rawlins," it was Fleece, the managing editor, who made the announcement, "tell him there is a check for \$500 waiting him. He won the annual prize, again. It was Fleece's way to pretend he thought the reporter was around town and might show up any day."

Office forces change down there. Six years later a man came into The Relay and asked for a job, and got it because he reminded Fleece and the few old-timers of Rawlins. This man was gray and thin and carried a scar which turned his lip into a sneer. As he wrote clean copy, he held on We knew him as Griggs, Ben Griggs.

It was Phil Parker who built the fanciful story around Griggs. "Do you know," Phil put it, "it would be like old Rawlins to come back and work here as another man if he thought he could get it across? I've been studying him and, do you know, he's a lot like the old boy."

That is how it started. Fleece scoffed at the idea from the first, and he had a convincing argument.

"I've got it figured out," he announced. "It's the fellow's eyes, and that's all there is to it. This guy's shifty and unsteady, and you know how next and quick Rawlins was. Nope, Fleece is right and we were on the wrong track. All the same, it would have been a bully yarn."

After that Griggs was accepted as Griggs, and we put our names in our work, which amounted to nothing.

Griggs, who could not mix and was falling down in his work, began to lose out. He was not well and had no interest. We took to betting on how long he would last. There were days when he did not come to work. Fleece would not stand for that.

"Well, I'm canned," Griggs announced one day. "You have all learned no money and I guess for an hour or two," he said with an entirely different voice from his usual.

"I looked at him with the mazed curiosity which always comes to me when I saw the first of something new and strange. It is like seeing a lazy, aristocratic, pampered house dog turning before one's eyes into a gaunt, keen-eyed and relentless hunting animal."

My father remained seated, but I saw in his eyes the same tense alertness which Allen Drake's mirrored. And when Lillian returned to the room with her face slightly paler than usual, and little lines etched at the corners of her mouth—the invariable signs of repressed emotion with her—I knew that the evening's business was indeed at hand.

"HE'S STARTED—"

I realized another thing also. With characteristic modesty, Lillian had referred to Tom Chesley's arrangement of signals "under Allen's direction." Yet when the

BOARD PUBLICLY APOLOGIZES FOR RAP AT OFFICER

San Leandro's Trustees and Club Women Discover Charges Unfounded

SAN LEANDRO, April 17.—Before a crowd that filled the trustees' chamber in the city hall last night, the mayor of San Leandro, the town board of trustees, and the Washington School Mothers' club publicly apologized to Joseph Brown, local police officer.

Brown recently was reprimanded by the board, following the receipt of a letter from the Mothers' club in which he was accused of dereliction of duty. The apology last night was for this reprimand, and for the charge upon which it was based. These Brown was informed, were found to have been unjustified.

During a dance at the Washington school a month ago, given by the Mothers' club, a disturbance was created by several local youths, and Brown was summoned. Meanwhile the youths responsible for the disturbance slipped quietly away from the hall. When Brown failed to make any arrests, members of the Mothers' club accused him of failing to make a proper investigation, and the club sent a letter to the trustees preferring charges against him. The trustees administered a public reprimand to Brown.

Last night, Edwin Duck, a member of the board, apologized to him on behalf of the Mothers' club, who, he said, had found that their charges were unfounded. Mayor Pelton then apologized on behalf of the board of trustees and the city of San Leandro having unjustly reprimanded him.

Brown magnanimously accepted all the apologies, and the crowd cheered.

INFIDELITY CHARGES IN SUIT

Seventeen years ago in Soli, Austria, his wife, Mrs. Theresia Gobelz, separated from him and since that time has been living with his cousin, Jacob Gobelz, by whom she has three children, charges Joseph Gobelz, who today filed suit for a divorce. Gobelz says there is two children by his marriage, Frida, aged 21, and Joe, aged 19, and he asks custody of the latter.

He Avoids Getting "Stuck" in Studies

You have to look sharp when you're taking an R. O. T. C. lesson of this kind at Oakland Technical High School. Photo shows ROBERT CHEAL (left) and MILO ANDERSON

PRAGMATIC WORK WITH BAYONET OPENS AT TECH

R. O. T. C. Unit Training in Army Effort Handled by Lieut. Steward

Introducing bayonet practice as a regular part of the Reserve Officers' Training Corps curriculum, Lieutenant W. H. Steward, in command of Oakland Technical high school's unit, has commenced giving instruction in this line of military work to a few of the members of the R. O. T. C.

Lieutenant Steward says that the main reason for giving this instruction is for the physical education it entails. While the practice in self-defense by handling the rifle with bayonet attached is advantageous to the boys, the greatest benefit comes from the muscular gain.

So far only a few boys are being taught the principles of handling the weapon properly, but the plan is to have these understand the work thoroughly. The unit will then be divided into small groups with a well-trained and proficient student instructor in charge of each. Milo Anderson, a sergeant, and Robert Cheal, a corporal, are among the first to receive this instruction.

The method of handling the bayonet, as taught here, is the regular army system which was developed from the British style at the entrance of the United States in the World war.

CUPID INVADES CAMPUS; MANY TROTHS TOLD

BERKELEY, April 17.—One secret marriage and four engagements announced today form the latest evidence of the activity of Cupid on the campus of the University of California.

At a breakfast at the Alpha Tau Omega fraternity house, Mrs. Audrey Minger revealed the fact that she had become Mrs. Roswald Hall a month ago. Hall is a member of Zeta Psi fraternity, Berkeley, and Minger is a member of the same house.

Jean Sanford, junior, of Fresno, and Robert Collins, freshman, San Francisco, member of Alpha Tau Omega fraternity, wedding to be event of summer.

Following were announced engagements made at the Phi Mu sorority house: Vivian Forsman, senior, Oakland, and Harry Seams, graduate with Phi Mu, and a secret in business in Los Angeles.

Eva Wulzen, freshman, San Francisco, and William Tomlinson, business man of San Francisco.

HALF CRIMINALS MAD.—At 10:30 A. M. Justice Tache declared from the bench that at least half the criminals were unbalanced mentally.

Young Speeder's Tears Win Leniency

SAN LEANDRO, April 17.—The stern demeanor of the local court proved too great for 16-year-old Leland Goveia, of Commercial street, Hayward, when he appeared before Justice W. J. Cannon for speeding yesterday. Despite effort at self control, he burst into tears. The emotion won the boy leniency, according to Judge Cannon's statement, with the result that instead of being referred to the juvenile court, he was ordered to reappear with his mother at a later date and receive his conduct during the next hearing.

GAS SAVINGS DISCUSSED

LOUISVILLE, Ky., April 17.—More than 1000 delegates were here today for the opening of the annual convention of the National Gas Association of America. Conservation of natural gas is one subject to be discussed. Officials pointed to the falling off by approximately 12,000,000 cubic feet in the gas production since 1921 as an emphatic warning of the need for economical use of the natural supply.

SCALPED BY TRAIN

DULUTH, Minn., — Andrew C. Hubert's scalp was torn off when he leaped from the platform of a train and was struck by a car going in the opposite direction.

Army Officers to Flirt With Death

SAN FRANCISCO, April 17.—Army officers at the Presidio of San Francisco went out to play with a new form of death today. It is a lethal gas of origin and components not yet revealed, which is declared to be more deadly than anything used in the world war. Army headquarters announced that tests would start today.

De Valera Envoy Is Found Dead

WASHINGTON, April 17.—Laurence Ginnell, who called himself the envoy to this country of the De Valera party in Ireland, was found dead today in his hotel room here. Physicians said death resulted from natural causes.

Quebec Profits From Sales of Liquor

QUEBEC, April 17.—Profits of the Quebec Liquor commission for the fiscal year ending April 30 were expected to exceed those of last year, which were over \$4,000,000, it was announced last night. No definite figures were available, the commission said. A reduction in the prices of imported wines was forecast.

Food Expert Talks On Nourishment

BERKELEY, April 17.—"The Science of Nutrition" was the subject of the first of a series of Highcock lectures, which was given by Professor Lafayette B. Mendel last night in Wheeler hall.

Old ideas of a single element that was supposed to form the basis of all nourishment were related by Professor Mendel, who illustrated his lecture with stere-

gram slides of men famous in this field.

The next of the series of lectures will be on Wednesday night at 8:15 o'clock in Wheeler hall, and the subject will be "The Importance of Little Things in Nutrition."

Professor Mendel is a leading authority on this subject, and is Sterling Professor of Physiology and Chemistry at Yale University. His lectures are open to the public.

There's only one way to get the full fresh-roasted flavor of good coffee.

Buy one of the coffees in vacuum-sealed tins. Some, of course, are better than others. Try one after another. You get your money back if you don't like Schilling's.
